
Preventive Technology: A Cure for Scientific Ills: R. M. Davis

Empirical Aztec Medicine: B. O. de Montellano

Checkerspot Butterflies: A Historical Perspective: P. R. Ehrlich et al.

Putting a Face Together: D. Premack

Biomedical Leadership: Cooper and Fredrickson Ready to Step In

Health Education in California: The Grand Design in Trouble

Rogers Morton: The "Good Soldier" Leaves Interior, a Troubled Agency

Suppressor T Cells: Role in Immune Regulation

Astronomers Steer Students Away

Tradition and Contract, reviewed by M. J. Swartz; The Human Mirror, R. D. Jones; Human Responses to Environmental Odors, D. Tucker; Reproductive Behavior, J. G. Vandenbergh; The Biochemical Mode of Action of Pesticides, R. D. O'Brien; Insect Neurobiology, G. A. Horridge; Foraminifera, M. A. Buzas; Books Received
REPORTS

Interspecific Competition: A New Approach to the Classical Theory:
J. H. Vandermeer ........................................... 253

Alaskan Thermokarst Terrain and Possible Martian Analog:
L. W. Gatto and D. M. Anderson ........................................... 255

Nitrogen Fixation in a Coral Reef Community: W. J. Wiebe,
R. E. Johannes, K. L. Webb ........................................... 257

Thyroid Allograft Immunogenicity Is Reduced after a Period in Organ Culture:
K. J. Lafferty et al. ........................................... 259

Lactate Dehydrogenase X: Effects of Antibody on Mouse Gametes but Not
on Early Development: R. P. Erickson et al. ........................................... 261

Arsenic Tolerance in a Population of the Grass Andropogon scoparius Michx.:
S. E. Rocovich and D. A. West ........................................... 263

Insulin Receptor: Role in the Resistance of Human Obesity to Insulin:
J. M. Amatruda, J. N. Livingston, D. H. Lockwood ........................................... 264

Nuclear Magnetic Resonance of Rotational Mobility of Mouse Hemoglobin
N. A. Matwiyooff ........................................... 266

Inhibition of Immune Responses in vitro by Specific Antiserums to Ia

Synaptic Organization of the Amine-Containing Interplexiform Cells of the
Goldfish and Cebus Monkey Retinas: J. E. Dowling and B. Ehinger ........................................... 270

Mechanism of Axonal Transport: A Proposed Role for Calcium Ions:
R. Hammschslog, A. R. Dravid, A. Y. Chiu ........................................... 273

Development of Specific Sensory-Evoked Synaptic Networks in Fetal Mouse
Cord-Brainstem Cultures: S. M. Crain and E. R. Peterson ........................................... 275

Technical Comments: Big Horn Medicine Wheel: Why Was It Built?:
J. E. Reyman; J. A. Eddy; Irrigation Increases Rainfall?: C. K. Stidd;
W. B. Fowler and J. D. Helvey ........................................... 278

MEETINGS

Biological Membrane Structure and Function: A. D. Keith, D. Deam:er, J. K. Raison 282

COVER

Goddess Tlazolteotl, the goddess of childbirth, midwives, and medicine.
Drawing was taken from the Codex Borbonicus, a pre-Columbian Aztec
codex, Folio 13. See page 215. [Gary Stroebel, University of Utah]
