POSITIONS WANTED

Anthropologist, Medical, Ph.D. Publications, epideimiological research, 8 years of teaching. Interests: behavioral and stress pathology, nutrition, genetics. Seeks interdisciplinary position. Box 564, SCIENCE.

Biochemist, recent Ph.D., background in protein purification, enzyme kinetics, nucleotide chemistry, computer programming. Looking for position in industrial administration. Kirchenbaum, 42 Briarcliff, RDF 3, Williamitts, Conn. 06226.

Biochemist, Ph.D. 1969, woman. Four years of postdoctoral research. Publications. Experience in mammalian and bacterial studies. Varied interests include intermediary metabolism, protein synthesis, biochemical evolution, molecular biology, and so forth. Seeking a position in a research administration. Box 565, SCIENCE.

Biochemist, Ph.D. Biochemical methods screening test new drug, modes of drug action in bacterial and mammalian systems. Seeking position. X

Developmental Biologist, doctorate, strong teaching career in vertebrate development, microanatomy, and cell biology, desires change and opportunity to resume research and continue teaching. Box 566, SCIENCE.

General Microbiologist-Biologist: Ph.D., 4 years of varied postdoctoral experience. I am seeking a teaching position at the college level. X

Geneticist/Cell Biologist: Ph.D. Experience in teaching and research. Many publications seeking academic teaching/research or industrial position. Box 567, SCIENCE.

Microbiologist-Biologist: Ph.D. in microbiology, female. Postdoctorate research and teaching experience. Seeks position in medical microbiology and bacteriology. X

POSITIONS OPEN

NMR Spectroscopist. Trained and experienced in spectral interpretation, operational techniques, and instrument maintenance. Chemistry degree. Box 569, SCIENCE.

Natural Product Chemist, 31, Ph.D., 1970, 3 years postdoc, family, isolation, characterization, synthesis of: alkaloids, terpenes, steroids from marine animals; cannabinoids, alkaloids, steroids from plants. Antimun and cardiovascular screens were used. Strong background in operation and interpretation of NMR, IR, UV, MS, GLC, TLC, I.C. Publications. Involved in pharmaceutical, archaeological, and oceanographic areas. Box 570, SCIENCE.

Nutritional Biochemist, Ph.D., 1970. Research experiences in amino acid, protein, fat, and carbohydrate metabolism, biochemical pharmacology, hormones. Teaching experience in biochemistry. One publication. Seeks academic or research position in San Francisco metropolitan area. Box 571, SCIENCE.

Organic Chemist, Ph.D. Strong background in the isolation and identification of compounds from complex mixtures. Box 573, SCIENCE.

Immediately available Ph.D., 1971 with postdoctoral experience (1973). Seven years of research experience in botany, mycology, and plant pathology. Author of 16 publications. Ability to speak German and Turkish. Write Tariq, 6723 Golf Course Rd., Silver Spring, Md. 20910.

Backpacking McKinley Park, Alaska, month of July 1974, Will consider all photo and wildlife study assignments or field research. Body Struble, 16 Bathbun Road, Towaco, N.J. 07082.

Physiological Psychologist, female, 39, Ph.D. 4 years. Seeks research-teaching position in medical or university setting. Twenty-seven publications and papers in human and animal normal human behavior. Experience teaching brain and behavior, psychological and general psychology. Box 573, SCIENCE.

Pulmonary Physiologist, Ph.D. Research and teaching experience. Desires position in physiology of internal medicine. Seeking joint clinical department. Box 574, SCIENCE.

Virologist-Immunologist, Ph.D.; seeks research, administrative or academic position. Experience in tumor virology, virus immunology, present research position phased out. Available immediately. Box 575, SCIENCE.

POSITIONS OPEN

PRESIDENT, UNIVERSITY OF MINNESOTA
The University of Minnesota invites nominations and applications for the position of President of the University which becomes available 1 July 1974. Resumes should be submitted by 15 December 1973 to Professor Warren Ibele, Chairman, Ad Hoc Search Committee, Department of Mechanical Engineering, University of Minnesota, Minneapolis 1, Minnesota. Applications and recommendations for women and members of minority groups are especially encouraged.

UNIVERSITY OF SYDNEY (AUSTRALIA) LECTURESHIPS/SENIOR LECTURESHIPS (TWO) IN ANATOMY
Graduates in medicine, dentistry, or science with appropriate teaching experience in anatomy, research experience in biological fields considered. Box 576, SCIENCE.

Courses in gross and neuroanatomy for students of medicine, dentistry, and other disciplines are offered. Facilities for research in histology, histochemistry, electron microscopy and electromicrography available.

Details from Registrar, University of Sydney, N.S.W. 2006, Australia.

ASTROMETRIST
Faculty position at Lick Observatory, University of California, Santa Cruz, to head astrometric activity of the Optical Survey Group. Summer 1974. Ph.D. X

experienced in practical aspects of large optical telescope instrument and instrumentation required. Application, curriculum vitae, and references to Director, Lick Observatory, University of California, Santa Cruz, Calif. 95064 by 15 January 1974.

An Equal Opportunity/Affirmative Action Employer.

BACTERIAL MEMBRANE BIOCHEMISTRY
Postdoctoral positions available in the field of bacterial membrane biochemistry. Interested persons send curriculum vitae and names of references to:

Secretary
Department of Immunology
and Medical Microbiology
University of Florida
Gainesville, Florida 32601

UNIVERSITY OF TORONTO
ASSISTANT PROFESSOR OF BIOCHEMISTRY
Applications are invited for the position of Assistant Professor in the Department of Biochemistry, to take effect from 1 July 1974 or as soon thereafter as possible. The successful applicant will be required to participate in the teaching duties of the Section and to develop his own research program. The department is involved in teaching undergraduate courses in the sciences, medicine, Dentistry, Arts and Science, and Nursing, as well as graduate training. The minimal salary for the position is $14,300. Applicants with suitable background and qualifications should send a curriculum vitae and the names and addresses of three referees to Professor T. Hofmann, Department of Biochemistry, Leta Hall, University of Toronto, Toronto, Canada M5S 1A8, to reach him not later than 31 October 1973.

BIOLOGIST
To teach undergraduate students. Ph.D., experienced in one or more of the following: physiology, anatomy, pathology, or invertebrate biology. Positions available for September 1974 at Assistant Professor level. Salary based on experience, but $10,500 minimum. Teaching interest in important. Send copy of resume, three references, and a letter of application to: Dr. V. L. Merriam, Chairman, Search Committee, Loyola University, Chicago, 635 N. Michigan Avenue, Chicago, Ill. 60611.

UNIVERSITY OF MINNESOTA, MINNEAPOLIS, MINNESOTA
The University of Minnesota invites nominations and applications for the position of a Professor in Computer Science. X

Applications are invited from women and minority group members. Applicants should have a Ph.D., or equivalent, in Computer Science. Applications are invited from women and members of minority groups are especially encouraged.

UNIVERSITY OF MINNESOTA, MINNEAPOLIS, MINNESOTA
The University of Minnesota invites nominations and applications for the position of Professor in the Department of Computer Science. X

Applications are invited from women and members of minority groups are especially encouraged.

UNIVERSITY OF MINNESOTA, MINNEAPOLIS, MINNESOTA
The University of Minnesota invites nominations and applications for the position of Professor in the Department of Computer Science. X

Applications are invited from women and members of minority groups are especially encouraged.

CANCER RESEARCH FACULTY POSITIONS
The Los Angeles County-University of Southern California Cancer Center invites applications for clinical and basic research positions. Positions may be filled in such areas as clinical specialities of medicine, pediatrics, surgery, radiology, radiation therapy, and gynecology, and in basic and preclinical sciences, such as immunology, tumor biochemistry, tumor cell biology, histochemistry, drug metabolism, pharmacokinetics, radiobiology, and biochemistry. Positions will include joint appointments with the Cancer Center and the University of Southern California Schools of Medicine, Dentistry, and Public Health. Applicants should be prepared to interact within a multidisciplinary, interdisciplinary environment.

Address inquiries to Denuam Hammond, M.D., Director, LAC-USC Cancer Center, 1000 W. Campus Road, Los Angeles, California 90033.

The Cancer Center is an equal opportunity/affirmative action employer.

ECOLOGIST WITH GEOLOGICAL INTERESTS
or PALEOECOLOGIST WITH BIOLOGICAL INTERESTS

The Department of Geology of Case Western Reserve University seeks applications for positions as Assistant Professor in Marine Geology and Paleobiology. The position involves research and teaching at both the graduate and undergraduate levels. Joint appointment with Biology if desired. An interest and competence in environmental problems is required. Qualified applicants should submit curriculum vitae, and publications to Professor Robert Douglas, Geology, Miami University. Resumes should be sent to P.O. Box 5906, Raleigh, N.C. 27615, before 28 February 1974.

ECONOMIST

Opening exists for an applied economist at assistant professor level to help administer Washington's Program in Social Management of Energy Resources. This position has responsibility in area of technology and public policy. Background in industry, government, or industrial organization desired. Submit curriculum vitae to Dr. Edward Wenk, Jr., Director, Program in Social Management of Energy, P.O. Box 428, ARL, (FL-10), University of Washington, Seattle, Wash. 98195.

An equal opportunity/affirmative action employer

Duke University

ELECTRON MICROSCOPY TECHNICIAN

Experienced in cutting ultra-thin sections and in enlarging electron micrographs wanted. Applications and inquiries should be sent to Dr. Satya P. Sood, University of Hawaii at Hilo.

An equal opportunity/affirmative action employer

Electrochemistry

FACULTY POSITION

Available for Board certified academic child psychopharmacologist. University of Michigan Medical School. Candidate will direct a pediatrics fellowship program in the Department. Some out-patient and day-hospital activities also possible. Documented teaching experience, research publications including addition to clinical and administrative experience; preferences are accepted. Send curriculum vitae to Miss Patricia McPhillips, Personnel Department, University of Michigan, Ann Arbor, Mich. 48109.

An equal opportunity/affirmative action employer

HUMAN BIOLOGY
A position exists for a person experienced in the teaching of human biology, with particular reference to functional human anatomy and physiology. The position will include responsibilities for graduate and undergraduate teaching, with major emphasis on the development of curriculum for programs jointly sponsored by the School of Basic Health Sciences and the School of Allied Health Professions.

The candidate must have a doctoral degree, with teaching experience and demonstrated research ability in the area of functional anatomy/physiology. Rank will depend on qualifications.

Reply to Arthur C. Upton, Dean, School of Basic Health Sciences, The University of New York at Stony Brook, Stony Brook, New York 11790. Health Sciences Center is an equal opportunity employer and applications from members of minority groups or women are welcome.

THE FLINDERS UNIVERSITY OF SOUTH AUSTRALIA
SENIOR LECTURERS/LECTURES IN HUMAN PHYSIOLOGY/HUMAN MORPHOLOGY/CLINICAL BIOCHEMISTRY

Applications for the above tenured posts are invited for the new School of Medicine from candidates with clinical experience.

Study leave, clinical teachings and assistance with removal expenses available.

Further information about the School of Medicine and the posts is available from The Registrar, The Flinders University of South Australia, Bedford Park, South Australia, 5042, Australia, whom applications should reach by Friday, 21 December, 1973.

MARINE FISHERIES DYNAMICS
Faculty position in Sea Grant Program at Marine Science Center, Newport, Stock assessment and population dynamics of marine fishes. Ph.D. required, experience desirable. Rank and salary open. Send resume and references to Dr. C. E. Warren, Department of Fisheries and Wildlife, Oregon State University, Corvallis, Ore. 97331.

An Equal Opportunity/Affirmative Action Employer

MEDICAL EDITOR
We are an international publisher of scientific and medical books and journals based in New York City. Developing our medical book program in the United States, we are looking for a recent graduate (M.A., Ph.D.) in the bio/biomedical sciences interested in publishing and willing to learn.

Please send in full confidence your resume, salary expectations, and college/university transcripts. Box 579, SCIENCE. An Equal Opportunity Employer.

DYNAMIC METEOROLOGY
The Department of Meteorology at Massachusetts Institute of Technology announces a faculty opening in the general field of dynamical meteorology, beginning with the 1974-75 academic year. Applicants will be judged on a merit basis irrespective of sex, race or national origin, for high qualifications and promise with respect to teaching and creative leadership in research. Faculty rank and salary offered will be commensurate with these qualifications.

Interested candidates should write promptly to Professor J. Charney, Room 54-1424, Massachusetts Institute of Technology, Cambridge, Mass. 02139, enclosing a comprehensive resume, publications list, and the names of three references. Selection of candidates will begin in January.

Established private veterinary diagnostic research laboratory serving feedlots in southwestern United States needs permanent staff Microbiologist with interest in virology and/or immunology for diagnosis and studies of infectious diseases and immune responses of cattle. Applicants send curriculum vitae and four references to Howard Veterinary Consultation and Research, Box 191, Bradway, California 92227.

NEUROANATOMIST-NEUROSCIENTIST
A neuroanatomist Ph.D. and/or M.D. with interest in the research of the brain and its functions. There are opportunities for students, and the laboratory has a good research support system. Salary and rank dependent on qualifications. Please send resume and references to Dr. G. Gordon Robertson, Department of Anatomy, University of Tennessee Medical Center, 800 Madison Avenue, Memphis, Tennessee 38163. Equal Opportunity/Affirmative Action Employer.

UNIVERSITY OF OTAGO
Dunedin—New Zealand
LECTURER OR SENIOR LECTURER IN NUTRITION
Applications are invited for the position of Lecturer or Senior Lecturer in the Department of Nutrition in the School of Medicine, University of Otago.

Salary: Lecturer: NZ $6,575-$8,343 per annum; Senior Lecturer: NZ $8,489-$10,846 per annum with a bar at NZ $9,963 per annum.

(Note: NZ $100 equals approximately £ 61 sterling; US $147: $ A 100).

Applicants should be graduates in Science with specialization in biochemistry, physiology, nutrition or chemistry; Food Science or in Home Science.

Further particulars are available from the Secretary-General, Associate of Commonwealth Universities (Apts), 36 Gordon Square, London WC1H OPF, or from the Registrar of the University.

Applications close in New Zealand on 15 February 1974.

UNIVERSITY OF MICHIGAN

DEPARTMENT OF PATHOLOGY

Position available for 1 January 1974 in the Department of Pathology, University of Michigan Medical School, for an anophellogist who has wishes to continue as an Instructor. Must be able to supervise, in cooperation with a professor, a postdoctorate who wishes to undertake research in the investigation of the etiology and pathogenesis of human and animal malaria, with the view to establish a program of work designed to elucidate the mechanisms of resistance to Plasmodium berghei. The successful candidate will be expected to assume responsibility for the supervision of the project, which involves the use of parasitic and vertebrate animals. Applicants are expected to hold a Ph.D. and have postdoctoral research experience in immunology or a closely related field. Salary is negotiable. Submit resume and two references to: Robert A. Haldeman, Professor and Chairman, Department of Pathology, University of Michigan Medical School, Ann Arbor, Michigan 48104.

PHYSICAL OR BIOGEOGRAPHER

Applications are invited for a position in physical and biogeography, Department of Geography, St. George Campus, University of Toronto, beginning 1 July 1974. The successful candidate will be expected to develop and teach courses in natural environmenology, to conduct research in the existing specialized courses in physical geography and biogeography, and to contribute to both the introductory and more advanced levels. The successful candidate will hold a Ph.D. or other appropriate degree. Preference will be given to candidates with a demonstrated interest in ecosystems, both natural and man-modified. The rank will be either ASSISTANT or ASSOCIATE PROFESSOR. A letter of application with curriculum vitae and the names of three referees should be submitted to the Chairman, Department of Geography, University of Toronto, Toronto M5S 1A1, Ontario. Applications should be submitted before 15 February 1974.

ASSOCIATE PROFESSOR

Assistant Professor, Ph.D. or M.D. training in physical and biogeography, Department of Geography, St. George Campus, University of Toronto, is available for a two-year postdoctoral position. Send resume of interests, curriculum vitae, and names of two references to: Dr. C. H. Walton, Department of Geography, St. George Campus, University of Toronto, Toronto M5S 1A1, Ontario.

PLANT PHYSIOLOGIST

Applications are invited for a position in Plant Physiology, Department of Biology, University of Wisconsin, Madison, to begin 1 September 1974. The successful candidate is expected to work on flowering and the biology of sex expression in angiosperms. Duties will include conducting research, teaching, and administrative duties. Salary will depend on qualifications. Applicants are expected to hold a Ph.D. and have postdoctoral experience in plant physiology. Submit curriculum vitae, statement of research and teaching interests, and three letters of reference to: Dr. J. Slotta, University of Wisconsin, Madison 6, Wisconsin 53706.

Plants will be available for study in a 25,000 square foot greenhouse. The position is a 12-month appointment with a 6-month probationary period.

Position available for a postdoctorate in the Department of Microbiology, University of Hawaii, to begin 1 July 1974. The successful candidate is expected to work on the biology of the cyanobacteria and an autogenous marine diatom. Duties will include conducting research, teaching, and administrative duties. Salary will depend on qualifications. Applicants are expected to hold a Ph.D. and have postdoctoral experience in plant physiology. Submit curriculum vitae, statement of research and teaching interests, and three letters of reference to: Dr. J. Slotta, University of Wisconsin, Madison 6, Wisconsin 53706.

Super Bowl Champs we ain't. But we have the best quarterbacks in the business.

Your S/P Sales Representative probably doesn't look like a pro quarterback. And he carries a catalog under his arm instead of a football. But don't let that fool you.

One phone call from our quarterback is the signal for his S/P team to go into action. And that's some team. First, there's "Mr. Inside" his Customer Service Representative who knows as much about his customers' needs as he does. Then there are lots of "Mr. Outsides", 1958 people in all. 23 sales and distribution centers. And local Field Service Representatives in 75 cities.

But like any team, S/P is only as good as the guy calling the signals. That's why we have no rookie quarterbacks. Every one of our 400 Sales Representatives is a professional in every sense of the word. All have laboratory-oriented or scientific backgrounds. They can read a situation and act fast.

Next time you have a laboratory equipment, supply or scientific instrument problem, hand your local S/P Sales Representative the ball... he'll run to daylight with it.

To take advantage of our S/P quarterback services, call your S/P Representative or write Scientific Products, Division of American Hospital Supply Corporation, 1430 Waukegan Road, McGaw Park, Illinois 60085.

S/P... a single source for laboratory equipment, supplies and scientific products.
Automatically corrects for specimen density, light intensity and film reciprocity to give you a quality photomicrograph for each exposure.

**AO EXPOSTAR™**

**SHUTTER CONTROL**

assures unprecedented excellence in photomicrography. Eliminates test exposures, wasted film and the element of chance.

AO EXPOSTAR automatically integrates light intensity and film reciprocity with time to produce a quality photomicrograph with any type camera back fitted on the AO Series 10 or 20 MICROSTAR® microscope. Even if light is interrupted or changed during exposure, EXPOSTAR will detect and correct for proper exposure ... automatically with transmitted or incident illumination.

It accommodates ASA film speeds ranging from 8 to 6400 and film sizes of 35mm., 3½" x 4½", and 4" x 5". Ask your AO dealer or representative for a demonstration on this outstanding achievement in ease and reliability for error-free photography through the microscope.
