ARTICLES

Food: Economics, Politics and Social Structure

The Great Food Fumble: F. H. Sanderson ........................................ 503
World Food: A Perspective: T. T. Poleman ..................................... 510
Institutional Obstacles to Expansion of World Food Production:

P. R. Crosson ................................................................. 519

Difficult Issues Underlying Food Problems: H. Walters ....................... 524
U.S. Agribusiness and Agricultural Trends: J. Walsh ......................... 531
Weather Variability, Climatic Change, and Grain Production:

L. M. Thompson ............................................................... 535

India: A Perspective on the Food Situation: J. D. Gavan and J. A. Dixon .... 541
Agriculture in China: G. F. Sprague ........................................... 549

Nutrition

and E. F. P. Jelliffe ............................................................. 557
Nutrition and Infection in National Development: M. C. Latham ................ 561
Beyond Economics and Nutrition: The Complex Basis of Food Policy:

J. T. Dwyer and J. Mayer .................................................... 566
Management of Famine Relief: J. Mayer ........................................ 571

SCIENCE is published weekly, except the last week in December, with an extra issue on the fourth Tuesday in November, by the American Association for the Advancement of Science, 1515 Massachusetts Ave., NW, Washington, D.C. 20005, now combined with The Scientific Monthly. Second-class postage paid at Washington, D.C. Copyright 1975 by the American Association for the Advancement of Science. Member rates on request. Annual subscription: $10; foreign postage: $8 per year; $35 for the Americas. Single copy $2 (back issues $3) except Guide to Scientific Instruments is $10 and the Food Issue is $30. School year subscription: 9 months $20; 10 months $30. 10 months $30. Provide 6 weeks notice for change of address, giving new and old address and zip codes. Send a recent address label. Science is indexed in the Reader's Guide to Periodical Literature.
Agricultural Research

Food Production: Technology and the Resource Base: S. H. Wittwer ............ 579
International Agricultural Research: N. Wade .................................... 585
Food Science in Developing Countries: N. L. Brown and E. R. Pariser ....... 589
Crop Protection to Increase Food Supplies: W. B. Ennis, Jr., W. M. Dowler, W. Klassen .................................................. 593
Soils of the Tropics and the World Food Crisis: P. A. Sanchez and S. W. Buol ....... 598
Prospects for High-Frequency Irrigation: S. L. Rawlins and P. A. C. Raats .... 604
The Ganges Water Machine: R. Revelle and V. Lakshminarayana ............611

Basic Biology

Our Vanishing Genetic Resources: J. R. Harlan ..................................... 618
Plant Cell Cultures: Genetic Aspects of Crop Improvement: P. S. Carlson and J. C. Polacco ......................................................... 622
Improving the Efficiency of Photosynthesis: I. Zelitch .......................... 626
Nitrogen Fixation Research: A Key to World Food?: R. W. F. Hardy and U. D. Havelka ............................................................... 633
Adaptation of Photosynthetic Processes to Stress: J. A. Berry .................644

Science Bibliography of Food; Books Received on Food .......................... 650
Science 188 (4188), 501-653.
