**Positions Wanted**

**Immunologist:** Ph.D. Postdoctoral training, research in immunology, quantitative immunofluorescence experience; teaching in medical school, supervising clinical laboratory. Publications. Seeks teaching and research position. Box 491, SCIENCE.

**Medical Entomologist/Athropod Tissue Culturist:** Ph.D. 18 years experience, 34 publications. Seeks research/teaching position outside United States. Box 492, SCIENCE.

**Ph.D. Somatic Cell Genetics:** Training in population genetics and statistics. Expert with computers. Seeks teaching/research position. Box 436, SCIENCE.

**Veterinarian/Endocrinologist:** Ph.D. Many years of experience; mechanism of hormone action, feedback regulation, clinical chemistry, enzymes, receptor binding, chemical and viral carcinogenesis, and tissue culture; radioimmunoassay; active participant of breast cancer task force, many publications, good teacher. Seeks research and/or teaching position. Box 437, SCIENCE.

**Positions Open**

**Assistant Professor or Associate Professor**

The Department of Anatomical Sciences, Pahlavi University, Shiraz, Iran, invites applications for the above position. The appointee will be expected to participate in the teaching of human biomorphology to undergraduates, develop a research program, and participate in graduate teaching. Candidates should possess a medical degree and/or doctoral degree in anatomy. Application forms and further information available from: Professor J. F. M. Watson, Chairman, Department of Anatomical Sciences, Medical Faculty, Pahlavi University, Shiraz, Iran.

**Assistant Professor, Department of Microbiology,** for the University of Health Sciences/The Chicago Medical College. The candidate will have a broad background in medical microbiology. Responsibilities to include participation in teaching programs in the medical school, school of related health sciences and graduate school, and establishment of an independent research program. Organization: A private, nonprofit, nonsectarian, educational university and an Equal Opportunity/Affirmative Action Employer. Application: Send curriculum vitae to: Dr. Eric R. Brown, Department of Microbiology, University of Health Sciences/The Chicago Medical School, 2020 West Ogden Avenue, Chicago, Ill. 60612.

**Department of Radiological Sciences**

University of California, Irvine invites applications for positions at Assistant Professor level in diagnostic radiology. Applicants must be qualified radiologists with demonstrated evidence of clinical and academic ability. Preference will be given to individuals with teaching experience, in chest, and/or genitourinary radiology. Duties will include clinical teaching and teaching at graduate and undergraduate levels. Applicants will also be expected to develop their own research protocols.

The individual selected will be a member of the staff of the Veterans Administration Hospital, Long Beach, California (Chief of Radiology, Dr. Henry Pribram), and will be appointed to the faculty of the College of Medicine of the University of California, Irvine. Applications from all qualified candidates are welcome; minorities and women are encouraged to apply.

If you are interested in this position, please write to the address below including a curriculum vitae, an autobiographical sketch, and a list of any publications. Closing date: 1 January 1976.

Eric N. C. Mille, M.B., Ch.B., F.F.R.
Professor and Chairman
Department of Radiology
College of Medicine
University of California, Irvine
Irvine, California 92664

**Positions Open**

**Academic Openings**

**Chairman,** Chemical Engineering Department, University of Southern California. The department offers areas of concentration in energy conversion, polymer chemistry, environmental engineering, fluid mechanics, and thermodynamics leading to the B.S., M.S., and Ph.D. degrees in chemical engineering. Two additional positions, one at the ASSOCIATE PROFESSOR level and one at the ASSISTANT PROFESSOR level, will be filled after a Chairman is selected. Candidates should have demonstrated leadership in teaching, and demonstrated capabilities in the general field of energy. Applications and nominations should be sent to: Dr. Victor L. Wingert, Search Committee Chairman, Department of Civil Engineering, Vivian Hall of Engineering 402, University of Southern California, Los Angeles, Calif. 90007. The University is an Equal Opportunity and Affirmative Action Employer; female and minority persons are urged to apply.

If outstanding candidates can be located, the Physics Department of the University of California, Berkeley, expects during the next few years to be making a small number of appointments at the ASSISTANT PROFESSOR level. The preferred fields are solid state experimental physics, experimental astrophysics, and particle physics.

It is probable that no appointment will be made before 1 July 1977, although an earlier date is conceivable. Applicants should write to the Chairman of the Physics Department, University of California, 499 Berkey Hall, Berkeley, Calif. 94720, giving curriculum vitae, publication list, and references. The University of California is an Affirmative Action Employer and women and minority candidates are encouraged to apply.

**Stanford University**

The Human Biology Program at Stanford University seeks a candidate for a full-time position of Assistant Professor of Anthropology to work in an area encompassing the social, biological, and medical sciences. The Human Biology Program is an interdisciplinary, interdepartmental undergraduate major comprising a broad life-sciences faculty; major themes include human evolution, patterns of adaptation at various levels of social organization, human development throughout the life cycle. Areas of interest include paleoanthropology, prehistoric societies, evolution of cultures, social adaptations to stress, or medical anthropology. Preference will be given to persons with teaching and research experience. Stanford is an Equal Opportunity Employer and adheres to Affirmative Action policies. Send letter outlining qualifications and curriculum vitae (listing referees and papers), but do not send papers, to Anthropology Search Committee, Human Biology, Building 80, Stanford University, Stanford, Calif. 94305, Closing date for applications: 15 January 1976.

The Johns Hopkins University. An assistant professor position in ORGANIC CHEMISTRY is available beginning fall 1976. Applicants should submit a complete résumé and arrange to have three letters of recommendation sent directly to Professor Alex Nickon, Organic Chemistry Search Committee, Department of Chemistry, The Johns Hopkins University, Baltimore, Maryland 21218. When all supporting letters are in hand, each candidate will be so notified. The Johns Hopkins University is an Equal Opportunity/Affirmative Action Employer.

**Assistant Professor of Pharmacology**

Ph.D., with training and experience in biometry, statistics, epidemiology, and pharmacokinetics. Participation in teaching medical, dental, and graduate students. Applicants should send a curriculum vitae, including a list of publications, a summary of teaching and research experience, and the names of three references to Arthur H. Briggs, M.D., Chairman, Department of Pharmacology, The University of Texas Health Science Center, 7707 Floyd Curl Drive, San Antonio, Texas 78284. An Equal Opportunity/Affirmative Action Employer.

**Associate and Assistant Professor of Pharmacology**

Ph.D., with research background in immunology, and renal and circulatory. Participation in teaching medical, dental, and graduate students. Applicants should send a curriculum vitae, including a list of publications, a summary of teaching and research experience, and the names of three references to Arthur H. Briggs, M.D., Chairman, Department of Pharmacology, The University of Texas Health Science Center, 7707 Floyd Curl Drive, San Antonio, Texas 78284. An Equal Opportunity/Affirmative Action Employer.
ASSISTANT PROFESSOR IN BIOCHEMISTRY. A position is available in the Biochemistry Division for a highly qualified scientist with research interests in one or more of the following areas: immunochemistry (methods or applications), ultrastructure for physical biochemistry of macromolecules. In addition to her/his speciality, the applicant must also be qualified to teach general chemistry. The applicant should have a current publication record, including publications, research experience, a description of the nature of future research, and the names of three people who can be contacted for letters of reference. Correspondence should be addressed to: Dr. J. Norman Hansen, Biochemistry Search Committee, Department of Chemistry, University of California, Berkeley, California 94720.

APPLICATIONS ARE INVITED IN CHEMISTRY AT CALIFORNIA BERKELEY. Applications are invited for a faculty position at the level of ASSISTANT PROFESSOR. Candidates should be prepared to engage in research activities in the area of physical chemistry or chemical physics. Applicants should have a Ph.D. degree, with substantial evidence of research accomplishments, and be able to attract substantial federal funding. The University of California is an Equal Opportunity Employer. Applications are invited from all qualified individuals, especially women and members of minority groups.

ASSOCIATE PROFESSOR IN ORGANIC CHEMISTRY. A position may become available in September 1976 for an individual with demonstrated exceptional ability in the area of synthetic inorganic chemistry, with specific interest in new and novel methods. The successful candidate is expected to participate in the development of graduate and undergraduate courses in inorganic synthesis, as well as contribute to the maintenance of a productive research program of high quality. The position will include opportunities for collaborative research with other faculty members. Those interested in applying for this position should send their curriculum vitae to: Dr. John Arquilla, Chairman, Department of Chemistry, University of Texas at Austin, Austin, Texas 78712, attention: Mrs. Brenda Cunningham (PM-212), Personnel Management Division, Environmental Protection Agency, 47 Federal Triangle, Room 1150, Washington, D.C. 20460. An Equal Opportunity Employer.
CHEMIST-BIOCHEMIST having minimum of 2 years post doctoral training in isolation and structure elucidation of antibiotics, peptides, and other natural compounds. Experience with 13 spectroscopy, analytical ultracentrifugation and CD spectroscopy desirable. Qualified Ph.D.'s should send resume with three references to:

M. L. Knill
Department 210
FREDERICK CANCER RESEARCH CENTER
Litton Bionetics, Inc.
P.O. Box B
Frederick, Maryland 21701
An Equal Opportunity Employer M/F

5 DECEMBER 1975

CHEMIST-BIOCHEMIST having minimum of 2 years post doctoral training in isolation and structure elucidation of antibiotics, peptides, and other natural compounds. Experience with 13 spectroscopy, analytical ultracentrifugation and CD spectroscopy desirable. Qualified Ph.D.'s should send resume with three references to:

M. L. Knill
Department 210
FREDERICK CANCER RESEARCH CENTER
Litton Bionetics, Inc.
P.O. Box B
Frederick, Maryland 21701
An Equal Opportunity Employer M/F

5 DECEMBER 1975

5 DECEMBER 1975

1009
The University of California, Irvine, College of Medicine is seeking a CHAIRMAN for the Department of Anatomy. Candidates must be eligible for appointment at the level of professor or equivalent. Applicants should have demonstrated excellence in biomedical research and teaching and should preferably have administrative experience. Candidates capable of providing leadership in academic academic leadership in the reorganization and development of the department. Applications from all qualified candidates are encouraged to apply. Send curriculum vitae before 15 December 1975 to Richard F. Thompson, Chairman, of the Search Committee, Psychiatry, University of California, Irvine, California 92664.

COMPARATIVE PSYCHOLOGIST. Assistant professor, tenure track. Requirements: PhD in Animal Behavior Psychology or comparable psychology at graduate and undergraduate levels. Other courses open. Send curriculum vitae, reprints, and three references to: Professor I. Biloodea, Search Committee Chairman, Department of Psychology, Tulane University, New Orleans, La. 70118. Apply by 15 February 1976. Tulane University is an Equal Opportunity Employer.

Ecologist (GS 11/19). Incumbents will have primary responsibility for assessing the impact of proposed deepwater port developments on the marine and coastal environment. Additional responsibilities may include contact with local and private organizations in this field, and will serve as expert on marine and estuarine ecology and effects of pollutants on associated ecosystems. Minimum salary is $19,386 or $22,906 per annum depending upon experience and level of Civil Service rating.

Ecologist (GS 13/13). Incumbent will provide staff assistance in assessing the ecological and environmental impacts of deepwater port development on marine and coastal environments. Entrance level salary is $13,482 or $16,255 per annum depending upon experience and level of Civil Service rating.

Qualifications: graduate study preferred. Minimum of a bachelor's degree or equivalent experience in marine ecology, marine biology, environmental chemistry, or related fields. An additional three years of progressively more professional experience in above fields (graduate education may be substituted for some of this experience). At least 1 year of professional experience must have been at a level of difficulty comparable to the next lower grade in the federal service. Additional information on the vacancies may be obtained from Dr. Daiek (Telephone: 202-634-7379). Applications (SF-171) should be submitted to the Personnel Division, AD412, Page Building, 14th and C, Washington, D.C. 20235. Attention: Mrs. Collier, by 12 December 1975. The U.S. Department of Commerce is an Equal Opportunity Employer.

EMBRYOLOGIST, ENTOMOLOGIST, OR IMMUNOLOGIST

Two faculty positions available September 1976 at the University of Mississippi at Oxford. Preference given to qualified persons with postdoctoral experience and demonstrated capacity for research and undergraduate and graduate teaching. Rank and salary commensurate. Deadline: 15 March. Send curriculum vitae and names of references to: L. A. Magee, Department of Biology, University of Mississippi, Miss. 38677. Equal Opportunity Employer.

UNIVERSITY OF CHICAGO

The Department of Pharmacological and Physiological Sciences invites applications for faculty appointments, from qualified individuals in any or all of the general area of pharmacology. From the time of its original charter, the principle of the University has been to employ the number of persons in the University, the salary, the research, the religious, or national origin. Applicants should submit resumes and significant publications as well as arrange to have letters of recommendation sent directly to:

Alfred Heller, Professor and Chairman
Department of Pharmacological and Physiological Sciences
University of Chicago
947 East 59 Street
Chicago, Illinois 60637

An Equal Opportunity Employer

ENVIRONMENTAL RADIOCHEMIST

Department of Oceanography, Texas A & M University, has an opening for a postdoctoral scientist with experience in environmental radiochemistry. The work will involve investigations of platinum, thorium, and strontium-90 in marine sediments. Seagoing experience is desirable. This project is starting now and will last approximately 2 years. Send inquiries to: D. R. Schink, Department of Oceanography, Texas A & M University, College Station, Texas 77843.

An Equal Opportunity Employer

DIRECTOR, SANDERS-BROWN KENTUCKY RESEARCH CENTER ON AGING

The University of Kentucky is establishing an institute for study of the basic biological processes of aging. The Sanders-Brown Center, expected to be completed in late 1975, will consist of 17,500 square feet of space including ten laboratories, offices, conference rooms, library, animal space, and administrative offices. A new research facility will be set up to develop programs and funding in temporary quarters until the Center is completed. Write to: Dr. J. W. Hollingsworth, Department of Medicinal Chemistry, College of Medicine, Lexington, Kentucky 40506. The University of Kentucky is an Equal Opportunity and Affirmative Action Employer.

DEPARTMENT OF NUTRITION AND FOOD SCIENCE

MASSACHUSETTS INSTITUTE OF TECHNOLOGY FACULTY POSITIONS

The Department, a large multidisciplinary teaching and research unit with activities in all principal areas of nutrition and food science, is seeking applicants to fill two faculty positions: (i) an M.D. with training and experience in human nutrition, interested in teaching graduate nutrition courses, and conducting research in the areas of human nutrition, chemistry, epidemiology and an interest in international nutrition planning. The appointee will be expected to develop areas of extramural research, including nutritional biochemistry and metabolism and whose major interest is in nutritional biochemistry or mammalian nutrition. Duties will include teaching mammalian biochemistry or mammalian nutrition, and participation in the nutrition research programs of the MIT Clinical Research Center.

The appointees will be expected to generate vigorous research programs supported by extramural funds. Curriculum vitae, together with representative publications and the names of five referees, should be submitted before 1 January 1976.

Dr. V. R. Young
Secretary, Search Committee
Massachusetts Institute of Technology
Cambridge, Mass. 02139

An Equal Opportunity Employer

The new Department of Neurology at Stanford University School of Medicine invites applications from qualified individuals for three FACULTY POSITIONS available 1 September 1976. The levels of appointment will be at the assistant or associate professor level. Preference is given to individuals whose research interests and experience are in those areas of neurology which involve collaborative work with other scientific disciplines. Applicants will be expected to develop a program of research and teaching. The University is an equal opportunity employer and encourages applications from women and minority group members.

FACULTY POSITION IN BOTANY

The Department of Botany at the University of Minnesota invites applications for a faculty position for a developmental plant biologist with a molecular orientation. The position will start July 1976 and will be one assistant professor, although there is a possibility that it might be filled at a higher rank. The specialty is open, although applications will be especially encouraged from persons in areas: transcription-translation, tissue culture, and hormones. There are possibilities of interacting with activities within and outside the Botany Department. Teaching will include an introductory course such as general botany, introductory plant systems beginning or advanced course in a specialty area. Preference will be given to applicants with experience in the area of plant hormone systems. A position may be available beginning Fall 1975. Application deadlines are 15 January and should include curriculum vitae, list of undergraduate and graduate courses, and names of three references. Send applications to: Professor D. C. Pratt, Head, Department of Botany, 220 BioScience Center, University of Minnesota, St. Paul, Minn. 55108. An Equal Opportunity Employer and welcomes applications from women and minority group members.
POSITIONS OPEN

FACULTY POSITION IN ECOLOGY: The Division of Environmental Studies, an interdisciplinary teaching and research unit of the University of California, Davis, seeks to hire a theoretical ecologist. Teaching responsibilities include team teaching a basic undergraduate ecology course, an advanced undergraduate course in either population or community ecology, and developing a graduate-level course in theoretical ecology. Research interests of applicants should center on the mathematical or statistical analysis of the behavior of populations or communities. Appointment will be made at a level appropriate to experience and qualifications. Appointment will be expected to maintain a formal relationship with an appropriate discipline department. Applicants should submit curriculum vitae, reprints, manuscripts in progress, and other evidence of innovative and creative scholarly accomplishments, and the names of three references to: Chairman, Theoretical Ecologist Search Committee, Division of Environmental Studies, University of California, Davis, Calif. 95616. Applications received after 15 January 1976 cannot be assured of consideration. An Equal Opportunity/Affirmative Action Employer.

FRESHWATER RESOURCE ECOLOGIST

POSITIONS OPEN

DEPARTMENT OF LIFE SCIENCES UNIVERSITY OF PITTSBURGH

Applications are invited for a number of positions available in a newly organized Department of Life Sciences. The Department of Life Sciences is formed by merger of existing Departments of Biochemistry, Biology, and Biophysics and Microbiology. Applicants are encouraged to apply. Areas of interest include immunobiology, neurophysiology, animal virology, genetics, chromosome structure and function in eukaryotes, and systems analysis of ecological problems. Applicants should produce evidence of creative and productive research capability, as well as excellence in teaching. Successful applicants will be expected to participate in graduate and undergraduate teaching and to establish vigorous research programs with grant support. Rank and salary will be commensurate with the qualifications of the applicants. Application will close 15 January 1976. The University of Pittsburgh is an Equal Opportunity/Affirmative Action Employer.

GENERAL PHYSIOLOGIST
An opening at the assistant professor level is available September 1976 for a general physiologist with research interests in the physiology of excitable cells at the molecular-cellular level. Candidates will be expected to share in the direction of a course in physiology for advanced graduate and undergraduate students, teach at the specialty and develop a strong, independent research program. Postdoctoral experience is desirable. Exceptional qualifications may lead to appointment at higher academic rank.

Send curriculum vitae, and three letters of recommendation by 15 January 1976 to: John Schaeffer, Ph.D., Biology Department, Tufts University, Medford, Mass. 02155.

Tufts University is an Equal Opportunity/Affirmative Action Employer. Applications from minority group members and women are encouraged.

IMMUNOLOGIST/CELL BIOLOGIST. Assistant professorship is available for an individual with a postdoctoral experience and a strong commitment to research. Interests in immunology, chemical carcinogenesis, or mammalian cell biology are desirable. An ability to teach an undergraduate course in immunology is necessary. Applicants should send a curriculum vitae, the names and addresses of references, and an outline of their proposed research to:

Dr. L. N. Zimmerman, Head
Department of Microbiology and Cell Biology
The Pennsylvania State University
University Park, Pa. 16802
An Affirmative Action/Equal Opportunity Employer

MAMMALIAN PHYSIOLOGICAL ECOLOGIST with environmental interest. Teaching and research in specialty, as well as teaching in environmental science and physiology. Assistant professor level; Ph.D. required. Closing date: 15 December 1975. Send curriculum vitae to: Dr. W. R. Hanson, Chairman, Search Committee, Biology Department, California State University, Los Angeles, Calif. 90032. An Equal Opportunity/Affirmative Action Employer.

MARINE BIOLOGIST
One, possibly two, positions in the area of marine biology, including marine botany, zoology, microbiology, or biochemistry, at the rank of assistant professor, will be open September 1976. Teaching will include undergraduate and graduate courses in the area and possibly other undergraduate courses. Applicants are expected to develop an independent research program and to participate in professional training in their specialty. Postdoctoral experience or equivalent is desirable. Applicants should send curriculum vitae and three letters of reference to: Dr. J. E. Key, Chairman, Division of Biological Sciences, University of Georgia, Athens, Georgia 30602, prior to 1 January 1976.

The University of Georgia is an Equal Employment Opportunity/Affirmative Action Employer and encourages applications from women and individuals from minority groups.

MEDICAL MICROBIOLOGIST
We seek a Ph.D. or M.D. with experience in Medical Microbiology to work in a section of ten persons within the Microbiology Department of The Wellcome Research Laboratories. This is an opportunity for a research-oriented medical microbiologist to collaborate with organic chemists, biochemists, and other microbiologists in the design and testing of innovative, new chemotherapeutic drugs. Previous research experience in chemotherapy and pathogenic microbiology is highly desirable.

Please send résumé to:
Dr. James Burchall
Wellcome Research Laboratories
Burlington House Co.
Weston Park, Menlo Park, California
Research Triangle Park, N.C. 27709
Equal Opportunity Employer, M/F

The Section of Neurobiology and Behavior in the Division of Biological Sciences at Cornell University has an opening for a NEUROBIOLoGIST. The position will be filled at the assistant professor level. The candidate must have strong training and research commitment in fundamental problems involving cellular or molecular approaches to the nervous system. Areas of research could include, but are not restricted to: neurochemistry, neural integration, or synaptic transmission. A curriculum vitae with bibliography, one or two recent reprints, and letters from three people who know the candidate's work well should be sent to: Dr. Jeffrey M. Camhi, Chairman, Neurobiology Search Committee, Section of Neurobiology and Behavior, Langmuir Laboratory, Cornell University, Ithaca, New York 14853. Deadline for receipt of applications is 1 March 1976.

Send resume in confidence to:
STANFORD RESEARCH INSTITUTE
Center for Occupational and Environmental Safety and Health
333 Ravenswood Avenue
Menlo Park, CA 94025
SRI is an equal opportunity employer

San Francisco Bay Area

Industrial Environmental Toxicologist

Stimulating opportunity to participate in its activities in contract research and consulting research for government and commercial clients.

Initial assignments will be associated with the Center’s activities in the preparation of NIOSH criteria documents for recommended occupational health standards. SRI's Washington, DC office, and in support of a contract with the National Cancer Institute in Environmental Carcinogenesis in SRI's main office at Menlo Park, California. Successful applicants will have solid background in inhalation toxicology and the toxicological aspects of Industrial Hygiene.

Emphasis will be given in evaluating applicants for their ability to critically review the biomedical literature and develop statements to support proposed standards. Previous experience is desirable but can be substituted by unusually strong academic background.

Send resume in confidence to:
STANFORD RESEARCH INSTITUTE
Center for Occupational and Environmental Safety and Health
333 Ravenswood Avenue
Menlo Park, CA 94025
SRI is an equal opportunity employer
**RESEARCH ENTOMOLOGIST**

Johnson Wax Corporate Research and Development is seeking someone to fill a challenging position. The successful candidate is likely to have a Ph.D. or a combination of experience and education equivalent to a Ph.D. The job involves direct responsibility for corporate research and evaluation of insecticides and insect repellents. A strong background in insecticide chemistry, mode of action, and toxicity applicable to household insect pest control is essential.

Starting salary commensurate with experience plus excellent benefit package including cash and deferred profit sharing. Candidates should send resume or letter of application to A. R. Hornisch.

S. C. JOHNSON & SON, INC.  
1525 Howe Street  
Racine, Wisconsin 53403  
An Equal Opportunity Employer M/F

---

**THE INTERNATIONAL CENTRE OF INSECT PHYSIOLOGY AND ECOLOGY**

**CONTROLLER FOR INSECTARY SERVICES (REF.SCI/75/4)**

Applications are invited from suitably qualified candidates for this post.

**Requirements:**
Candidates should be in possession of a Ph.D. degree, preferably in insect or animal pathology, but possibly also in zoology, biology, or physiology. They should have strong technical training and a solid scientific or research background at a senior level. They should necessarily be interested in insect breeding problems and techniques.

**Responsibilities:**
The successful candidate will be required to (i) plan the insect and animal breeding unit; (ii) carry out experiments needed to establish routines for the breeding of each of the target insect species and required laboratory animals; (iii) supervise the operations of the insect and animal breeding unit; and (iv) train staff working under him. It is expected also that he will monitor the health of insects under his care. It is hoped that the successful candidate will be able to commence work on 1 February 1976 or soon thereafter.

**Salary:** The basic salary will be in the scale K.Sh.s.46,800 by 1,860 to K.Sh.s.61,680 per annum. A higher scale may be considered for a candidate with exceptional qualifications. Benefits include a housing allowance, a 10 percent gratuity on basic salary earned; a transport allowance; membership of a group medical insurance scheme; and generous leave.

Applications, in four copies, including the names of at least three referees (one to report on academic career; one on professional performance; and at least one on personality and character) and photostat copies of certificates and testimonials, should be sent to:

Deputy Director (Special Duties)  
ICIPE Research Centre  
P.O. Box 30772  
Nairobi, Kenya

to reach him not later than 25 December 1975.

---

**UNIVERSITY OF CINCINNATI**

Invites Applications for the Position of **DEAN OF THE McMICKEN COLLEGE OF ARTS AND SCIENCES**

The Dean of the McMicken College of Arts and Sciences provides academic and administrative leadership to the largest of the sixteen colleges comprising the University of Cincinnati, which has a total enrollment of 38,000 students. The College enrolls 5,000 undergraduates and 1,300 graduate students within nineteen departments having a total of 475 faculty and awards B.A. or B.S. degrees in thirty-seven disciplinary and cross-disciplinary areas. As one of the two universities designated by the Ohio Board of Regents as comprehensive graduate institutions in Ohio, it offers doctoral programs in seventeen disciplines.

Applicants should present evidence of scholarly achievement in addition to an aptitude for academic and administrative leadership. Candidates must be able to assume the position no later than September 1, 1976.

Applications and/or letters of nomination (with full professional vita) should be sent by February 1, 1976, to:

Gene D. Lewis, Provost  
Attn: A&S Search Committee  
101 Administration Bldg.  
University of Cincinnati  
Cincinnati, Ohio 45221  
An Equal Opportunity/Affirmative Action Employer.
UNIVERSITY OF CALIFORNIA, IRVINE

POSITIONS OPEN

Position as Professor of Psychology in the School of Social Sciences. Duties involve graduate and undergraduate teaching in the area of perception and psychophysics. Candidate's research interests should also lie in this area, preferably with an emphasis on quantitative theoretical problems as well as experimental work. The School is seeking an established scientist with a strong record of research, publication, and graduate training. Applications from all qualified candidates are encouraged. To apply, send curriculum vitae and the names of five references to Dean Christian Tabor Roads, P.O. Box 33, Philadelphia, Pa. 19141.

Effective date: 1 July 1976.

Vacancy: PROFESSOR AND HEAD, Department of Physiology, Queen's University. Qualifications: M.D. and/or Ph.D. with demonstrated competence in teaching, research, and administration. Duties: Teaching in programmes in medicine, arts and science, and paramedical schools. Promotion and supervision of research with associated M.Sc. and Ph.D. graduate programs. Salary: Commensurate with qualifications and experience. Reply to: Dr. H. G. Kelly, Vice-Principal for the Health Sciences, Queen's University, Kingston, Ontario.

RESEARCH ASSOCIATE IN BIOCHEMICAL GENETICS

Ph.D. or M.D. to actively collaborate in an existing program concerned with the development of new methods for detecting and studying inborn errors of metabolism in newborn infants. Independent research in biochemical genetics, including work previously carried on elsewhere, is expected. Salary commensurate with experience. Interested candidates should write Professor A. Nowotny, Department of Microbiology and Immunology, School of Medicine, University of Wisconsin, 1349 West Groves St., Madison, Wisconsin 53706.

RESEARCH ASSOCIATE: Ph.D. biochemist, or radiation biologist. Interested in drug suppression of colagen synthesis in animals. Salary $13,500 to $15,000. Submit curriculum vitae and references to: Personnel Department, Albert Einstein Medical Center, York and Tabor Roads, Philadelphia, Pa. 19141.

FELLOWSHIPS IN VISION RESEARCH AT WASHINGTON UNIVERSITY

Predoctoral and postdoctoral fellowships are available under an NIH training program for the study of vision at Washington University in St. Louis. Training is available in basic anatomical, physiological, and biochemical approaches to the developing and mature visual system. Send inquiries and applications to Dr. Nigel W. Daw, Box B67, Washington University Medical School, 4506 Scott Avenue, St. Louis, Missouri 63110.

An Equal Opportunity/Affirmative Action Employer

An Equal Opportunity/Affirmative Action Employer

For information write Marie Brewe, Ph.D. Analytical Instrumentation Discussion Group, P.O. Box 35, Little Rock, Ark. 72205; Phone (501) 664-5000, Ext. 467.

ADDITIONAL INCOME

An unusual opportunity is available for qualified professionals in biology, chemistry, or related fields to gain significant extra income without significant disruption from other interests. We are a highly successful organization preparing medical school applicants for the MCAT exam in over 25 states. We are accepting inquiries from the following areas only: Nebraska, Canada, Minnesota, Miami, Missouri, Florida, Arizona, Alabama, South Carolina, Oklahoma, Iowa, Southern Illinois, Idaho, Syracuse, New York, and California. Please send a brief résumé to: MCAT Review Course Inc., 33 Evergreen Place, East Orange, New Jersey 07018. Attention: Ms. Marinos.

AUTHORS WANTED BY NEW YORK PUBLISHER

Your book can be published, promoted, distributed by a retailer, and sold in a substantial manner. Fiction, non-fiction, poetry, scholarly, scientific, and even controversial manuscripts welcomed. For free booklet, write: Vantage Press, Dept. SC, 516 W. 34 St., New York 10018.

GENERAL ISSUES

The Training in Microbiology and Immunology to Work on Cardiac Tissue Culture. Salary $13,200, plus stipend and tuition. Send curriculum vitae and three letters of reference to Dr. E. M. Foster, Director, Food Research Institute, University of Wisconsin, Madison, Wisconsin 53706.

An Equal Opportunity/Affirmative Action Employer

Toxicologist, Assistant professor. The Food Re-

search Institute (Department of Food Microbiology and Toxicology), University of Wisconsin, is seeking an individual with a Ph.D. or professional degree in the area of toxicology, toxicopathology, or related field to conduct research relating to mode of action of foodborne toxics. An individual whose training has emphasized biochemistry and morphological pathology including electron microscopy is desirable. In addition to developing an independent research program, a portion of the time will be spent in cooperative research. Send curriculum vitae and three letters of recommendation to: Dr. Raymond W. Steinberg, Chairman, Department of Anatomy, University of Wisconsin, Madison, Wisconsin 53706.

An Equal Opportunity/Affirmative Action Employer

Needed: TECHNOLOGISTS or TECHNICIANS in these specialties: Analytical methodology in all branches of chemistry, biological and medical sciences, tissue culture, spectrometric methods, electron microscopy, radioactive isotopes, computer sciences, water sciences, atmospheric sciences, and ecology. This is a federal laboratory with experience, for example, associates, or bachelor of science degrees or equivalent, are required. Work conditions are chemical and salaries are competitive in an attractive Arab Middle Eastern city on the Mediterranean. For practical purposes, Arabic-speaking applicants are preferred, but all will be considered for the large number of available positions. Send applications with three names of references to Mr. Joe D. Ray, Director, Food Research Institute, Box 8004, Tripoli, Libyan Arab Republic, or Technical Counselor for Scientific Research, Embassy of the Libyan Arab Republic, 1717 Massachusetts Avenue, N.W., Washington, D.C. 20036.

T XOCOLOGIST, Assistant professor. The Food Re-

search Institute (Department of Food Microbiology and Toxicology), University of Wisconsin, is seeking an individual with a Ph.D. or professional degree in the area of toxicology, toxicopathology, or related field to conduct research relating to mode of action of foodborne toxics. An individual whose training has emphasized biochemistry and morphological pathology including electron microscopy is desirable. In addition to developing an independent research program, a portion of the time will be spent in cooperative research. Send curriculum vitae and three letters of recommendation to: Dr. Raymond W. Steinberg, Chairman, Department of Anatomy, University of Wisconsin, Madison, Wisconsin 53706.

FELLOWSHIP

Interested in teaching college biology? Our Doctor of Arts program stresses individual needs and requires demonstration at the teaching level. Candidates must have a Ph.D. or M.D. or D.V.M. with comparable degree and be U.S. citizens or permanent residents. Fellowships will begin 1 July 1976. The stipend is $10,000 to $13,200, depending upon previous postdoctoral experience. Send curriculum vitae and the names of three references to: Dr. Arthur G. Steinberg, Case Western Reserve University, Cleveland, Ohio 44106.

REPRODUCTIVE ENDOCRINOLOGY PROGRAM, PREDOCTORAL AND POSTDOCTORAL FELLOWSHIPS

Training can be obtained in association with faculty in anatomy, biochemistry, cell and molecular biology, ob-

FELLOWSHIPS

POSTDOCTORAL FELLOWSHIPS IN HUMAN AND MEDICAL GENETICS

Training available in clinical, biochemical, immunological, and population genetics. Candidates must have a Ph.D., M.D. or D.V.M. with comparable degree and be U.S. citizens or permanent residents. Fellowships will begin 1 July 1976. The stipend is $10,000 to $13,200, depending upon previous postdoctoral experience. Send curriculum vitae and the names of three references to: Dr. Arthur G. Steinberg, Case Western Reserve University, Cleveland, Ohio 44106.

MARKET PLACE

For information write Marie Brewe, Ph.D. Analytical Instrumentation Discussion Group, P.O. Box 35, Little Rock, Ark. 72205; Phone (501) 664-5000, Ext. 467.

ADDITIONAL INCOME

An unusual opportunity is available for qualified professionals in biology, chemistry, or related fields to gain significant extra income without significant disruption from other interests. We are a highly successful organization preparing med school applicants for the MCAT exam in over 25 states. We are accepting inquiries from the following areas only: Nebraska, Canada, Minnesota, Miami, Missouri, Florida, Arizona, Alabama, South Carolina, Oklahoma, Iowa, Southern Illinois, Idaho, Syracuse, New York, and California. Please send a brief résumé to: MCAT Review Course Inc., 33 Evergreen Place, East Orange, New Jersey 07018. Attention: Ms. Marinos.
