LETTERS

EDITORIAL
The President's Message on Science and Technology: E. E. David, Jr.

ARTICLES
Archeology in the Turkana District, Kenya: L. H. Robbins
Bacteriophage T7: F. W. Studier
A National Focus of Science and Research: D. W. Bronk
Applied Research for the Public Good—A Suggestion: H. Gershinowitz

NEWS AND COMMENT
National Cancer Act: Deciding on People, Policy, and Plans
Great Lakes Water Treaty Signed
The Fast Breeder Reactor: Signs of a Critical Reaction
Job Market Rallies a Bit for June Graduates

RESEARCH NEWS
Beam-Foil Techniques: New Approach to Atomic Lifetimes

BOOK REVIEWS
A Special Interest, reviewed by W. G. Pollard; The American Ideology of National Science, 1919–1930, G. H. Daniels; Ecosystem Structure and Function, D. M. Gates; Functional Morphology and Classification of Teleostean Fishes, C. Patterson; Isotope Effects in Chemical Reactions, P. E. Yankwich; Cadmium in the Environment, H. A. Schroeder; The Chemistry of Thallium, A. McKillop

REPORTS
Greek Marbles: Determination of Provenance by Isotopic Analysis: H. Craig and V. Craig
Electrical Conductivity and the Red Shift of Absorption in Olivine and Spinel at High Pressure: H. K. Mao and P. M. Bell .................................................. 403

Deuterium Oxide: Inhibition of Calcium Release in Muscle: B. Kaminer and J. Kimura .......................................................... 406

A Mutation Influencing the Transportation of Manganese, L-Dopa, and L-Tryptophan: G. C. Cotzias et al. ........................................... 410

Steelhead Migration: Potential Temperature Effects as Indicated by Gill Adenosine Triphosphatase Activities: W. S. Zaugg, B. L. Adams, L. R. McLain ........................................... 415

Tidal Growth Increments in the Cockle Clinocardium nuttalli: J. W. Evans ........................................... 416

Ergot-Induced Inhibition of Pituitary Tumor Growth in Rats: S. K. Quadri, K. H. Lu, J. Meites ........................................... 417

Induction of Benzo[a]pyrene Hydroxylase in Human Skin: W. Levin et al. ........................................... 419

Interactions of Immunoglobulins G and M in the Detection of the Mammalian C-Type Virus Cross-Reactive Antigen: S. Oroszlan et al. ........................................... 420

Isolation and Characterization of Two Major Urinary Metabolites of Δ1-Tetrahydrocannabinol: S. Burstein, I. Rosenfeld, T. Wittstruck ........................................... 422

Thalamocortical Relay Neurons: Antidromic Invasion of Spikes from a Cortical Epileptogenic Focus: M. J. Gutnick and D. A. Prince ........................................... 424

Deficiency of α-L-Fucosidase: V. Patel, I. Watanabe, W. Zeman ........................................... 426

Cyclic Adenosine Monophosphate Phosphodiesterase in Brain: Effect on Anxiety: B. Beer et al. ........................................... 428

Avoidance Sessions as Adverse Events: P. N. Hineline ........................................... 430

Independence of Short- and Long-Term Memory: A Neural System Analysis: R. P. Kesner and H. S. Conner ........................................... 432

Parthenon in Athens, made of white marble from Mount Pentelikon. The pediment sculptures (now in the British Museum) depicted the birth of Athena Parthenos, the virgin goddess, and her battle with Poseidon for the land of Greece. Isotopic studies of such marbles reveal the localities from which they were quarried in ancient times. See page 401. [R. F. Weiss, University of California, San Diego]
