REPORTS

Purines and Pyrimidines in Sediments from Lake Erie: W. van der Velden and A. W. Schwartz ........................................... 691

Beveling of Fine Micropipette Electrodes by a Rapid Precision Method: K. T. Brown and D. G. Flaming .................................... 693

Eolian Biogenic Detritus in Deep Sea Sediments: A Possible Index of Equatorial Ice Age Aridity: C. Parmenter and D. W. Folger 695

Glacial Migrations of Plants: Island Biogeographical Evidence: B. B. Simpson ................................................................. 698

Hyporheic Communities of Two Montana Rivers: J. A. Stanford and A. R. Gaufin ................................................................. 700

Comet Kohoutek: Ultraviolet Images and Spectrograms: C. B. Opal et al. .......................................................... 702

Rocket Ultraviolet Spectrophotometry of Comet Kohoutek (1973f): P. D. Feldman et al. .......................................................... 705

Meteors and Meteorites Detected by Infrasound: W. L. Donn and N. K. Balachandran ............................................................ 707

Transformation of Chick Embryo Neuroretinal Cells by Rous Sarcoma Virus in vitro: Induction of Cell Proliferation: B. Pessac and G. Calothy ................................................................. 709

PRODUCTS AND MATERIALS

Tubular Furnace; Three-Piece Separatory Funnels; Vortex-Evaporator; Temperature-Controlled Animal Board; Gem Refractometer; Ring Viscometer; Modular Heating Bath; High-Speed Gel Permeation Chromatography Columns; Gradient Former; Serum and Electrolyte Measurement; Aldosterone Radioimmunoassay; Volumetric Pipets; Plate Scanner; Portable Water Quality Analysis; Literature ........................................ 711

COVER

Panicoid phytoliths (about 20 microns long) in deep sea sediments of the eastern Atlantic Ocean, transported by the trade winds from equatorial Africa during a cool, arid period about 140,000 years ago. See page 695. [V. Peters, Woods Hole Oceanographic Institution, Woods Hole, Massachusetts, and J. Comeau, U.S. Geological Survey, Woods Hole]
