The HP-97 & the HP-67 powerful fully programmable calculators

HP-97 $750.00*  
HP-67 $450.00*

The HP-97 and HP-67 are the most powerful fully programmable battery-operated portable scientific calculators you can buy. In fact, both offer about 3.4 times** the programming power of our classic HP-65—the industry standard. Programs written for either the HP-67 or HP-97 can be run on the other without modifications of any kind. The HP-97’s thermal printer is also remarkable—and unusually quiet.

- Handles up to 224 steps.
- All prefix functions and operations are merged.
- Directly records programs or contents of all 26 data storage registers onto magnetic cards.
- 10 user-definable keys.
- 3 printing modes—Manual, Normal and Trace. (HP-97 only)
- Standard Application Pac with 15 programs of broad appeal included free. Optional Pacs in engineering, finance and other disciplines available at $35.00 each.

**Complete details on request.

The HP-25C scientific programmable with continuous memory

$200.00*

The HP-25C is our keystroke programmable. It can solve automatically the repetitive problems every scientist and engineer faces. What’s more, its Continuous Memory capability lets you retain programs and data even when it’s turned off.

- Continuous Memory capability.
- 72 built-in functions and operations.
- Keystroke programmability.
- Branching, conditional test and full editing capability.
- 8 addressable memories.
- We also offer the HP-25 (without the Continuous Memory feature) for $145.00*

The HP-80 financial

$295.00*

The HP-80 performs calculations involving the relationship between time and money: bond prices and yields, conversions, trend line analysis, interest calculations and more. A built-in 200-year calendar figures number of days in bond or loan calculations.

- Financial functions: simple interest, payment per period, number of periods, present and future value, sum-of-the-years-digits depreciation.
- Bond functions: prices and yields, 200-year calendar.
- Statistical functions: mean, standard deviation, trend line.
- Mathematical functions: percentages, 8-digit serial or chain calculations.
- Addressable memory.
- Selectable display modes: fixed point and scientific notation.

Suggested retail price—excluding applicable state and local taxes—Continental U.S., Alaska and Hawaii.

For more information on any of these Hewlett-Packard calculators and the name of your nearest dealer, simply telephone toll-free 800-648-4711 (in Nev. 323-2704 collect). Or write: Hewlett-Packard, Dept. 253m, 1000 N.E. Circle Blvd., Corvallis, Ore. 97330.

HEWLETT-HP PACKARD

Sales and service from 172 offices in 65 countries.  
Dept. 253m, 1000 N.E. Circle Blvd., Corvallis, Oregon 97330.
Science for Listening

CANCER—the latest in the AAAS audiotape cassette album series.

WHY? This most baffling question is asked every day by over 1000 Americans. Cancer, a disease of fear, anxieties, and of the unknown. A disease that strikes for no apparent reason. Is there an answer? Is there hope? On four hour-long cassettes, science journalists interview 19 leading physicians and cancer researchers. Listen to what the experts in medical science know and the potential that research holds. The newest audiotape album from AAAS is accompanied by a 40-page booklet condensing much of the information contained in the series of tape-recorded narratives. Order the entire package or the booklet alone.

List price: $49.95 Booklet alone: $2.50
(special PREPAID member price: $44.95. Booklet alone: $2.00)

AND NOW . . . for a limited time only, the Association is able to offer its readers the following proven favorites at a special low price to enable you to expand your collection. Which ones do you need for classroom discussions, personal study, or library reference? Look over the list and note how prices have been reduced. Increase your knowledge while we decrease our prices. Order NOW while the supply lasts.

☐ Energy: A Dialogue
A six-tape album plus booklet which focuses on three major themes: the energy crisis, what it is and how it got that way; the technological options, what they are and how much they will cost; and the interrelationship of energy with environment and politics and how it affects our lifestyles and family budgets.

List price: $49.95 $35.00

☐ Origins
What is man's deepest mystery? How did life begin? What is the genesis, life, and death of stars? How was the universe created? Four of the world's leading scientists probe these and other questions in Origins, an audiotape album with four 50-minute cassettes and accompanying booklet. For the inquisitive mind, for the science student, for anyone who wants to learn more about his own origin or that of his world.

List price: $39.95 $30.00

☐ The Physical World
Designed for the graduate physicist and other scientists, The Physical World contains six lectures selected from presentations at the 14th General Assembly of the International Union of Pure and Applied Physics. The lectures explore such topics as the theory and techniques of scattering methods, the evolution of solid state theory, the various types of nuclear phenomena, as well as questions about how physicists and the lay public can share "the thrill of discovery and the satisfaction of understanding." The accompanying booklet contains reproductions of many of the slides used in the original presentations.

List price: $69.95 $55.00

☐ Speaking of Science
To help you understand the world through science, AAAS created this three-volume series of audiotapes. Thirty-six conversations between well-known scientists and science writers explore pertinent scientific issues, discoveries and topics of research. Designed for listening both in the home and in the classroom, each volume contains 12 scintillating half-hour conversations certain to spark hours of interesting and informative discussions. The volumes may be purchased separately or in a set. Quantities are limited.
