The Bakke Case and the Fourteenth Amendment: C. S. Ralston; Changing Norms: Before and After Kuhn: R. J. Wartman; W. M. Elsasser

Control of Automobile Emissions

Nuclear Waste Disposal: Can the Geologist Guarantee Isolation?: G. de Marsily et al.

Bioactivation as a Model for Drug Design Bioreductive Alkylation: H. W. Moore

The Chinese Wolf, Ancestor of New World Dogs: S. J. Olsen and J. W. Olsen

Death of the B-1: The Events Behind Carter's Decision

Briefing: Press Meets the Press; Science Finally Admitted to Congressional Press Gallery

Peter Bourne: Psychiatrist in the White House

Biochemical Markers: Early Warning Signs of Cancer

Mathematical Games: Are They Bona Fide Research?

Sociobiology Symposium Highlights AAAS Pacific Division Annual Meeting; Call for Nominations; Multistate Speaking Tour Set for Deaf Scientist; AAAS Activities in Hawaii; Science Associations to Convene Desertification Seminar; Winner of Amateur Scientist Contest; AAAS People; 1977-78 AAAS Congressional Science Fellows Selected; Project on the Handicapped Holds Barrier-Free Workshop; Colloquium on Research and Development in the Federal Budget; For the Library

Culture and Practical Reason, reviewed by M. J. Swartz; The Geology of Mars, W. K. Hartmann; Generation of Basaltic Magma, I. D. MacGregor; Books Received

SCIENCE is published weekly, except the last week in December, but with an extra issue on the third Tuesday in September, by the American Association for the Advancement of Science, 1515 Massachusetts Ave., NW, Washington, D.C. 20005. Now combined with The Scientific Monthly. Second-class postage paid at Washington, D.C., and additional entry. Copyright © 1977 by the American Association for the Advancement of Science. Member rates on request. Annual subscriptions $60; foreign postage: Canada $10; other surface $13, air-surface via Amsterdam $30. Single copies $3 (back issues $5) except Guide to Scientific Instruments $6. School year subscriptions: 9 months $45; 10 months $50. Provide 6 weeks notice of change of address, giving new and old addresses and postal codes. Send a recent address label, including your 7-digit account number. Postmaster: Send Form 3579 to Science, 1515 Massachusetts Avenue, NW, Washington, D.C. 20005. Science is indexed in the Reader's Guide to Periodical Literature.
Calcium Carbonate Production of the *Mare Incognitum*, the Upper Windward Reef Slope, at Enewetak Atoll; S. V. Smith and J. T. Harrison ................................................................. 556

Inducibility of Transferrin Receptors on Friend Erythroblastic Cells: H.-Y. Y. Hu et al. ................................................................. 559

Cubanite: A New Sulfide Phase in CI Meteorites: J. D. Macdougall and J. F. Kerridge .................................................................................. 561

Biochemical Identification of Homogenetic Acid Pigment in an Ochronotic Egyptian Mummy: F. F. Stenn et al. ........................................ 566

Mechanically Induced Wall Appositions of Plant Cells Can Prevent Penetration by a Parasitic Fungus: J. R. Aist ........................................... 568

Host Control of Tumor Growth: C. C. Ting, S. C. Tsai, M. J. Rogers ................................................................. 571

Human Chorionic Gonadotropin-Like Substance in Nonendocrine Tissues of Normal Subjects: Y. Yoshimoto, A. R. Wolfson, W. D. Odell ................................................................. 575

Mutagenic Activity of Quercetin and Related Compounds: L. F. Bjeldanes and G. W. Chang ................................................................. 577

Quantitation of Cytoplasmic Tubulin by Radioimmunoassay: J. L. Morgan, L. S. Rodkey, B. S. Spooner ...................................................... 578

Three Hypolipidemic Drugs Increase Hepatic Palmitoyl-Coenzyme A Oxidation in the Rat: P. B. Lazarow ................................................................. 580

One Strand Equivalent of the *Escherichia coli* Genome Is Transcribed: Complexity and Abundance Classes of mRNA: W. E. Hahn, D. E. Pettijohn, J. Van Ness ................................ 582

Kepone-Induced Scoliosis and Its Histological Consequences in Fish: J. A. Couch, J. T. Winstead, L. R. Goodman ................................................................................................. 585

Event-Related Brain Potentials: Comparison Between Children and Adults: E. Courchesne ............................................................................. 589

Two Genes Control Seasonal Isolation in Sibling Species: C. A. Tauber, M. J. Tauber, J. R. Nechols ................................................................. 592

Coevolution of Foraging in *Bombus* and Nectar Dispensing in *Chilopsis*: A Last Dreg Theory: T. G. Whitham ........................................................................................................ 593

Dopamine Receptor Binding Enhancement Accompanies Lesion-Induced Behavioral Supersensitivity: I. Creese, D. R. Burt, S. H. Snyder ................................................................. 596

**COVER**

Wild Mongolian dog (top) and Alaskan Malamute (bottom). Pariah or wild dogs approaching the size, form, and ferocity of the Mongolian dog occur over much of Asia. The Mongolian/Husky/Malamute Eskimo dog group exhibit the strong wolf characteristics of their ancestry. See page 533. [Mongolian dog by Roy Chapman Andrews, courtesy of the American Museum of Natural History; Malamute (Elsa Ayleska) by James Haller].
