EDITORIAL  CACTAL: Cooperation for Progress:  W. Bevan

NEWS AND COMMENT  The Limits to Growth:  Hard Sell for a Computer View of Doomsday  DBS:  Officials Confused over Powers  Women’s Lib and NIH Advisory Committees—Progress?

RESEARCH NEWS  Nuclear Explosion Seismology:  Improvements in Detection

BOOK REVIEWS  Symmetry of Crystals, reviewed by J. G. Burke; The Entropy Law and the Economic Process, K. Boulding;  Freud and the Americans, J. C. Burnham; Amazonia. E. B. Basso; The Brain in Hominid Evolution, D. R. Pilbeam; Introduction to Quantitative Paleocology, C. P. Hughes; Palaeozoic Fishes. K. S. Thomson;  Books Received

Frequencies of Occultations of Stars by Planets, Satellites, and Asteroids:
B. O'Leary .................................................................................................................. 1108

Raman Scattering from Flames: M. Lapp, L. M. Goldman, C. M. Penney ........... 1112

Antigenic Relationships in Mammalian DNA Polymerase:
L. M. S. Chang and F. J. Bollum .............................................................................. 1116

Carcinembryonic Antigen Present in Human Colonic Neoplasms Serially
Propagated in Hamsters: D. M. Goldenberg and H. J. Hansen ......................... 1117

Electric Enhancement of Bone Healing: L. S. Lavine et al ................................ 1118

Mercury Concentrations in Museum Specimens of Tuna and Swordfish:
G. E. Miller et al. ...................................................................................................... 1121

Selenium: Relation to Decreased Toxicity of Methylmercury Added to Diets
Containing Tuna: H. E. Ganther et al. .................................................................. 1122

Chalcopyrite Oxidation and Coupled Carbon Dioxide Fixation by Thiothrix
ferrooxidans: A. M. Nielsen and J. V. Beck ........................................................ 1124

Thymus-Derived Lymphocytes: Humoral and Cellular Reactions Distinguished
by Hydrocortisone: S. Segal, I. R. Cohen, Al. Feldman ...................................... 1126

Pancreatic Beta-Cell Web: Its Possible Role in Insulin Secretion:
L. Orci, K. H. Gabbay, W. J. Malaisse ................................................................. 1128

Isolated Adrenal Cells: Adrenocorticotrophic Hormone, Calcium, Steroidogenesis,
and Cyclic Adenosine Monophosphate: G. Sayers, R. J. Beall, S. Seelig ........... 1131

Rat Brain Binds Adrenal Steroid Hormone: Radioautography of Hippocampus
with Corticosterone: J. L. Gerlach and B. S. McEven ....................................... 1133

No Desynchronization among Four Circadian Rhythms in the Unicellular Alga,
Gonyaulax polyedra: L. McMurty and J. W. Hastings ......................................... 1137

Intravascular Degranulation of Neutrophils: An Important Factor in
Inflammation?: H. R. Schumacher and C. A. Aguado ....................................... 1139

Synaptic Transmission Depressed by Colchicine Blockade of Axoplasmic Flow:
M. Perlich and M. Cuénod ..................................................................................... 1140

Technical Comments: Release of Mercury from Contaminated Freshwater Sediments
by the Runoff of Road De-Icing Salt: G. Feick, R. A. Horne, D. Yeagle;
Ethanol Consumption by Rats under Different Lighting Conditions:
J. D. Sinclair; I. Geller .............................................................................................. 1142

MEETINGS
Gordon Research Conferences: A. M. Cruickshank ............................................. 1145

COVER
End view of a flame burning horizontally on a porous plug burner (2.5 centimeters in diameter). A
focused laser beam is passing vertically through the flame for Raman scattering experiments. See page
1112. [S. W. Blanchard, Graphics Unit, General Electric Co., Corporate
Research and Development, Schenectady, New York]
