REPORTS

Protein Purification: Adsorption Chromatography on Controlled Pore Glass with the Use of Chaotropic Buffers: H. G. Bock et al. ........................................ 380

Crossbridge Attachment, Resistance to Stretch, and Viscoelasticity in Resting Mammalian Smooth Muscle: M. J. Siegman et al. ........................................ 383

Activation of Transplant Immunity: Effect of Donor Leukocytes on Thyroid Allograft Rejection: D. W. Talmage et al. ........................................ 385

Role of the Generative Cell in Androgenesis in Henbane: V. Raghavan ........................................ 388

Genetic Characteristics of the HeLa Cell: S. H. Hsu et al. ........................................ 392

Habituation of Reflexes in Aplysia: Contribution of the Peripheral and Central Nervous Systems: B. Peretz, J. W. Jacklet, K. Lukowiak ........................................ 396

Apparent Modification of Forces Between Lecithin Bilayers: D. M. LeNeveu et al. ........................................ 399

Wheat Gluten as a Pathogenic Factor in Schizophrenia: M. M. Singh and S. R. Kay ........................................ 401

Niche Shifts in Sunfishes: Experimental Evidence and Significance: E. E. Werner and D. J. Hall ........................................ 404

Panhandling: Sharing of Resources: J. S. Lockard et al. ........................................ 406

Technical Comments: Pigeons Can Learn Identity or Difference, or Both: T. R. Zentall and D. E. Hogan; D. E. Carter and D. A. Eckerman; Exchange of Water During Lactation: M. I. Friedman and J. P. Bruno; P. Baverstock and B. Green ........................................ 408

COVER

A typical early Indian midden (20 meters in height) at Carniça, near Laguna, Santa Catarina, Brazil. The midden is in the process of being quarried for agricultural lime. See page 353. [Wesley Hurt, Indiana University Museum, Bloomington, Indiana]
