CE is published weekly, except the last week in December, by the American Association for the Advancement of Science, 1515 15th Street NW, Washington, D.C. 20005. Now combined with The Scientific Monthly. Second-class postage paid at Washington, D.C., and additional entry. Copyright © 1978 by the American Association for the Advancement of Science. Member rates on request. Annual subscriptions $65; foreign postage: Canada $10; other surcharges $12; air-surface via Amsterdam $30. Single copies $2 by mail (back issues $3) except Guide to Scientific Instruments $6. School year subscriptions: 9 months $50; 10 months $55. Provide 6 weeks notice for change of address, giving new and old addresses and postal codes. Send a recent address label, including your 7-digit account number. Postmaster: Send Form 3579 to Science, 1515 Massachusetts Avenue, NW, Washington, D.C. 20005, as indexed in two general periodicals—Readers' Guide to Periodical Literature and Monthly Cumulating Periodical Index—and in several specialized indexes.
REPORTS

Δ⁶-Tetrahydrocannabinol and 17β-Estradiol Bind to Different Macromolecules in Estrogen Target Tissues: A. B. Okey and G. F. Bondy .......... 312

Activity Patterns of Human Skeletal Muscles: Relation to Muscle Fiber Type Composition: A. W. Monster, H. C. Chan, D. O’Connor .......... 314

Photocontrol of Boron Metabolism in Sea Grasses: W. M. Pulich, Jr. .......... 319

Rejection of Male Skin Grafts by Splenectomized Female Mice: T. A. Coons and E. H. Goldberg .......... 320

Aflatoxicol: Major Aflatoxin B, Metabolite in Rat Plasma: Z. A. Wong and D. P. H. Hsieh .......... 325

Hv(1), a Variable-Region Genetic Marker of Human Immunoglobulin Heavy Chains: A. C. Wang et al. .......... 327

Psychophysical Functions for Perceived and Remembered Size: R. S. Moyer et al. .......... 330

Different Brain Areas Mediate the Analgesic and Epileptic Properties of Enkephalin: H. Frenk, B. C. McCarty, J. C. Liebeskind .......... 335

Neurotrophic Protein Regulates Muscle Acetylcholinesterase in Culture: T. H. Oh and G. J. Markelonis .......... 337

Immunoreactive Vasopressin and Oxytocin: Concentration in Individual Human Hypothalamic Nuclei: J. M. George .......... 342

COVER

Pacific electric ray (Torpedo californica) swallowing a small reef fish at night off Santa Barbara, California. After prey are immobilized by electric discharges, they are moved to the mouth with the ray’s pectoral fins (shown folded in toward the trunk). The ray is 750 millimeters in length. See page 333. [Richard N. Bray, Marine Science Institute, University of California, Santa Barbara]
