Muddling Through: Government and Technology

ARTICLES
Localization of Heart Poisons in the Monarch Butterfly: L. P. Brower and S. C. Glazier
Fish Fertilizer: A Native North American Practice?: L. Ceci

NEWS AND COMMENT
Laser Fusion: An Energy Option, but Weapons Simulation Is First
Laser Fusion Report Plays Down Power Potential, Plays Up the Need for University and Industrial Research
Daniel Bell: Science as the Image of the Future Society

RESEARCH NEWS
Photoacoustic Spectroscopy: New Uses for an Old Technology
Ceramics (II): Making Gas Turbines from Brittle Materials
Hemophilia: New Information about the “Royal Disease”

AAAS NEWS
Office of International Science; News and Comment Staff of Science Wins Prize; AAAS Fellows: Notes from Other Offices

BOOK REVIEWS
The Peoples and Cultures of Ancient Peru, reviewed by I. Rouse: Principles of Tzeltal Plant Classification, J. B. Haviland: Aboriginal Settlement Patterns in the Northeast, B. Rippeteau: Basic Mechanisms in Plant Morphogenesis, A. W. Galston: The Physical Biology of Plant Cell Walls, R. Cleland: Linear and Nonlinear Waves, D. J. Benney: Books Received

BOARD OF DIRECTORS
ROGER REVELLE
Retiring President, Chairman

MARGARET MEAD
President

WILLIAM D. MC ELROY
President-Elect

RICHARD H. DOLT
KENNETH B. CLARK
EMILIO Q. DADDARIO
EDWARD E. DAVID, JR.

CHAIRMEN AND SECRETARIES OF AAAS SECTIONS

MATHEMATICS (A)
Victor L. Klee

PHYSICS (B)
Virtor F. Weisskopf

CHEMISTRY (C)
William E. Hanford

ASTRONOMY (D)
Carl Sagan

HISTORY AND PHILOSOPHY OF SCIENCE (L)
Roger C. Buck

INFORMATION, COMPUTING, AND COMMUNICATION
Martin Greenberger

DIVISIONS

ALASKA DIVISION
William E. Davis
Chairman, Executive Committee

PACIFIC DIVISION
George A. Zemlyan
President

SOUTHWESTERN AND ROCKY MOUNTAIN D
Joseph A. Schuffe
Max Dunford
President

REPORTS

Acid-Base Structure of Coal-Derived Asphaltenes: H. W. Sternberg, R. Raymond, F. K. Schweighardt ........................................... 49

Ice-Rafted Sediments as a Cause of Some Thermokarst Lakes in the Noatak River Delta, Alaska: F. C. Ugolini ......................................... 51

Polycyclic Aromatic Hydrocarbons in Soils and Recent Sediments: M. Blumer and W. W. Youngblood .......................................................... 53

Chemotherapeutic Drugs Increase Killing of Tumor Cells by Antibody and Complement: M. Segerling, S. H. Ohanian, T. Borsos ................................ 55

Evidence for Origin of Insect Sex Pheromones: Presence in Food Plants: L. B. Hendry et al. ................................................................. 59

Butylated Hydroxytoluene Inactivates Lipid-Containing Viruses: W. Snipes et al. ................................................................. 64

Reconstitution of Rh (D) Antigen Activity from Human Erythrocyte Membranes Solubilized by Deoxycholate: D. J. Lorusso and F. A. Green .................. 66

Malignant Hemangioendotheliomas Produced by Subcutaneous Inoculation of Balb/3T3 Cells Attached to Glass Beads: C. W. Boone ......................... 68

Anomeric Specificity of 3-O-Methyl-D-glucopyranose against Alloxan Diabetes: A. A. Rossini et al. ............................................................ 70

Mitogen-Induced Blastogenic Responses of Lymphocytes from Marihuana Smokers: S. C. White, S. S. Brin, B. W. Janicki .................................. 71

COVER

Larva (left) and adult (right) of Douglas-fir tussock moth. The insect is a serious defoliator of fir forests of western North America. See page 63. [Wally Guy, U.S. Forest Service]
