Avoiding future shock - being ready for the prospect that tiny integrated circuits like the one shown here will increasingly govern the way you work, play, and interact with the world around you - is a major goal of the new AAAS compendium, ELECTRONICS: THE CONTINUING REVOLUTION. It is not necessary to understand the technology of an integrated circuit in detail to be aware that their decreasing costs and growing power are spearheading the continuing revolution. And integrated circuits are only a part of the technology that is shaping the future of science, business, leisure activity - even cooking appliances. ELECTRONICS: THE CONTINUING REVOLUTION explores the past, present, and potential role of electronics in such diverse areas as banking, medicine, communications, education, defense, employment, and more.

Be ready to take full advantage of the electronic advances that are coming your way. Order your copy of ELECTRONICS now.

ELECTRONICS
A Gla nce At The Past - A View Of The Future

Retail: $12.95 Casebound, $4.95 Paperbound.
AAAS Member: $11.95 Casebound, $4.45 Paperbound.
Series and bulk order information upon request.

Books you should know about....

RESEARCH AND DEVELOPMENT IN THE FEDERAL BUDGET: FY 1977
by Willis H. Shapley, for the Committee on Science and Public Policy
Retail $5.50. AAAS member (prepaid) $4.95.

How are decisions really made on federal funds for research and development? What important changes are being implemented in the Congressional budget process, and how will they affect future R & D budgets? How was the 1977 Federal Budget prepared, and what may happen to it? Few scientists and engineers know the answers to these crucial questions, even though the future of their projects, their programs and institutions, and even whole fields of science or technology are heavily influenced by government funding for R & D.

RESEARCH AND DEVELOPMENT IN THE FEDERAL BUDGET: FY 1977 is a report and commentary by an experienced former budget official. It provides current and authoritative treatment of R & D in the federal budgeting process, with important information for scientists, engineers, research institutions, administrators, and students of public policy. In the changing climate of government support for R & D, this book is essential reading!

SCIENTIFIC FREEDOM AND RESPONSIBILITY
by John T. Edsall, for the Committee on Scientific Freedom and Responsibility
Retail $3.45. AAAS member (prepaid) $2.95.

Are you concerned with the present and future uses and misuses of science and technology? If so, be sure to read this report. It studies and reports on the conditions required to give scientists and engineers the freedom and responsibility to speak out. It prescribes criteria and procedures for the objective and impartial study of conflicts concerning scientific freedom and responsible scientific conduct. And it encourages the development of mechanisms for resolving such disputes. This cogent and meaningful report deals frankly with the value questions facing the scientific and technical communities and does not straddle the hard ethical choices.

CULTURE AND POPULATION CHANGE
Retail $3.50. AAAS member (prepaid) $3.00.

This widely read position paper originally was prepared for the World Population Conference held in Bucharest in August 1974. It examines the cultural factors impinging on population matters and points to the need for governments to integrate such factors into their official population policies. The revised edition has been expanded to include a commentary on the World Population Plan of Action formulated at Bucharest. This is an interesting and informative report for everyone concerned with the complex interactions of culture and population policy.

Please send me

____ copy(ies) of Research and Development in the Federal Budget: FY 1977. Retail $5.50; AAAS member, prepaid, $4.95. (1976, 112 pages, paperbound)
____ copy(ies) of Scientific Freedom and Responsibility. Retail $3.45; AAAS member, prepaid, $2.95. (1975, 64 pages, paperbound)
____ copy(ies) of Culture and Population Change. Retail $3.50; AAAS member, prepaid, $3.00. (1975, Revised Edition, 80 pages, paperbound)

Bulk Order Rates Available on Request. Remittance must accompany orders under $5.00.
