RESEARCH NEWS

Fetal Antigens: A Biochemical Assay for Cancer?

BOOK REVIEWS

Comparative Ecology and Behaviour of Primates, reviewed by A. Jolly: Pycnogonids, J. W. Hedgcock; Thrirs, S. F. Bailey; Cytogenetics of Aneuploids, O. T. Solbrig; Plant Tissue and Cell Culture, A. W. Galston; Water, L. C. Allen; Magnetic Resonance and Related Phenomena, D. E. MacLaflin; Books Received

REPORTS

Jupiter's Ionosphere: Prospects for Pioneer 10: S. K. Atreya and T. M. Donahue

Sulfuric Acid–Ammonium Sulfate Aerosol: Optical Detection in the St. Louis Region: R. J. Chartson et al.

Metabolic Differences between Normal and Neoplastic Cells: Effects of Aminonucleoside on Cytoplasmic Messenger RNA: J. J. Cholon and G. P. Stzdinski
Neonatal Thymectomy Increases the Incidence of Spontaneous and Methylcholanthrene-Enhanced Thyroiditis in Rats: D. A. Silverman and N. R. Rose .......................... 162
Pineal Gland: 24-Hour Rhythm in Norepinephrine Turnover: M. Brownstein and J. Axelrod .................................................. 163
Erythrocyte Deformation in Human Muscular Dystrophy: D. W. Matheson and J. L. Howland .............................................. 165
Parathyroid Secretion: Discovery of a Major Calcium-Dependent Protein: B. Kemper et al. .................................................. 167
Benzo[a]pyrene Metabolites: Efficient and Rapid Separation by High Pressure Liquid Chromatography: J. K. Selkirk, R. G. Cray, H. V. Gelboin ........................................ 169
Human Chromosome Banding by Feulgen Stain Aids in Localizing Classes of Chromatin: T. C. Rodman .............................................. 171
Hydrogen Evolution by Nitrogen-Fixing Anabaena cylindrica Cultures: J. R. Benemann and N. M. Weare .............................................. 174
Norepinephrine-Sensitive Adenylate Cyclases in Rat Brain: Relation to Behavior and Tyrosine Hydroxylase: P. Skolnick and J. W. Daly ........................................ 175
Dopamine Nerve Terminals in the Rat Limbic Cortex: Aspects of the Dopamine Hypothesis of Schizophrenia: T. Hokfelt et al. ........................................ 177
Cleaning Symbiosis Provides a Positive Reinforcer for Fish: G. S. Losey, Jr., and L. Margules .............................................. 179
Orientation of Homing Pigeons Altered by a Change in the Direction of an Applied Magnetic Field: C. Walcott and R. P. Green ........................................ 180
Technical Comments: Inhibition of Cell Metabolism: S. Penman; S. J. Berry and S. Grayson; Quartz Cleavage and Quick Clays: R. W. Berry; A. Hofler; I. J. Smalley and D. H. Krinsley; Basic Research Is Necessary: Remarks on the Lectures of Lehninger and Kornberg: H. Theorell ........................................ 182
MEETINGS
Nutrition and New Food Technology: R. R. Gutierrez and T. C. Byerly; Environmental Mutagens: S. Bendix; Enzyme Engineering: L. B. Wingard, Jr., and E. K. Pye; Forthcoming Events ........................................ 186
PRODUCTS AND MATERIALS
Measuring Microscopes; Teflon Programmed Sampling Pump; Rotated Cells for Coulometry; Light Guides for Lasers; Contact Angle Analyzer; Optical Emission Spectrometer; Literature ........................................ 198

The American Association for the Advancement of Science was founded in 1848 and incorporated in 1874. Its objects are to further the work of scientists, to facilitate cooperation among them, to improve the effectiveness of science in the promotion of human welfare, and to increase public understanding and appreciation of the importance and promise of the methods of science in human progress.
