Peripheral Thermoregulation: Foot Temperature in Two Arctic Canines: 
R. E. Henshaw, L. S. Underwood, T. M. Casey ........................................... 988

Osmiophilic Polymer Generation: Catalysis by Transition Metal Compounds in 
Ultrastructural Cytochemistry: J. S. Hanker, W. A. Anderson, F. E. Bloom ........... 991

Thyroid Hormone Influence upon Lung Surfactant Metabolism: R. A. Redding, 
W. H. J. Douglas, M. Stein ................................................................. 994

Tolerance to Sheep Red Cells: Breakage with Thymocytes and Horse Red Cells: 
R. K. Gershon and K. Kondo ................................................................. 996

Loss of a Parathyroid Hormone–Sensitive Component of Phosphate Transport in 
X-Linked Hypophosphatemia: F. Glorieux and C. R. Scriver ................................. 997

Ultrathin Carbon Support Films for Electron Microscopy: R. C. Williams and 
R. M. Glaeser ...................................................................................... 1000

Human Phosphoglycerate Kinase and Inactivation of the X Chromosome: 
B. F. Dey et al. ..................................................................................... 1002

Sexual Receptivity: Facilitation by Medial Preoptic Lesions in Female Rats: 
B. Powers and E. S. Valenstein ......................................................................... 1008

H-2 Antigen on Cell Membranes: An Explanation for the Alteration of Distribution 
by Indirect Labeling Techniques: W. C. Davis ................................................. 1008

Lateral Interactions at Inner Plexiform Layer of Vertebrate Retina: Antagonistic 
Responses to Change: F. S. Werbin ................................................................... 1008

Lack of Enhanced Oxygen Consumption by Polymorphonuclear Leukocytes on 
Phagocytosis of Virulent Salmonella typhi: R. M. Miller, J. Garbus, R. B. Hornick 1010

Mast Cells from Human Respiratory Tissue and Their in vitro Reactivity: 
R. Patterson et al. ..................................................................................... 1012

Phosphodiesterase in Dictyostelium discoideum and the Chemotactic Response to 
Cyclic Adenosine Monophosphate: R. G. Pannbacker and L. J. Bravad .............. 1014

Cyclic Nucleotide Phosphodiesterase in Dictyostelium discoideum: Interconversion 
of Two Enzyme Forms: B. M. Chassy ................................................................ 1016

Uricotelism and Low Evaporative Water Loss in a South American Frog: 
V. H. Shoemaker et al. .................................................................................. 1018

Mapping of Interactions in the Pitch Memory Store: D. Deutsch ......................... 1020

Δ^2-Tetrahydrocannabinol and Ethyl Alcohol: Evidence for Cross-Tolerance in the 
Rat: L. M. Newman et al. .............................................................................. 1022

MEETINGS 
Intelligent Verbal Behavior: D. A. Norman and R. P. Abelson; Prospects of 
Gene Therapy: E. Freese ............................................................................. 1024

COVER 
Acrylic casting of blood vessels in paw of gray wolf. Circulation in the 
paw and toe pads is almost entirely in cutaneous plexuses. Flow of blood 
in arteries is into the center of plexuses; flow in veins is from the 
peripheries (about ×1.7). See page 988. [R. E. Henshaw, Pennsylvania 
State University, University Park]
