...the Big difference

Just take a look at a specimen through those eyepieces! See for yourself the outstanding improvement in total image quality. Bausch & Lomb's exclusive Flat Field Optical System puts out an image sharply in focus edge-to-edge at all magnifications. That's the big difference!

We urge you to try one. Write for catalog 31-185 and our free demonstration offer.

Research for the World Food Crisis

There is no equivalent collection of the separate contributions of plant science, animal science, soil science, and agricultural engineering to the phenomenal increases in post-World War II agricultural productivity — American Scientist, January-February 1972, p 91

Fifteen distinguished scientists conclude that new methods and techniques will make it possible to meet the food needs of the world's rapidly increasing population throughout the 21st century.

Edited by Daniel G. Aldrich, Jr. 320 pages. 25 illustrations. 31 tables. Index. Retail price: $12.50. AAAS member price when payment is sent with order: $10. ISBN 087168-092-0

Arid Lands in Transition

Scientists from 14 countries assess the changing conditions, the potential for development and possible solutions to problems of development of arid regions in 15 countries around the world.

Aridity and high temperatures are dominant environmental factors for one-third of the world's land surface. Once looked upon as an easily exploited natural resource, the arid regions are now seen to need careful development if their great potential for mankind is to be realized.

Edited by Harold E. Dregne. 524 pages. 120 illustrations. 5 maps. Index. Retail price: $15.75. AAAS member price when payment is sent with order: $13.50. ISBN 087168-090-4

Career Opportunities

Our dedication to the internal research and development of new pharmaceutical products has created several outstanding opportunities for qualified scientists. Available positions include the following:

**BIOCHEMIST**

Ph.D. 0-3 years' experience. Should have ability and interest in developing analytical methods for drugs and their metabolites. Responsible for improving existing methods and developing automated procedures when feasible.

**NUTRITIONIST (ANIMAL)**

Ph.D. 0-3 years experience with strong background in biochemistry and enzymology. Develop new products to increase the efficiency and growth of swine and chickens.

**QUANTUM BIOCHEMIST**

Ph.D. 0-3 years experience. Background should be commensurate with the design of enzyme inhibitors using M.O. parameters. Familiarity with the evaluation of enzyme inhibitors as chemotherapeutic agents is desirable but not essential.

**REGULATORY SCIENTIST**

Degree in a biological science and 2-4 years experience in the preparation and handling of NDAs, INDs, etc. Responsible for preparing submissions in accordance with appropriate government regulations.

**VETERINARY PATHOLOGIST**

D.V.M. with advanced training in pathology. Board certification desired but not required. Duties include the design of experiments and the gross and microscopic evaluation of animal tissues.

Our small city location in Upstate New York offers a unique opportunity to combine career objectives with a more relaxed and complete lifestyle.

If interested, send resume to Mr. Stuart Spence

CLINICAL RESEARCH

Professional fulfillment awaits the talented innovator at G. D. Searle. America's progressive force in the health care field. You will conduct clinical research in the area of cardiovascular drugs. Your responsibilities include performing Phase I, Phase II and Phase III studies.

Ideally you hold a Ph.D. in cardiovascular pharmacology or cardiovascular physiology. A familiarity with clinical investigations procedures is essential. Superior communications skills will facilitate your interaction with prominent cardiologists.

We will recognize your contributions to the medical community with generous compensation and interesting pathways to advancement: For immediate consideration, send your complete resume including salary history and requirements in confidence to:

Mr. Kenneth Kroll

G. D. Searle & Co.

Box 5110, Chicago, Illinois 60680

An Equal Opportunity Employer
B.S. or M.S. Biochemistry and/or Organic Chemistry with or without experience. Basic biochemistry of mitochondrial metabolism. Isolation, analysis, and study of function of proteins, co-factors, and hormones. Clinical biochemistry of stress, especially blood phospholipid analyses and prostaglandin interactions. Location near Philadelphia. Several positions available.

FEMALE MALE

CARdiovascular PHarmacologist

Excellent position available at our Corporate Research Center in Bloomfield, N.J., for a senior scientist (Ph.D., D.V.M. or equivalent) with training and preferably industrial experience in cardiovascular research.

For further information & consideration, please direct a resume of your qualifications to:

Research Personnel

SCHERING CORPORATION
60 Orange Street
Bloomfield, N.J. 07003

Applicants of all races are encouraged to apply.

CHALLENGING, DEMANDING POSTS NOW AVAILABLE for young physicians willing to work in a field combining internal medicine, psychiatry, and drug abuse therapy. Vitam Center Inc., rated as a model program for teenage rehabilitation in the United States, offers clinical management of patients about 12 to 21 years of age with drug, personal, familial, and medical problems. Inhouse and out-patients. Fairfield County, Connecticut. Write Medical Director, Vitam Center Inc., 57 West Rocks Road, Norwalk, Conn. 06851.

The UNIVERSITY OF BRITISH COLUMBIA

Department of Geophysics and Astronomy

Applications are invited for the position of Assistant or Associate Professor to teach and carry out research in Geophysics, starting on 1 July 1973. Applicants should have a Ph.D. or equivalent with demonstrated teaching and research ability. Geophysicists from all fields will be considered, although preference will be given to theoretical solid-earth geophysicists. Applications by 30 November 1972 are invited from qualified individuals and inquiries and applications to Professor R. D. Russell, Head, Department of Geophysicists, University of British Columbia, Vancouver 8, B.C., Canada.

Immunologist/Virologist

Ph.D. LEVEL

Well-established research and development laboratory oriented toward development of clinical diagnostic products is expanding into radioimmunoassay and virology. A unique growth opportunity exists for a scientist able to conceive, organize, and develop practical research in these disciplines. Remuneration commensurate with experience and ability. Located in East coast university. Box 419, SCIENCE.

INSTRUCTOR POSITION AVAILABLE

For 1 January 1973, in the Department of Pathology, University of Michigan Medical School. Person will supervise Blood Bank Special Studies Area including antibody identification, research and development, forensic serology, and teaching. Candidate must have five continuous years of full-time experience in special blood group antibody detection. Blood bank certification (ASCP) required, or graduate degree in blood banking. Evidence of scholarly investigation also necessary. Age, sex, race, religion, and ethnic origin immaterial.

Box No. 1000L. Send resume to Box 420, SCIENCE.

B.S. in Electrical Engineering and/or Systems Analysis. A Ph.D. in Computer Science or related field is desirable. Extensive experience in the design and programming of scientific and engineering computer systems. Demonstrated ability to develop systems architecture and to select and modify existing computer facilities. Location near Philadelphia. Several positions available.

Biomedical Engineer; registered, electrical instrumentation; 15 years' hospital and medical school faculty, publications. Seeks position as research team member, principal investigator, Chairman, Biomedical Engineering, Y.M. Horace Castillo, 404 N. Plum St., Springfield, Ohio 45504.

Physician with biostatistical experience. Certified specialist internal medicine seeks position application of statistical methods, computerization, and classification techniques to real medical problems. Box 415, SCIENCE X

Applications are invited for teaching posts available 1 July 1973. Applications on the academic rank and salary will depend on qualifications and experience. In addition to undergraduate and graduate-level teaching, successful candidates will be expected to develop research in one of the following areas: molecular genetics, biochemistry, virology, immunology, comparative physiology, systems ecology, population ecology, marine biochemistry, and evolutionary systems. Outstanding candidates in other areas will be considered. The Department is now housed in a new building with excellent facilities including a sea-water supply on all floors.

Applications, giving the names of two referees, should be sent to: R. H. Mann, Chairman, Department of Biology, Dalhousie University, Halifax, Nova Scotia, Canada.

The Biomedical Sciences Headship Committee, Department of Chemistry, University of Cincinnati, Cincinnati, Ohio 45221.

Applications are invited for a Biostatistician position in the Biostatistics Section of the Department of Biostatistics, a recently established division of the Department. The Section will continue the long-term research interests in biostatistics of the University's Department of Biometry and Biometrics.

Applications are invited for teaching positions requiring a Ph.D. open for the fall of 1973. Positions are available in invertebrate zoology and parasitology with research interest in one of the following: ethnology, physiology, or theoretical population ecology. The Biomedical Sciences Headship Committee, Department of Chemistry, University of Cincinnati, Cincinnati, Ohio 45221.

The Department of Zoology has two teaching positions requiring a Ph.D. open for the fall of 1973. Positions are available in invertebrate zoology and parasitology with research interest in one of the following: ethnology, physiology, or theoretical population ecology. The Biomedical Sciences Headship Committee, Department of Chemistry, University of Cincinnati, Cincinnati, Ohio 45221.

The Biomedical Sciences Headship Committee, Department of Chemistry, University of Cincinnati, Cincinnati, Ohio 45221.

The Biomedical Sciences Headship Committee, Department of Chemistry, University of Cincinnati, Cincinnati, Ohio 45221.
Applications are invited for appointment as LEcTURER Or ASSISTANT PROFESSOR in the Department of Biology, Memorial University of Newfoundland. The successful candidate will be required to teach courses in Plant Ecology and in Genetics and will also be expected to take part in teaching introductory Biology courses under the direction of the Junior Division. He will be expected to take up his duties on 1 January 1973. Salary: MR. 4,700. Teachers in this category and in the Zoology and Microbiology departments have a Ph.D. in addition to the requirements for the position. Those interested should send their applications to: Adm. Prof. W. E. Stenhouse, Memorial University of Newfoundland, St. John's, Newfoundland, Canada.

Medical Editing and Rewriting. Full-time position requiring preparation of manuscripts for medical and scientific journals. Includes close work with authors and author-investigators whose native language is not English. Must be experienced in medical or scientific writing for professional publications. Excellent medical school-affiliated hospital. Send resume to Box 490.

MICROBIOLOGIST

Assistant or Associate Professor interested in developing a course and research in microbial ecology of dermatology. Twelve-month appointment, good salary and fringe benefits. Equal opportunity employer.

Box 421, SCIENCE.

In accordance with University principles of fairness and equity, applicants are invited for the position of ASSISTANT PROFESSOR OF MICROBIOLOGY at the University of Pennsylvania School of Medicine. Applicants should have a doctorate degree with competence and research experience in any of the following fields: (1) tumor virology, (2) mammalian cell biology, (3) enzyme and macromolecular mechanisms of bacterial pathogenesis, and (4) experimental infections. Excellent teaching and research opportunity. Curriculum vitae should be sent to Box 422, SCIENCE. The University is an equal opportunity employer.

CLINICAL COORDINATOR

Position entails monitoring clinical trials of new drugs. Individual will assist in writing IND's and NDA's. Requires M.S. in Biology or one of the basic medical sciences, or degree in Pharmacy, preferably Pharmacology, or diploma in an equivalent science. Demonstrated technical writing ability and at least a basic knowledge of inorganic and organic chemistry and biology a must.

QUALITY ASSURANCE MANAGER

Requires B.S. in Physical Science. Duties include design, review, evaluation and analysis of failure modes of plastic medical devices. Entry level management position with some experience helpful in O.C. or Reliability desirable. McGaw Laboratories, a growing manufacturing division of American Hospital Supply Corporation, is producing intravenous solutions and other hospital products, is seeking bright individuals who are interested in a career opportunity in our Technical Department. We are relocating the Division to Irvine, near Newport Beach, California, in June, 1974.

McGAW LABORATORIES

1015 Grandview Avenue

Glendale, California 91201

An equal opportunity employer m/f.

MICROBIOLOGIST

Microbiologists- Microbial Geneticist for Research & Development at Wyeth's Laboratories. Positions available with Ph.D. or M.D. with laboratory experience in Molecular Biology, Biochemistry or Microbiology. Research opportunities include: (1) development of new antibiotics, (2) in vitro tests, (3) participation in research projects in the microbiology field. Training will involve research in the molecular isolation of pathogenic microorganisms and their antibiotic resistance. Woodcliff, New Jersey. Ph.D. or M.D. or equivalent postdoctoral experience. Salary $13,000, plus benefits.

Box 430, SCIENCE.

MOUSOTECIOLOGIST, Ph.D., to participate in fundamental laboratory research in Pakistan to develop methods of cereal post-harvest processing. Appointment two years. Travel, housing, and subsistence provided. Salary $15,000 per annum. Submit curriculum vitae to: Dr. Richard H. Baker, Director, Food Production Research Center, University of Maryland, College Park, Maryland.

NEUROCHEMIST

To head research laboratory in addictive diseases. Familiarity and experience with neurochemical determinations essential. Academic appointment and salary dependent on qualifications. Send resume to: Dr. Henri Birelger, Division of Psychiatric Research, National Institute of Mental Health, Bethesda, Maryland.

ASSOCIATE PROFESSOR/PHYSIOLOGY

D. in physiology or closely related science, or equivalent experience required. Teaching and research position in Pharmacology. Must have broad-based knowledge of basic medical sciences and teaching experience in the clinical sciences. Teaching experience highly desirable. Full or part-time salary, open. Minus institutional salary of $13,000. Send resume to: Charles B. Hoffmann, Ph.D., Chairman, Department of Basic Sciences, California College of Podiatric Medicine, 1770 Eddy Street, San Francisco, California 94115.

ASSISTANT PROFESSOR/PHYSIOLOGY

Ph.D. in physiology or closely related science, or equivalent experience required. Teaching and research position in Pharmacology. Must have broad-based knowledge of basic medical sciences and teaching experience in the clinical sciences. Teaching experience highly desirable. Full or part-time salary, open. Minus institutional salary of $13,000. Send resume to: Charles B. Hoffmann, Ph.D., Chairman, Department of Basic Sciences, California College of Podiatric Medicine, 1770 Eddy Street, San Francisco, California 94115.

POSTDOCTORAL RESEARCH ASSOCIATE

Available immediately for research on the control of gonadotropin secretion. Experience in biochemistry and endocrinology required. Send your application to: Dr. Wladimir M. Tong, Department of Pharmacology, New York University, School of Medicine, New York, New York 10016.

RESEARCH IN AGING OF HUMAN FIBROBLASTS IN TISSUE CULTURE

Postdoctoral study of membrane structure and function, collagen and proteoglycan biosynthesis, and cyclic AMP transport and intermediary metabolism. Salary: $13,000. Send application to: Dr. S. Seltzer, Department of Biochemistry, College of Medicine, 1300 Morris Park Ave., Bronx, New York 10461.

Sr. Scientist-Cell Biology

Ph.D. with post-doctoral experience in cell biology required. Experience in biochemistry and endocrinology required. Send your application to: Dr. Wladimir M. Tong, Department of Pharmacology, New York University, School of Medicine, New York, New York 10016.

TRANSPORT-ENDOCRINOLOGIST

Vacant position in this general area at the level of assistant or associate professor. Salary, appointment and rank depend on experience expected. Have funds for starting research assistant, and equipment. Write to: Dr. Adrian Hogen, Professor and Head, Department of Physiology and Biophysics, University of Iowa, Iowa City, Iowa 52240, enclosing curriculum vitae and bibliography.

ASSISTANT-ASSOCIATE PROFESSOR

Position Open January 1973

For Vertebrate Anatomy or Physiologist. Will assume major junior or senior undergraduate course in anatomy and physiology and direct M.S. research. Ph.D. required. Salary $16,000 for assistant professor. Post-doctoral research experience desirable.

Salary $18,000 and rank will depend on qualifications. Send resume by 1 December 1972 to: Dr. T. J. Stitt, Chairman, Department of Biological Sciences, State University College, Brockport, New York 14420.

EQUAl OPPORTUNITY EMPLOYER

THE UNIVERSITY OF BRITISH COLUMBIA

DEPARTMENT OF ZOOLOGY

Applications are invited for a position in Experimental Field Ecology as Assistant or Associate Professor. Preferential will be given to applicants in vertebrate ecology. Teaching load will include one senior undergraduate course and one graduate course. Appointment effective 1 July 1973. Salary will be in the range of $18,000 to $20,000, depending on qualifications. Applicants must hold a Master's degree in Biology or an equivalent field. Applications must be received by 1 December 1972. Write to: Dr. P. A. Larkin, Head, Department of Zoology, University of British Columbia, Vancouver R. Canada.

FELLOWSHIP

DOCTOR OF ARTS IN BIOLOGY

Postdoctoral fellowships are available now for qualified students interested in studying for the Doctor of Arts degree in Biology. Applicants must hold a Master’s degree in Biology and be qualified for postdoctoral study. Applications are submitted to the Department of Biology, College of Letters, Arts, and Sciences, The University of Texas at Austin, Austin, Texas 78712.

The Biotechnology Progress of Carnegie-Mellon University invites applications for a position as Postdoctoral Fellow in Biotechnology. The successful applicant, in addition to being well qualified, will be expected to have a Ph.D. in a relevant discipline. The successful applicant for this position will be expected to have a Ph.D. in a relevant discipline.
