Chemicals for Electrophoresis; Literature .................................... 1303

COVER
Rewati, the strabismic "white" tiger at the National Zoological Park,
Washington, D.C. An abnormality of the central visual pathway occurs in
many albino mammals, can be related to the strabismus, and is present
in the brain of Rewati's brother, Moni. See page 1287. [Smithsonian Institution, Neg. No. 73-1106 10A]
