Acoustically Orienting Parasitoids: Fly Phonotaxis to Cricket Song: W. Cade .... 1312
Weaning and Growth of Artificially Reared Rats: W. G. Hall ........................................ 1313
Changes in the Intensity and Pleasantness of Human Vaginal Odors During the Menstrual Cycle: R. L. Doty et al. ........................................ 1316
Locus of Short-Term Visual Storage: B. Sakitt ........................................ 1318

COVER
Intact vacuoles from flower petals from two Tulipa cultivars. Vacuoles were isolated by gentle osmotic rupture of enzymatically isolated protoplasts. Soluble anthocyanin pigments are contained in the sap of most vacuoles (about X330). See page 1298. [G. J. Wagner and H. W. Siegelman, Brookhaven National Laboratory, Upton, New York]
