SCIENCE is published weekly, except the last week in September, by the American Association for the Advancement of Science, 1515 Massachusetts Ave., NW, Washington, D.C. 20005. Second-class postage paid at Washington, D.C. and additional entry. Copyright (c) 1975 by the American Association for the Advancement of Science. Member rates on request. Annual subscription $50; foreign postage: Americas $7, overseas $8. Air lift to Europe $30. Single copies $2 (back issues $3) except Food Issue (9 May 1975) is $3 and Guide to Scientific Instruments is $6. School year subscription: 9 months $37.50; 10 months $41.75. Provide 6 weeks notice for change of address, giving new and old address and zip codes. Send a recent address label. SCIENCE is indexed in the Reader's Guide to Periodical Literature.

COVER

Varved sediments of glacial Lake Hitchcock in an abandoned brickyard in Wil
limansett, Massachusetts. Each varve represents 1 year of lake-bottom deposi
tion consisting of a summer layer of silt and sand and a winter layer of clay. One
hundred and thirty varves are exposed at this site. See page 48. [K. L. Verosub,
University of California, Davis]
Science 190 (4209), 10-77.
