COVER

Main building, Olive View Hospital, northern San Fernando Valley, California, after 6.6-magnitude earthquake of 9 February 1971. Building, which was designed in 1964 and completed in 1970, was damaged beyond repair and subsequently razed. Site was about 3 kilometers from causative fault. Damage included overturned stairwells at ends of building, severely damaged columns in first floor, and collapsed pergola on top of ambulances. See page 601. [Robert E. Wallace, U.S. Geological Survey, Menlo Park, California]

The American Association for the Advancement of Science was founded in 1848 and incorporated in 1874. Its objects are to further the work of scientists, to facilitate cooperation among them, to improve the effectiveness of science in the promotion of human welfare, and to increase public understanding and appreciation of the importance and promise of the methods of science in human progress.
