ANNOUNCING THE WORLD'S MOST VERSATILE LARGE CAPACITY HORIZONTAL ELECTROFOCUSING CELL.

The applications listed below barely do justice to the variety of separations that can be performed with Bio-Rad's new Model 1415 Cell. Note that it has an extra large 125 x 430 mm cooling platform. Another unique feature: a condensation coil in the lid that keeps moisture off the gel. So versatile is the Model 1415 that it very well could be the only cell of its type that you'll need for a long, long time.

Analytical Electrofocusing in Thin Layer Gels. Focus up to 40 protein samples across the platform using two 125 x 200 mm glass plates and two pairs of 200 mm electrofocusing electrodes. Or use 110 mm electrodes to run samples lengthwise up to 40 cm.

Preparative Electrofocusing in Granulated Bed. Use the Model 1415 Cell to produce sharp separation of up to several hundred milligrams of protein by preparative electrofocusing lengthwise in 110 x 300 mm tray.

Immuno-electrophoresis. The extra large cooling platform of the Model 1415 Cell allows you to run four 100 x 100 mm glass plates (or larger numbers of smaller plates) simultaneously under identical conditions. Excellent for 2-D, "rocket" or Grabar-Williams immunoelectrophoresis and counterimmuno-electrophoresis.

DNA Separation in Thick Agarose Gels. Rapid preparative separation of nucleic acid strands can be accomplished with the Model 1415 equipped with one to four 105 mm wide by 200 mm long agarose bridges running across the platform.

Zone Electrophoresis. Up to 30 samples can be analyzed by agarose zone electrophoresis in the Model 1415 Cell. Bulletin 1065 gives complete details. For your free copy, call, write or circle the reader service number.
for tax-deferred annuity programs

Supplemental Retirement Annuities (SRA's) are new forms of TIAA and CREF contracts designed expressly for use by persons who want to set aside tax-deferred retirement funds over and above amounts being accumulated under their institution's basic retirement plan. They are available for employees of colleges, universities, private schools and certain other nonprofit educational organizations with tax-deferred annuity (salary-or-annuity option) programs. Through a properly drawn agreement with their institution, staff members may divert part of their compensation before taxes to the purchase of these new contracts.

And SRA's are cashable at any time. This means that if the money accumulated by salary reduction is needed before retirement, the SRA contracts can be surrendered for their cash value. Benefits, whether payable in cash or as income, are taxable as ordinary income when received.

For more information and answers to questions send for your copy of the booklet on Supplemental Retirement Annuities.

Send me a booklet describing TIAA-CREF Supplemental Retirement Annuities.

The best Tektronix hard copy is from Versatec.

Versatec shows you a better hard copy.
- Bigger.
- Easier to read.
- Permanent.
  (No silver paper fade-out.)
- And it costs less.

Multiple terminals
One Versatec printer/plotter with hard copy controller serves up to four terminals. Add a second controller for hard copy from up to eight terminals. And, yes, with Versatec you can mix terminal types on the same system.

Three-way output
Versatec does more than make hard copies. It can print on-line from your computer at 1000 132-column lines per minute and plot up to six pages per minute.

Why get stuck with a single-purpose hard copy device? You can use our quiet, reliable printer/plotter for listings, data recording, graphics and other computer-related jobs.

Compare
Don't take our word for it. Take our pictures. Write for the "Hard Copy Comparison Kit." You'll see the difference.
- Bigger 10.5" x 14.4" image size.
- Double the resolution quality.
- Accepts pen or pencil notation.
- Archival quality. Won't fade in sunlight.
- Less than 3¢ a copy.

Circle No. 82 on Readers' Service Card
Revco® has made quite a name for itself in a lot of foreign languages.

In fact, you'll find our products in some of the most remote corners of the earth. (At last count people were relying on Revco in 143 countries.) All because of our very sophisticated sales and service network.

Naturally any product demands routine service. We just want to make sure that when your Revco freezer needs servicing, it gets it from somebody who routinely services Revco products.

This is why the same Revco product performance developed in the United States works equally as well in Spain, Japan or South America.

So if you're in the market for a product and service that's good enough to travel abroad, imagine how good Revco products and services are right here at home.

**WHY WE'RE NUMBER ONE.**

You'll be surprised to learn that our product line is our only product line. It's not a side line.

Next, take where we build our products. Every space-saving Revco product is made in one of the world's few plants designed exclusively for the manufacture of ULTRA-Low® temperature equipment.

Take the way we build the Revco line. Each product is engineered for maximum efficiency and lower operating costs.

Take all this into consideration and we're sure you'll insist on Revco.

**FREE, THE REVCO PEN THAT WRITES IN 143 LANGUAGES.**

Take pen in hand and order the Revco catalog showing the complete line of Revco freezers. When you do, we'll send the Revco pen that writes on most any surface. And in 143 languages.

**REVCO®** The world's leader in ULTRA-Low® temperature equipment.
