**SYMPOSIUM ON—**

**DENTISTRY**

**BIOLOGY OF THE MOUTH**

A collection of comprehensive, multi-disciplinary articles dealing with problems of the biology of the mouth and of oral diseases and also the borderlands where fundamental approaches and investigations in physics and chemistry relate to, and can be brought to bear on such problems.

**ENVIRONMENTAL VARIABLES IN ORAL DISEASE**

Twenty-four distinguished scientists present the findings of their research on the role of environmental factors in oral disease. Geographical and clinical considerations; the oral environment-nutrition and dental caries; experimental considerations in oral soft lesions; parenaturally occurring influences.

**MECHANISMS OF HARD TISSUE DESTRUCTION**

Forty-nine outstanding scientists in the fields of dentistry, medicine and zoology participate in a multidisciplinary symposium on the destruction of mineralized structures by organisms and physical and chemical agents.

**Special price offer**

All three volumes: $24.95

When payment is sent with order: $21.95

Ph.D. Biomedical Engineering and MSEE. Training in electrophysiology and psychophysiology. Two years’ experience in food technology and electronic control systems, desires industrial/academic research or teaching position. Box 171, SCIENCE.

Biomtericlan/Geneticist, Ph.D. Experience in agricultural statistics, biometry, quantitative genetics, blood group genetics; 1½ years' postdoctoral research in population genetics. Seeks research position in biometry or genetics for 1 year only. Box 172, SCIENCE.

Biostatistician, M.S., with strong research background in biological and physical processes including ecological problems. Also have teaching experience. Interested in research and/or academic position in the South or Southwest. Box 173, SCIENCE.

Cancer Virologist. Ph.D., 1969 (Microbiology); 2 years' postdoctoral and 1 year graduate teaching experience. Six years' biochemical and tissue culture experience with RNA tumor viruses. Seeks research position. Box 174, SCIENCE.

Ecologist-Behaviorist, strong environmental interest; Ph.D., 5 years' postdoctoral teaching, research, and ecological consulting experience. Seeking challenging problem-solving position, research with or without teaching. Domestic or foreign. Experienced in Latin America. Box 175, SCIENCE.

Endocrinologist—Developmental Biologist, Ph.D. Experience in general/comparative endocrinology, reproductive physiology neuroendocrinology, developmental biology, vertebrate embryology, neurophysiology. Seeks teaching/research position. Box 176, SCIENCE.

Molecular Geneticist/Biochemist, Ph.D. Seeking research/teaching position. Twelve years’ research experience. Current research with rous sarcomes. Box 177, SCIENCE.

Pharmacist, Ph.D. Psychopharmacology with postdoctoral training. Experience in operant conditioning, biochemical assays. Seeking teaching and/or research position. Available May 1972. Box 178, SCIENCE.

PATHOLOGIST

Merck Sharp & Dohme Research Laboratories is currently seeking an individual with a DVM. Ph.D. in Pathology or equivalent training and eligibility for Board Certification. Training should include experience in general diagnostic pathology in addition to research and familiarity with laboratory animal pathology. The position involves the pathological examination of laboratory animals treated with potential therapeutic agents and differentiation of induced and spontaneous lesions.

Salary is commensurate with experience; working conditions include excellent facilities and equipment. Our desirable suburban location is approximately 25 miles northwest of Philadelphia.

Please send summary of training and experience, date available and minimum salary expected to:

MR. HENRY J. HURST

MERCK SHARP & DOHME RESEARCH LABORATORIES

West Point, Pa. 19486

An Equal Opportunity Employer
Meet fifteen new Olympus Microscopes:

The universal research microscope AH/VANOX

Olympus meets change with change, and offers you the most flexible research microscope ever. Its rugged, modern, square-line stand contains a wide choice of application-oriented options that let you modify its configuration to suit your own use. You choose from four light sources, bright field or dark field contrast, phase contrast, fluorescence, from achromats to plan apochromats three stages, interference contrast—transmitted and reflected light. The new Olympus AH/VANOX modular concept increases your opportunities to build a system around your own requirements by providing a complete range of Olympus accessories. They include objective lens combinations and modular attachment camera systems that can be used with other Olympus microscopes. An economy without sacrificing quality. Find out how you can give your lab ultimate capabilities. Your Olympus dealer can give you more details, or send the coupon.

**125I Hormones**

Human Growth Hormone [125I]
NEX-100 50-150μCi/μg $125/50μCi $175/100μCi

Angiotensin I [125I] moniodinated
NEX-101 >1Ci/mg $125/50μCi $175/100μCi

Angiotensin II [125I], moniodinated
NEX-105 >1Ci/mg $125/50μCi $175/100μCi

Bradykinin [8-tyrosyl-125I]
NEX-097 ~300μCi/μg $125/50μCi $175/100μCi

Tested by chromatoelectrophoresis. Routinely used by NEN for radioimmunoassay.

**CLINICAL RESEARCH**—Physician with 2-6 yrs. experience in the pharmaceutical industry (preferred but not required) to conduct Phase I-III clinical studies. The physician will participate as a member of a unique interdisciplinary research team and will be responsible for designing, initiating and monitoring clinical studies. He will work in an environment of basic and applied research in which professional maturity, flexibility, creativity and an ability to participate in the design and interpretation of laboratory as well as clinical studies will be important. Training of professional and paraprofessional assistants also will be necessary. This is an unusual opportunity for the physician seeking personal growth in clinical research. This position should be particularly challenging to the physician interested in exciting interdisciplinary team research.

**CLINICAL RESEARCH REGULATORY AFFAIRS**—Unusual opportunity for the physician or biological scientist who is seeking personal and professional growth as an expert in Government and regulatory affairs as they pertain to clinical research and drug development. The successful candidate will serve as a member of a clinical research team which is involved in a unique clinical research operation and will be responsible for the interaction of this group with the FDA. He will be responsible for preparation and submission of IND’s and NDA’s and will handle other regulatory matters for the team with regard to Governmental affairs. He will work in an environment of basic and applied research and must be able to participate in the design and interpretation of laboratory as well as clinical studies.

If these positions are of interest, and you wish to pursue them further, please forward a complete resume in confidence to: Dr. A. J. Mabis, Procter & Gamble Company, Miami Valley Laboratories, P.O. Box 39175, Cincinnati, Ohio 45239.
