SCIENCE is published weekly, except for the last week in December, by the American Association for the Advancement of Science, 1515 Massachusetts Ave., NW, Washington, D.C. 20005. Second-class postage paid at Washington, D.C. Copyright © 1972 by the American Association for the Advancement of Science. Annual subscription $20; foreign postage: Americas $3; overseas $5; air freight to Europe, North Africa, Near East $10; single copies $1 (back issues, $2). except Guide to Scientific Instruments which is $4. School year subscription: 9 months, $15; 10 months, $16.75. Provide 4 weeks notice for change of address, giving new and old address and zip code. Send a recent address label. SCIENCE is indexed in the Reader's Guide to Periodical Literature.
Action Spectra for Photoperiodic Response in a Diapausing Mosquito:  
W. E. Bradshaw ........................................... 1361

Digitonin Effects on Photooreceptor Adenylate Cyclase: M. W. Bitensky,  
R. F. Gorman, W. H. Miller ................................ 1363

Psychotomimetic N-Methylated Tryptamines: Formation in Brain in vivo and in vitro:  
J. M. Saavedra and J. Axelrod ................................ 1365

1-Methylenedine Biosynthesis in Starfish Ovary: Action of Gonad-Stimulating  
Hormone in Methylation: H. Shirai, H. Kanatani, S. Taguchi .................. 1366

Galactose Utilization in Galactosemia: J. C. Petricciani et al. .................. 1368

Axons: Isolation from Mammalian Central Nervous System: G. H. DeVries,  
W. T. Norton, C. S. Raine .................................. 1370

Oxygen Affinity in Red Cells: Changes Induced in vivo by Propanolol:  
F. A. Oski et al. .............................................. 1372

Acetylcholine: Possible Neuromuscular Transmitter in Crustacea: K. J. Futamachi ... 1373

Cilia: Activation Coupled to Mechanical Stimulation by Calcium Influx:  
A. Murakami and R. Eckert ..................................... 1375

Thyroxine-Binding Globulin: Characterization of the Binding Site with a  
Fluorescent Dye as a Probe: A. M. Green et al. .............................. 1378

Biogenic Amine Metabolites in Cerebrospinal Fluid of Depressed and Manic  
Patients: J. Mendels et al. ...................................... 1380

Proprioceptive Illusions Induced by Muscle Vibration: Contribution by Muscle  
Spindles to Perception?: G. M. Goodwin, D. I. McCloskey, P. B. C. Matthews ... 1382

A Neural Effect of Partial Visual Deprivation in Humans: R. D. Freeman,  
D. E. Mitchell, M. Millodot ..................................... 1384

Sound Production in Scolytidae: Chemostimulus of Sonic Signal by the  
Douglas-Fir Beetle: J. A. Rudinsky and R. R. Michael ........................ 1386

Altruistic Behavior in a Sphecid Wasp: Support for Kin-Selection Theory:  
W. G. Eberhard .................................................. 1390

Technical Comments: Evolution of DNA Base Compositions in Microorganisms:  
A. L. Bak, J. F. Atkins, S. A. Meyer; C. E. Singer and B. N. Ames;  
Bohr Atom: A Remark on the Early History: K. F. Herzfeld .................. 1391

COVER

Figures and objects of the same physical size appear different when their  
anapparent distances differ as a result of a "projected" stimulus for distance.  
This illusion is one instance of the class of size illusions resulting from  
manipulation of distance stimuli which normally preserve perceptual constan-  
cy. See page 1335. [Drawing by Gary Swinton, Monash University]
