Hydrogen Peroxide Induces Spawning in Mollusks, with Activation of Prostaglandin Endoperoxide Synthetase: D. E. Morse et al. ........................................ 298
Hepatic-Regeneration and Erythropoietin Production in the Rat: B. A. Naughton et al. .......................................................... 301
A Phospholipid Derivative of Cytosine Arabinoside and Its Conversion to Phosphatidylinositol by Animal Tissue: C. R. H. Raetz et al. .................................................. 303
Estradiol Shortens the Period of Hamster Circadian Rhythms: L. P. Morin, K. M. Fitzgerald, I. Zucker ........................................... 305
Stress-Induced Modulation of the Immune Response: A. A. Monjan and M. I. Collector .......................................................... 307
Permeation of Manganese, Cadmium, Zinc, and Beryllium Through Calcium Channels of an Insect Muscle Membrane: J. Fukuda and K. Kawa .......................................................... 309
Early Chemical Evolution of Nucleic Acids: A Theoretical Model: D. A. Usher .......................................................... 311
Theta-Sensitive Cell and Erythropoiesis: Identification of a Defect in W/W Anemic Mice: W. Wiktor-Jedrzejczak et al. .................................................. 313
Neoplastic and Possibly Related Skin Lesions in Neotenic Tiger Salamanders from a Sewage Lagoon: F. L. Rose and J. C. Harshbarger .................................................. 315
Niemann-Pick Disease Experimental Model: Sphingomyelinase Reduction Induced by AY-9944: N. Sakuragawa et al. ............................................. 317
Hypothalamic Stimulation Facilitates Contralateral Visual Control of a Learned Response: W. K. Beasley and T. L. Holley .................................................. 321
Alzheimer’s Disease, Trisomy 21, and Myeloproliferative Disorders: Associations Suggesting a Genetic Diathesis: L. L. Heston .................................................. 322
Sea Urchin Recruitment Patterns and Implications of Commercial Fishing: M. J. Tegner and P. K. Dayton .................................................. 324
Antischizophrenic Drugs: Chronic Treatment Elevates Dopamine Receptor Binding in Brain: D. R. Burt, I. Creese, S. H. Snyder .................................................. 326
Antigen-Antibody Reactions in Rat Brain Sites Induce Transient Changes in Drinking Behavior: C. A. Williams, Jr. and N. Schupf .................................................. 328
Membrane Currents Examined under Voltage Clamp in Cultured Neuroblastoma Cells: W. H. Mooonenær and I. Spector .................................................. 331
Scotopic Vision Deficits in Young Monkeys Exposed to Lead: P. J. Bushnell et al. .................................................. 333
Technical Comment: The Capsian Escargotières: A Clarification: D. Lubell .................................................. 335
