Self-Stimulation in the Ventromedial Hypothalamus: G. G. Ball ........................................ 72

Taste Stimuli: Time Course of Peripheral Nerve Response and Theoretical Models: J. R. Faull and B. P. Halpern ........................................ 73

6-Hydroxydopa Depletion of Brain Norepinephrine and the Facilitation of Aggressive Behavior: N. B. Thoa et al. ........................................ 75

AAAS ANNUAL MEETING Health and Biology ........................................ 79

COVER

Salton Sea and Imperial Valley of California looking toward Arizona. The valley is lengthening at up to 5 centimeters per year by crustal spreading motions on the San Andreas, San Jacinto, and Elsinore fault systems. See page 15.
