The Department of Biology of Wilkes College seeks a candidate who demonstrates expertise in comparative anatomy and general biology for a full-time position. The position is available at the assistant professor level. Ph.D. required. Send summary of qualifications and curriculum vitae to: Dr. Charles Reif, Chairman, Department of Biology, Wilkes College, Wilkes-Barre, Pa. 18703.

Assistant Professor of Environmental Engineering-Rice University

The Department of Environmental Engineering at Rice University invites applications for a position at the assistant professor level. The successful candidate will have a strong background in environmental engineering and experience in teaching and research in the areas of water, air, and waste management. Ph.D. in environmental engineering or a closely related field required. Send a curriculum vitae and the names of three references to: Dr. C. S. Honney, Rice University, Department of Environmental Engineering, Houston, Texas 77251.

POSITIONS WANTED

Biochemist, M.S. Three years' experience. Publications in Biochemical Abstracts. Desires academic or industrial research position, preferably in the Northwest. Available in September. Box 279, SCIENCE.

Biologist, Ph.D. Desires teaching/research position. Twelve years of experience in introductory biology and general ecology. Box 279, SCIENCE.

Cell Biologist, Ph.D. Seeks temporary position. Experience in cell fractionation techniques, biochemistry, and electron microscopy. Box 295, SCIENCE.

Comparative Physiologist, Ph.D. Sodium and water metabolism. Desires academic teaching/research position. Twelve years' teaching experience. Box 287, SCIENCE.

Computer Scientist/Ecologist/Biometrician, with education in the life sciences, seeks teaching/research position in southeastern United States. Box 287, SCIENCE.

Ecologist, experienced and enthusiastic, seeks challenging position which combines administrative responsibility with research, teaching and/or writing. Box 287, SCIENCE.

Biological Chemist, Ph.D. Desires teaching/research position at medical school or university. Box 287, SCIENCE.

Biological Chemist, Ph.D. Desires teaching/research position at medical school or university. Box 287, SCIENCE.
GROUP LEADER

Reproductive Biological Research

Your expertise/leadership strengths find full recognition at G. D. Searle. As a major contributor to the health care field, we maintain our leadership through continual research on all fronts of the industry. At this time we are intensifying our reproductive biological research area; with need for a qualified Ph.D. to assume Group Leader responsibilities. Your doctorate should be in reproductive biology, or a closely allied discipline; with some background in biochemistry. Postdoctoral industrial experience in reproductive research and biology is desirable; and you’ll need a history of research leadership, or demonstrable potential for same.

We’re offering an excellent salary, generous benefits, a professional environment conducive to advancement. Send your résumé, with salary history, in confidence to:

Joel Myers
G. D. Searle & Co.
Box 5110. Chicago. Illinois 60680

An Equal Opportunity Employer

RESEARCH ASSISTANT

G. D. Searle & Co., a leader in pharmaceutical research and development, has an immediate opening for a research assistant in the gastrointestinal pharmacology area.

As a member of our research team, you will assist in the design and implementation of all phases of gastrointestinal research.

The ideal candidate should possess a B.S. or M.S. degree in the biological sciences with 2 to 5 years of experience in pharmacology or physiology, preferably in the gastrointestinal area.

We offer an excellent starting salary, together with attractive fringe benefits: If interested, please forward your résumé to:

Elaine Eisen
G. D. Searle & Co.
Box 5110. Chicago, Illinois 60680

7 JUNE 1974
CHAIRMAN, DIVISION OF TUMOR IMMUNOLOGY
ST. JUDE CHILDREN'S RESEARCH HOSPITAL
St. Jude Children's Research Hospital is seeking a distinguished scientist to organize and chair the Division of Tumor Immunology. Applications are invited from persons with demonstrated experience in basic research in immunology, with application, with curriculum vitae, should be sent to:

Dr. R. G. Webster
Chairman, Search Committee
St. Jude Children's Research Hospital
525 S. O.B. Box New York
Memphis, Tenn. 38101

An Equal Opportunity Employer/Male and Female.

BIOCHEMISTRY DEPARTMENT CHAIRMAN
STATE UNIVERSITY OF NEW YORK, STONY BROOK
Nominations and applications for this appointment are being solicited that should include an outstanding record of achievement in research, teaching, and appropriate administrative experience.

The department serves the educational needs of undergraduates in the College of Arts and Sciences, medical, dental, and other students in the School of Basic Health Sciences and graduate students enrolled in Ph.D. programs.

The Department of Biochemistry at Stony Brook is an Affirmative Action-Equal Opportunity Employer and encourages applications from women and members of minority groups.

Appointment title and salary are dependent upon qualifications and experience. Send nominations and inquiries to:

Dr. X. Vincent P. Civillo
Chairman, Search Committee
Department of Biochemistry
State University of New York
Stony Brook, New York 11794

MCGILL UNIVERSITY—DEPARTMENT OF BIOLOGY CHAIRMAN
Applications are invited for the above-mentioned position which will be open on 1 June 1975. The Department of Biology consists of ten faculty members and affiliated academic staff representing most areas of biology with emphasis on experimental biology, ecology, human genetics, and neurobiology.

Qualifications sought include evidence of scholarship in research, skill in teaching, and administrative ability. Inquiries and applications (accompanied by a curriculum vitae and names of three referees) should be directed to:

Dean E. J. Stansbury
Faculty of Science
McGill University
P.O. Box 6070
Montreal H3G 1M Canada

DIRECTOR OF EXPERIMENTAL SURGERY CARDIOVASCULAR PHYSIOLOGIST
Opportunity for experienced investigator to join multi-disciplinary group working in assisted circulation. Candidate should have research interest in fluid mechanics, microcirculation and sufficient accomplishment to share leadership responsibilities in both the experimental and clinical research program, may be Ph.D. or M.D. Laboratory located at the affiliated medical school hospital in Midwest. Please send curriculum vitae to Box 288, SCIENCE.

FACULTY POSITION
It is anticipated that a faculty position will become available 1 July 1974. Applicants must be experienced in cardiac physiology and have an active research program in progress.

Send curriculum vitae and the names of three recent references to the Chairman, Department of Human Anatomy, School of Medicine, University of California, Davis, California 95616.

HUMAN GENETICS
Salary and rank open. Postdoctoral experience desirable. Applicant must be interested in teaching human genetics and participating in a genetics clinic. Active research program required. Full position would be sent to the candidate.

Director, Genetics Program
Michigan State University
East Lansing, Michigan 48824

STATE UNIVERSITY OF NEW YORK AT STONY BROOK
DEAN FOR UNDERGRADUATE STUDIES
Stony Brook invites nominations and applications for the newly created position of Dean for Undergraduate Education. The Dean directs the Center for Undergraduate Development and the staff and resources of an existing Office of Undergraduate Studies. The Dean will participate in the formulation of academic policy and curriculum and coordinate the professional and personal development of students.

Please direct all correspondence to: James R. McKenna, Chairman, Search Committee, State University of New York, Stony Brook, New York 11794.

Stony Brook is an Equal Opportunity/Affirmative Action Employer.

EPIDEMIOLOGIST/BIOSTATISTICIAN
Office of Environmental Sciences of the U.S. Environmental Protection Agency is inviting nominations and applications from qualified individuals experienced in epidemiology and public health protection. Individuals with at least 3 years of related experience required. Responsibilities include planning, managing, and evaluating research for the collection and analysis of data on selected health indicators, planning the organization and implementation of research from $28-36K commensurate with qualifications.

For further information call: Ms. L. Bower, (202) 544-5217; Personnel Management Division, Room 3019, 401 M Street, SW, Washington, D.C. 20460.

HEAD, DEPARTMENT OF ENTOLOGY
Applications or nominations are invited for the department head position in the Department of Entomology, University of Michigan. Interested candidates should apply by 1 July 1975. Primary duties will include the advancement of established programs of teaching and research, supervision of the department staff, and directing the research program in Entomology, at the level of, or above, 17 and is joint staffed in the Colleges of Arts and Sciences and College of Agriculture. We seek a person with a broad entomological background and distinguished achievements and interests who can assist in the development of innovative leadership. Interested persons may send a complete curriculum vitae, pertinent reprints, and names of three professional references to: Arden R. Lea or Herbert H. Ross, a research committee, Department of Entomology, University of Georgia, Athens, Georgia 30602.

NUTRITIONAL BIOCHEMIST (Ph.D.)
For studies of colony carcinogenesis in man. Research experience in fecal bile acid neutral sterol analysis at least desirable. Experience in related experience following Ph.D. Send curriculum vitae to: Personnel Department American Health Foundation 1700 Avenue of the Americas New York, New York 10019

UNIVERSITY OF NOTTINGHAM
DEPARTMENT OF GENETICS
Postdoctoral Research Associate
Applications are invited for the position of Postdoctoral Research Associate. The successful applicant will be expected to participate in a study of the genetic fine-structure of the alcohol dehydrogenase locus in Drosophila melanogaster. This study, which aims to clarify the control of gene action in a eukaryote, is supported by the Medical Research Council, and is carried out in collaboration with the Universities of Cambridge and Edinburgh. The appointment will be for 3 years, and the starting date will be negotiable. Preference will be given to candidates with a strong background in Drosophila genetics, or in studies of prokaryote fine-structure.

Applications, including a curriculum vitae and the names and addresses of three referees, should be sent to the Staff Appointments Officer, University of Nottingham, University Park, Nottingham NG7 2RD, England.

FRESHWATER ECOLOGIST
Private college in central Maine. Teach general biology, freshwater biology, fisheries biology, and position ecology if required. 3-year appointment with possible continuation. Apply with resume to:

Dr. Jan Sassaman
Unity College
Unity, Maine 04988

FACULTY POSITION
Available for a naturalist in the community programs of the Youth Services Department of University of Michigan Medical School. This is a new, developing and exciting position. Professional experience and qualifications. Teaching and research skills should be documented. Board of Board eligibility in Psychology or Psychiatry essential. Send resume to Box 289, SCIENCE.

A Non-discriminatory Affirmative Action Employer

FACULTY POSITION
Available in the Youth Services, Department of Psychiatry, University of Michigan Medical School. Candidates must be experienced and responsible for teaching and supervision of medical students, child fellows, and residents. Time to be devoted to inpatient treatment services for children and outpatient department and community programs. Opportunity for research. Professional rank dependent on experience and qualifications.

Send resume to Box 290, SCIENCE.

A Non-discriminatory Affirmative Action Employer

NEUROBIOLOGISTS
Department of Anatomical Sciences expects to have two faculty positions open for neurobiologists interested in research programs in the development of the vertebrate nervous system. Research in the areas of central and peripheral nervous system. Teaching responsibilities will include instruction in medical and dentistry courses. Applicants are encouraged.

Send applications to: Dr. F. H. Webster, Chairman, Department of Neurological Sciences, State University of New York, Stony Brook, N.Y. 11790, by 30 June 1974. Applications from women and members of minority groups are encouraged.

Ph.D. PATHOLOGIST
Responsibility for teaching general Pathology to second-year medical students. Three lectures and two 6-hour weeks during academic year. Emphasis on teaching excellence. Research encouraged but not mandatory. Excellent salary and rank commensurate with qualifications. Modern 426-bed hospital. Send curriculum vitae to Dr. J. W. Ginty, Chairman, Division of Academic Affairs, College of Osteopathic Medicine, 2105 Independence Blvd., Kansas City, Mo. 64124, Tel.: 816-283-2402.

PHYSIOLOGIST
HAZLETON LABORATORIES, INC., specialized in the life and applied sciences, has a staff position available in Toxicology Department. This department conducts contract research projects on the effects of airborne and other toxic materials on humans and animals. A Ph.D. in biology, with a strong background in vertebrate physiology and an interest in applied science is required. Located in northern Virginia, approximately 20 miles from Washington, D.C., and within close proximity to National Institutes of Health. Pleasant living area with excellent educational and recreational facilities. Salary commensurate with experience and job requirements. Full benefit program includes company-paid pension. Qualified and interested parties should send resume, including salary history and requirements, in complete confidence to Mr. J. Mackert, Personnel Manager, HAZLETON LABORATORIES, INC., 7031 Westures Turnpike, Vienna, Virginia 22180.

SCIENCE, VOL. 184
TERRESTRIAL BIOLOGIST

Corporate Headquarters Office of major energy industry seeks a terrestrial biologist for environmental impact studies associated with its operations. A member of an interdisciplinary team, this position is responsible for field studies, legislative analyses, and preparation of biological portions of environmental impact statements. We require a Ph.D. in Biology with thorough grounding in ecological systems. Experience is desirable, but not required. Location is middle East Coast. Starting salary to $21,000. Please send complete résumé, including salary to:

Box 294, SCIENCE
An Equal Employment Opportunity Employer (M/F)

VEHICULARIANS

ACRAM certified, or eligible for certification, to supervise production of laboratory animals for cancer research. Will be responsible for cesarean derivation, gnotobiotic rearing, genetic integrity, and expansion of pedigreed colonies of rodents and rabbits. Prior experience with comparable responsibilities required.

The successful candidate will work in well-equipped facilities, in close association with experienced professional colleagues.

A competitive salary, attractive Company benefits, and relocation expenses will be offered. Applications and complete resumes may be addressed to Mr. Danzel Loker, Personnel Manager, Litton Bionetics, Inc.

FREDERICK CANCER RESEARCH CENTER
Post Office Box 8
Frederick, Maryland 21701
An Equal Opportunity Employer, M/F

INSTRUCTOR

Position available in the Department of Anatomy, University of Michigan Medical School. Must have at least 20 years experience in the maintenance, upkeep, and running of several types of transmission electron microscopes, including Hitachi, RCA, and Siemens. Will be in charge of daily maintenance of six electron microscopes, trained by anatomy research faculty and others. To instruct in ultramicroscopy, electron microscopy, and darkroom work. Will supervise the use of all research equipment in the microcirculatory laboratory, including the Watanabe-Lasher intravital microscope and auxiliary equipment. Send résumé to Box 292, SCIENCE.

A Non-discriminatory Affirmative Action Employer

MOLECULAR AND ENVIRONMENTAL TOXICOLOGY

Pre- and postdoctoral traineeships available in Molecular and Environmental Toxicology. Persons must choose programs in biochemistry, biology, or environmental toxicology. For further information write: E. L. Guthrie, Department of Entomology, North Carolina State University, Raleigh, North Carolina 27697.

A Non-discriminatory, Affirmative Action Institution. Women and members of minority groups are encouraged to apply.

PEDEATRIC INFECTIOUS DISEASES

Faculty position newly available at Johns Hopkins Medical School for a pediatrician whose research interests are in the area of infectious and bacterial etiology. Position allocates half of time for research and half for helping with clinical consultations and teaching conducted by the Division of Infectious Diseases of the Department of Pediatrics. Please send curriculum vitae to Dr. David H. Carver, Johns Hopkins Hospital, Baltimore, Md. 21205.

An Equal Opportunity/Affirmative Action Employer

POSTDOCTORAL POSITION—BIOCHEMIST

Research into alteration of enzyme structure and protein turnover in aging organisms. Background in enzymology or protein structure desirable but not essential. Apply to:

Dr. R. S. Lant
Department of Biochemistry
State University of New York at Buffalo
Buffalo, New York 14214

SENIOR NEUROSCIENTIST

The Department of Zoology of the University of Michigan wishes to appoint a senior level neuroscientist, beginning 1975-76. The appointment will be at professorial rank with teaching duties in the department. Research facilities will be in the Neurosciences Building, an interdepartmental unit currently housing members of several other departments. Applicants should send a curriculum vitae, publications list, and the names and addresses of three references to Professor Stephen S. Fuster, Jr., Department of Zoology, The University of Michigan, Ann Arbor, Mich. 48104.

A Non-discriminatory, Affirmative Action Employer

POSTDOCTORAL RESEARCH FELLOWSHIP

To study lymphocyte-tumor cell interactions in vivo, Candidate must have experience in cellular immunology, especially effector mechanisms.

Box 293, SCIENCE
An Equal Opportunity/Affirmative Action Employer

FELLOWSHIPS

POSTDOCTORAL FELLOWSHIP

For 1 year beginning August 1974. Enzymologist with experience in protein purification and sequencing. Send curriculum vitae and two letters of reference to John L. Mego, Professor of Biochemistry, Box 127, University of Alabama, University, Alabama 35486. An equal opportunity affirmative action employer.

A POSTDOCTORAL FELLOWSHIP IN REPRODUCTIVE BIOLOGY

is available. Applicants should be interested in the physiology and biochemistry of mammalian embryos during the period of development of the embryos during the period prior to implantation. For application write: Dr. R. M. Birster, Laboratory of Reproductive Biology, School of Veterinary Medicine, University of Pennsylvania, Philadelphia, Pennsylvania 19174.

POSTDOCTORAL FELLOWSHIP

To investigate carcinogenic effects on chromosomal protein synthesis and modification reactions in vivo and in vitro. Write:

Dr. G. S. Edwards
Department of Pharmacology
George Washington University Medical Center
2300 Eye St.
Washington, D.C. 20037
An equal opportunity affirmative action employer

TWO-YEAR POSTDOCTORAL FELLOWSHIP

available immediately. Emphasis on therapeutic ratio studies of multiple modality treatment effects on normal cell population dynamics in vivo, and on in vivo/in vitro murine tumor system. Outstanding clinical oncolgy interest and rapport. Applications from demonstrably efficacious candidates are solicited: S. Leibler, Director, Cancer Research Unit, Allegheny General Hospital, 320 East North Avenue, Pittsburgh, Pa. 15212.

POSTDOCTORAL FELLOWSHIP IN CLINICAL CHEMISTRY

ABCC-approved two-year practical program in medical school-affiliated, 700-bed general hospital, to give experience for certification. First year, $8000; possibility of reappointment for second year at $9000; fellowship tax status, no dependency allowance. U.S. Citizenship. Vacancy now available. For details write: Charles Bishop, Ph.D., Biochemistry Laboratory, The Buffalo General Hospital, Buffalo, N.Y. 14203.

AUTHORS WANTED BY NEW YORK PUBLISHER

Your book can be published, promoted, distributed by a reliable company on a subsidized basis. Fiction, non-fiction, poetry, scholarly, scientific and even controversial manuscripts welcome. For free booklet write: VonNage Press, Dept. SC, 516 W. 34 St., New York 10001.
This volume traces the development of science in America during the past 50 years through a selection of the presidential addresses of the American Association for the Advancement of Science. Published together for the first time, these addresses by well-known scientists explain the complex problems of the relationship between science and society and highlight the important changes that have taken place in the 20th century. The thoughtful introduction by Professor Robert Kargon of The Johns Hopkins University carefully sets the stage for the addresses. The addresses themselves show, for example, how closely science funding has been related to defense since World War II. They also show that McCarthyism was a critical problem for the development of science in America, that scientists were deeply concerned about ecology long before it became fashionable, and that scientists are human beings as well as scientists. Above all, the addresses will leave the reader with an appreciation of how humane and responsible the scientific tradition has been in the United States.

Edited by: Robert H. Kargon
