**POSITIONS WANTED**

**Toxicologist, Ph.D.** Experienced in safety evaluation, obtaining regulatory agency approval of food additives, pharmaceuticals, cosmetics. Member SOT. Desires position involving product safety evaluation and regulatory agency interface. Box 44, SCIENCE.

**POSITIONS OPEN**

A position at the level of ASSISTANT PROFESSOR is available in the Department of Microbiology and Immunology at the University of California, Berkeley. Applicants must have expertise in the chemical analysis of protein and protein-nucleic acid interactions. Research space will be provided but the successful applicant must provide his/her own salary and research funds from non-university sources and should be familiar with established research unit devoted to research on retroviruses. Qualified applicants should send curriculum vitae, reprint of published work, and letters of recommendation before 1 March 1979 to: Dr. J. Michael Bishop, Department of Microbiology and Immunology, University of California, Box 4469, San Francisco, California 94143. An Affirmative Action/Equal Opportunity Employer.

**Yale University School of Medicine**

Section of Neuroanatomy

One ASSISTANT PROFESSOR position available. Candidate should have experience in research on morphological and functional development of the mammalian central nervous system. Must be capable in teaching medical neuroanatomy and graduate developmental neurobiology. Submit resume and references to: Dr. Pas- ko Rakic, Chairman, Section of Neuroanatomy, Yale University School of Medicine, 333 Cedar Street, New Haven, Conn. 06510. Yale University is an Equal Opportunity/Equal Opportunity Employer. Qualified women and minority group members are encouraged to apply.

**Harvard School of Public Health**

Assistant Professor of Industrial Medicine and Environmental Engineering

Applications invited for the position of assistant or associate professor (dependent on qualifications) of industrial hygiene engineering. The position requires a doctorate in industrial hygiene or a closely related field, with a background in engineering and public health. Professional practice as an industrial hygienist plus teaching and research practice are required. Candidates should be open to industrial hygiene. Board of Industrial Hygiene will have preference. Responsibility involves teaching in an interdisciplinary curriculum and providing industrial hygiene research activities in the engineering aspects of occupational health. Excellent opportunities for initiating new research programs of specific interest to the successful applicants. Application to begin at earliest possible date but no later than 3 September 1979.

Applications are invited for a tenure-track position as an Assistant Professor in the University of Texas with an Equal Opportunity Employer. Qualified women and minority group members are encouraged to apply.

Send curriculum vitae, bibliography, research interests, and three references to:

Professor Melvin W. First

Department of Environmental Health Sciences
Harvard School of Public Health
665 Huntington Avenue
Boston, Massachusetts 02115

**ASSISTANT OR ASSOCIATE PROFESSOR OF PHYSIOLOGY**

Applications are invited for a tenure-track position in the Department of Physiology and Biophysics of the University of Texas Health Science Center at Houston (UTCHS). Candidates should have a doctoral degree and postdoctoral training. Emphasis is on research relating to the physiological role of systems in respiratory, circulatory, and renal systems. Experience in teaching or research background in the role of the central nervous system in the control of cardiovascular function or water balance is desirable. Applications will be accepted until positions are filled. Qualified candidates will be given an equal opportunity regardless of sex, race, color, ancestry, national origin, religion, age, handicap, marital status, or sexual orientation. Applications should include a resume, a statement of research interests, and the names of three references to: Dr. Leonard Sharpe, Chairman, Department of Physiology and Biophysics, UTCHS, Memphis, Tenn. 38163. Equal Opportunity/Equal Action Employer.

**POSITIONS OPEN**

**ASSISTANT PROFESSOR—ANATOMY**

Applications are invited for a tenure-track faculty position in the Department of Biological Sciences at the University of Mississippi. Candidates must have a Ph.D. and preferably one or more years of postdoctoral experience. Responsibilities include teaching histology and anatomy for nursing students and an advanced course in the area of the individual’s interest, conducting research, and maintenance of an active research program is essential for advancement. Applications should send curriculum vitae, statements of research and teaching interests, and three letters of recommendation by 15 March 1979 to: Dr. Charles B. Lindemans, Search Committee Chairman, Department of Biological Sciences, University of Mississippi, University, Mississippi 38677.

An Affirmative Action Employer

**ASSISTANT PROFESSOR OF ATMOSPHERIC SCIENCE**

The Laboratory for Planetary Atmospheres Research (LPAR), State University of New York (SUNY) at Stony Brook seeks a Ph.D. atmospheric scientist for an anticipated new position at the assistant professor level now pending final review and approval. Applications should be received by 1 March 1979. LPAR members are involved primarily in comparative studies of planetary atmospheres, climate, and radiative processes, and air pollution. In general, basic research is involved in atmospheric and space science, and exceptional promise as a teacher at both graduate and undergraduate levels Curriculum vitae, publications, summary of research interests, and three letters of recommendation should be sent by 15 March 1979 to: Professor John W.书记, Department of Engineering and Applied Science, SUNY at Stony Brook, Long Island, N.Y. 11794. Equal Opportunity Affirmative Action Employer.

The University of Texas at Dallas

The Biology Program has an opening at the ASSIST- ANT PROFESSOR level. Applicants should be actively engaged in research on eukaryotic molecular biology, have at least 2 years of postdoctoral experience, and show evidence of independent, signifi- cant, and productive research. The University has an upper level undergraduate degree program in biology and a graduate (M.S., Ph.D.) program in biology (with an emphasis on molecular biology), and is developing an undergraduate curriculum. The department is located on a campus of over 200 acres, is closely involved in the support of basic research, and is involved with a research program supported by a number of federal research grants. The current faculty research lies mainly in the area of protein and nucleic acid function. The successful candidate would be expected to help extend this experience into the eukaryotic field of formal courses, research, and publications and to develop an independent research program. Send résumé to:

Academic Search #206
The University of Texas at Dallas
P.O. Box 683
Richardson, Texas 75080

Deadline for applications: 31 March 1979. Indication of sex and ethnic minority status is requested.

The University of California International Center for Medical Research (UC ICMR) anticipates the following positions will be available in Kuala Lumpur, Malaysia, on or about 1 July 1979 for a period of 1 to 2 years:

(i) ASSISTANT RESEARCH INVESTIGATOR with experience in molecular biology
(ii) ASSOCIATE RESEARCH INVESTIGATOR with significant background in tropical arbovirus epide- miology. Positions are dependent on the availability of funding. Inquiries to: Program Director, UC ICMR, 1699 ESW, University of California, San Francisco, Calif. 94143. The University of California is an Affirmative Action/Equal Opportunity Employer. Women and minorities are encouraged to apply.

**BIOCHEMIST. Research associate IV position for an individual with 2 to 4 years of postdoctoral experi- ence in studies of protein chemistry. Duties: to su- pervise and conduct research involving protein synthesis related to differentiation and development, and (ii) studies of structural proteins associated with an autoradiographic autoradiographic autoradiographic system. Salary: $16,000 plus. Send résumé and names of three references to: Dr. R. R. Major, Con- nector Tissue Research Laboratories, New York State College of Veterinary Medicine, Cornell Univer- sity, Ithaca, N.Y. 14853. An Affirmative Action/ Equal Opportunity Employer.
