LETTERS
Airline Fuel Conservation: J. C. Sawhill; Perspective: H. Gewurz; Quark
Etymology: N. G. Demy; Science for the People: T. Tritton; Crib Death:
R. H. Raring; W. G. Guntheroth; Change in Operations Research:
A. C. Faberge; Support for Williams & Wilkins: C. G. Benjamin; Science
Management Training: E. C. Keller, Jr. ............................ 1327

EDITORIAL
Water Pollution Abatement: Goals and Costs .......................... 1333

ARTICLES
The Pineal Gland: A Neurochemical Transducer: J. Axelrod .................. 1341
Science and National Policy: P. E. Haggerty .......................... 1344

NEWS AND COMMENT
India and Argentina: A Nuclear Affinity .............................. 1351
Con Ed: Storm King Controversy Grinds On ............................ 1353
Scientists Plan Protest during Nixon Summit in Moscow ...................... 1356
Photocopying: Supreme Court. Senate Move on Issue ....................... 1357

RESEARCH NEWS
Solar Power: Promising New Developments ............................ 1359
Autoimmune Diseases in Animals: Useful Models for Immunology ........... 1360
Poster Sessions: A New Look at Scientific Meetings ........................ 1361

BOOK REVIEWS
Models in Ecology, reviewed by J. M. Emlen; Encountering Aborigines,
P. L. Newman; OR in World War 2, P. M. Morse; Nuclear Magnetic
Resonance (N.M.R.) in Biochemistry, J. H. Richards; The Planets,
C. Sagan; Books Received ............................................ 1369

SCIENCE is published weekly, except the last week in December, with an extra issue on the fourth Tuesday in November, by the American Association for the Advancement of Science, 1515 Massachusetts Ave., NW, Washington, D.C. 20005. New combined rate: $15. Second-class postage paid at Washington, D.C. Copyright © 1974 by the American Association for the Advancement of Science. Member rates on request. Annual subscription $40; foreign postage: Americas $6, overseas $8, air lift to Europe $20. Single copies $1 (back issues, $5) except to Scientific Instruments Which in 20. School year subscription: 6 months $30; 10 months $50. Provide 6 weeks notice of changes of address, giving new and old address and zip code. Send recent issues for inspection. Science is indexed in the Readers’ Guide to Periodical Literature.
Fossil Plants and Coal: Patterns of Change in Pennsylvanian Coal Swamps of the Illinois Basin: T. L. Phillips et al. .................................................. 1367

Spectroscopy of Biological Compounds with Inelastic Electron Tunneling: P. K. Hansma and R. V. Coleman ........................................ 1369

Peptide Regulation of Bursting Pacemaker Activity in a Molluscan Neurosecretory Cell: J. L. Barker and H. Gainer ........................................ 1371

Growth Hormone Responses to Melatonin in Man: G. A. Smythe and L. Lazarus ... 1373

Inhibition of Tumor-Induced Lymphocyte Blastogenesis by a Factor or Factors Associated with Peripheral Leukocytes: B. G. Hatter, Jr., and B. Soehnlen ........ 1374

Pierce’s Disease of Grapevines: Evidence for a Bacterial Etiology: J. G. Auger, T. A. Shalla, C. I. Kado ........................................ 1375

Control of Experimental Diabetes Mellitus in Rats by Transplantation of Fetal Pancreases: J. Brown et al. ........................................ 1377

Geckos: Adaptive Significance and Energetics of Tail Autotomy: J. D. Congdon, L. J. Vitt, W. W. King ........................................ 1379

Technical Comments: Quality of Radioiodine: G. S. David; R. J. Thomas ..... 1381

Quo Vadis Industrial Science?: G. Strasser and R. L. Stern ................. 1384

Automated Dialyzer; Blood Tube Shaker; Tissue Fixative; Pipette Tips; Research Microscope System; Circuit Tester; Oven-Incubator; Identification of Enteric Organisms; Gas-Sensing Electrode; Tissue Processor for Electron Microscopy; Automated Clinical Analyzer; Literature ........................................ 1386

Equatorial and proximal views of three members of a spore tetrad of Lycospora from Lepidostrobus cone taken from the Lower Block Coal Member of Indiana, about 310 million years old (about × 5900). See page 1367. [Joan M. Courvoisier, Florida State Museum, Gainesville]
