Finding good science books and films can be very hard . . .

. . . or very easy.

It's really up to you. If you have plenty of time, shelf space, and money you may not need SCIENCE BOOKS & FILMS. But if you're looking for a quick, reliable way to find good science information sources, let SB&F be your guide. Each issue reviews hundreds of the latest trade books, textbooks, reference works, and 16mm films in the pure and applied sciences. Using this single selection tool, you can find good science materials for readers and viewers at all levels—from kindergarten through college. And you can have confidence in the reliability of the reviews and the rating system. Our reviewers are specialists with scientific expertise as well as practical teaching experience. Their signed reviews are authoritative, informative, and interesting. A simple coding system shows at a glance how the reviewer rates each book or film and for what level it is suitable. So the next time you're looking for science materials—on euthanasia . . . or land use and misuse . . . or manned spacecraft . . . or atomic physics . . . or hang gliding . . . or endangered wildlife . . . or ants . . . or whatever—remember SB&F. We take the trouble to save you time and money.

Subscriptions are $16.00 per year ($15.00 for AAAS members) or $28.00 for two years.

TIAA's new life insurance rates?

The traditional "best buy" in life insurance is now even better, and you'll be startled to find how little it costs to own all the family protection you need. To illustrate,

at any issue age below 35 for men and 40 for women, a $50,000 TIAA policy now costs less than $100; and $100,000 policies are under $180.

These are yearly net costs after current dividends (dividends not guaranteed) for policies issued on the popular 20-Year Decreasing Term plan. For exact information on this plan and what $50,000 or $100,000 immediate coverage would cost at your age,

Either telephone collect...
the TIAA LIFE INSURANCE ADVISORY CENTER at (212) 490-9000
and ask for an Insurance Counselor:

| Alan Fox, CLU | Ken Sawyer | Joan Scott, CLU |

or send this coupon...
to receive information by mail.
In either case there are no strings attached and no one will call on you.

CANCER—the latest in the AAAS audiotape cassette album series.

Why? This most baffling question is asked every day by over 1000 Americans. Cancer, a disease of fear, anxieties, and of the unknown. A disease that strikes for no apparent reason. Is there an answer? Is there hope? On four hour long cassettes, science journalists interview 19 leading physicians and cancer researchers. Listen to what the experts in medical science know and the potential that research holds. The newest audiotape album from AAAS is accompanied by a 40-page booklet condensing much of the information contained in the series of tape-recorded narratives. Order the entire package or the booklet alone.

List price: $49.95 Booklet alone: $2.50
(special PREPAID member price: $44.95. Booklet alone: $2.00)

And now . . . for a limited time only, the Association is able to offer its readers the following proven favorites at a special low price to enable you to expand your collection. Which ones do you need for classroom discussions, personal study, or library reference? Look over the list and note how prices have been reduced. Increase your knowledge while we decrease our prices. Order now while the supply lasts.

Energy: A Dialogue
A six-tape album plus booklet which focuses on three major themes: the energy crisis, what it is and how it got that way; the technological options, what they are and how much they will cost; and the interrelationship of energy with environment and politics and how it affects our lifestyles and family budgets.

List price: $49.95 $ 35.00

Origins
What is man's deepest mystery? How did life begin? What is the genesis, life, and death of stars? How was the universe created? Four of the world's leading scientists probe these and other questions in Origins, an audiotape album with four 50-minute cassettes and accompanying booklet. For the inquisitive mind, for the science student, for anyone who wants to learn more about his own origin or that of his world.

List price: $39.95 $ 30.00

The Physical World
Designed for the graduate physicist and other scientists, The Physical World contains six lectures selected from presentations at the 14th General Assembly of the International Union of Pure and Applied Physics. The lectures explore such topics as the theory and techniques of scattering methods, the evolution of solid state theory, the various types of nuclear phenomena, as well as questions how physicists and the lay public can share "the thrill of discovery and the satisfaction of understanding." The accompanying booklet contains reproductions of many of the slides used in the original presentations.

List price: $69.95 $ 55.00

Speaking of Science
To help you understand the world through science, AAAS created this three-volume series of audiotapes. Thirty-six conversations between well-known scientists and science writers explore pertinent scientific issues, discoveries and topics of research. Designed for listening both in the home and in the classroom, each volume contains 12 scintillating half-hour conversations certain to spark hours of interesting and informative discussions. The volumes may be purchased separately or in a set. Quantities are limited.
