LETTERS
Understanding Man's Behavior: L. S. Minckler; G. Semby; J. A. Nevin;
Research Grant Evaluation at NIH: L. C. Mark; Spectacular Jaw:
S. P. Applegate

EDITORIAL
New Initiatives in Technology

ARTICLES
A Cartography of the Ecstatic and Meditative States: R. Fischer
The Nation's Rivers: M. G. Wolman
Current Physics Information: H. W. Koch

NEWS AND COMMENT
After the Pentagon Papers: Talk with Kistiakowsky, Wiesner
Institute of Medicine: Broad-Spectrum Prescription
Nuclear Physics: Does Competition Breed a Monstrous Game?

RESEARCH TOPICS
Molecular Biology: Gene Insertion into Mammalian Cells

BOOK REVIEWS
Use of Marijuana, reviewed by M. Jarvik; other reviews by R. Pipes, J. H.
Ostrom, E. Holtzman; Books Received
REPORTS

Jupiter: An Unidentified Feature in the 5-Micron Spectrum of the North Equatorial Belt: G. Münch and G. Neugebauer .................................................. 940

Particle Formation during Water-Vapor Photolysis: I. D. Clark and J. F. Noxon ........ 941

Mars: Has Nitrogen Escaped?: R. T. Brinkmann ........................................................................ 944

Ice Nucleation by Coprecipitated Silver Iodide and Silver Bromide: B. Vonnevgt and H. Chessin ................................................................. 945

Microanalysis of Individual Mitochondrial Granules with Diameters Less than 1000 Angstroms: L. V. Suffin, M. E. Holtrop, R. E. Ogilvie .............................................. 947

Strontium Induced Rickets: Metabolic Basis: J. L. Omdahl and H. F. DeLuca .................. 949

6-Hydroxy-Δ1-Tetrahydrocannabinol Synthesis and Biological Activity: Z. Ben-Zvi et al. .......................................................................................................................... 951

Galactose Toxicity in the Chick: Hyperosmolality: J. I. Malone, H. J. Wells, S. Segal .................................................................................................................. 952

Prenatal Cerebral Development: Effect of Restricted Diet, Reversal by Growth Hormone: S. Zamenof, E. van Marthens, L. Grauel ................................................................. 954

Strontium Accumulation by Sarcoplasmic Reticulum and Mitochondria in Vascular Smooth Muscle: A. V. Somlyo and A. P. Somlyo ........................................................................... 955

Stereoscopic Depth Movement: Two Eyes Less Sensitive than One: C. W. Tyler ............... 958

Technical Comments: Growth Inhibition by Mechanical Stress: R. Turgeon and J. A. Webb; Arctic Paleo-Oceanography in Late Cenozoic Time: K. Hunkins et al.; Y. Herman ........................................................................................................... 961

ASSOCIATION AFFAIRS

Ocean Symposium: H. B. Stewart, Jr.; Technology and Growth in a Resource Limited World; A Search for the Recognizable Goals and Constraints of the Steady State Earth ............................................................... 964

COVER

Etching, made during an acute schizophrenic episode, demonstrates the contraction of nearby visual space, which results in a raised horizon (original drawing, 130 x 100 millimeters). See page 897. [Photograph courtesy of Leo Navratil, Niederösterreichisches Landeskrankenhaus für Psychiatrie und Neurologie, Klosterneuburg, Austria]
