SCIENCE is published weekly, except the last week in December, but with an extra issue on the third Tuesday in September, by the American Association for the Advancement of Science, 1515 Massachusetts Ave., NW, Washington, D.C. 20005. Now combined with *The Scientific Monthly*. Second-class postage paid at Washington, D.C., and additional entry. Copyright © 1978 by the American Association for the Advancement of Science. Member rates on request. Annual subscriptions \$65; foreign postage: Canada \$10; other surface \$13; air-surface via Amsterdam \$30. Single copies \$1.50; \$2 by mail (back issues \$3) except *Guide to Scientific Instruments* \$6. School year subscriptions: 9 months \$50; 10 months \$55. Provide 6 weeks' notice for change of address, giving new and old addresses and postal codes. Send a recent address label, including your 7-digit account number. Postmaster: Send Form 3579 to Science, 1515 Massachusetts Avenue, NW, Washington, D.C. 20005. Science is indexed in the *Reader's Guide to Periodical Literature* and in several specialized indexes.

COVER

(Top) A map of the European gene frequencies of eight alleles of the HLA-A and fifteen of the HLA-B gene synthesized by a trichromic superposition of their first three components. (Bottom) The ABO, Rh, MNS, Lewis, Duffy, Hp, and PGM₁ genes were included. These maps support the idea that farmers spread from the Near East in Neolithic times. See page 786. [P. Menozzi *et al.*, University of Parma, Parma, Italy]

The American Association for the Advancement of Science was founded in 1848 and incorporated in 1874. Its objects are to promote the work of scientists, to facilitate cooperation among them, to foster scientific freedom and responsibility, to promote the effectiveness of science in the promotion of human welfare, and to increase public understanding and appreciation of the importance and promise of the methods of science in human progress.
