M. C. Corballis ............................................................................. 78

COVER

“Pure tone” bat (Chilonycteris parnelli) emitting orientation cries. The megaphone-shaped mouth aids in the  
forward beaming of echolocation pulses while the funnel-shaped ears are advantageous for the reception of  
echoes. See page 66. [William Sacco, Biology Dept., Yale University]
Science 176 (4030), 7-79.
