low cost data system

Easiest to use: Monitoring Processes, Logging Data, Tracking Tests & Studies

Gather analog or digital data from up to 248 channels—thermocouples, transducers, etc.—print out results, tape them, feed your computer. It's all under your keyboard control with a microprocessor in the proven PD 2064 System. You easily set or change all functions: crystal clock timing, scan intervals, channel signal conditioning, alarms, auto-programming with new multi-program bank and program printout, plus timesaver subroutines like true integration and averaging if you want. We believe it's the most powerful, versatile, and lowest cost standardized way to reduce more data per dollar in industry, lab, or field applications. Some units stocked for quick shipment. Request Bulletin B110 from Esterline Angus Instrument Corporation, P.O. Box 24000, Indianapolis, IN 46224. Tel. 317-244-7611.
