Solar Thermal Energy: Bringing the Pieces Together ........................................ 650

BOOK REVIEWS
The Modern Rise of Population, reviewed by E. van de Walle; Evolution and Morphology of the Trilobita, Trilobitoidea and Merostomata, M. E. Taylor; Books Received and Book Order Service ........................................ 652

REPORTS
Volcanic Activity and Great Earthquakes at Convergent Plate Margins: M. J. Carr ................................................................. 655
Catechol Estrogens: Presence in Brain and Endocrine Tissues: S. M. Paul and J. Axelrod ................................................................. 657
Porphyrin Induction: Equivalent Effects of 5αH and 5βH Steroids in Chick Embryo Liver Cells: J. K. Stephens, P. W. F. Fischer, G. S. Marks

Hydrodynamic Evidence in Support of Spacer Regions in Chromatin: K. S. Schmitz and B. Ramsay Shaw

1,25-Dihydroxycholecalciferol and Parathormone: Effects on Isolated Osteoclast-Like and Osteoblast-Like Cells: G. L. Wong, R. A. Luben, D. V. Cohn

Hepatic Binding Protein: The Protective Role of Its Sialic Acid Residues: R. J. Stockert, A. G. Morell, I. H. Scheinberg

Desulfurization of Coal by Use of Chemical Communion: P. H. Howard and R. S. Datta

Structure of a Molluscan Cardioexcitatory Neuropeptide: D. A. Price and M. J. Greenberg

DNA Strand Scission by Benzo[a]pyrene Diol Epoxides: H. B. Gamper et al

Interferon: An Inducer of Macrophage Activation by Polyribonucleotides: R. M. Schultz, J. D. Papamatheakis, M. A. Chirigos

Polymorphism and Geographic Variation in the Feeding Behavior of the Garter Snake Thamnophis elegans: S. J. Arnold

Resource Partitioning in Bumble Bees: The Role of Behavioral Factors: D. H. Morse

Toxicity of Mild Prenatal Carbon Monoxide Exposure: L. D. Fechter and Z. Annau

Developmental Neuroethology: Changes in Escape and Defensive Behavior During Growth of the Lobster: F. Lang et al

Return of Myosin Heads to Thick Filaments After Muscle Contraction: N. Yagi et al

Appetitive and Replacement Naps: EEG and Behavior: F. J. Evans et al

The Spinning Rotation of Ash and Tulip Tree Samaras: C. W. McCutchen

A Developmental Theory of Environmental Enrichment: R. A. Cummins, P. J. Livesey, J. G. M. Evans

Disruption of Sex Pheromone Communication in a Nematode: L. W. Bone and H. H. Shorey

COVER
The collapse of adobe dwellings was the main cause of death and injury following the earthquake in Guatemala, as it has been in other areas of Latin America. Epidemiologic study of the relation between house construction and health effects following earthquakes can provide clues for the prevention of death and injury in areas of the world prone to these natural disasters. See page 638. [Roger I. M. Glass, Center for Disease Control, Atlanta, Georgia 30333]
