ANATOMY FACULTY POSITION. Assistant or beginning associate professor with established research program and postdoctoral experience in developmental and instrumental neuroanatomical and pleural position includes participation in comprehensive embryology and microscopic anatomy course for medical students and add space courses designed for graduate students. Send resume and three letters of evaluation to: Dr. Douglas E. Kelly, Professor and Chairman, School of Medicine, University of Southern California School of Medicine, 2825 Zonal Avenue, Los Angeles, Calif. 90033. Applications from qualified applicants are especially welcome. University of Southern California is an Affirmative Action Employer.

Animal Physiology—The Hope College Biology Department will have an opening in animal physiology beginning fall 1979. Applicants should have a strong background in biology education and plan to maintain an active research program that will involve undergraduates. Teaching responsibilities include mammalian physiology, a second course in physiology, air pollution, alimentary, and part of the introductory course. Hope is a liberal arts college affiliated with the Reformed Church in America. Qualified applicants should have a resumed, transcripts, A statement of teaching competencies and interests, an outline of proposed research, and a recommendation forwarded as soon as possible to: Search Committee, Department of Biology, Hope College, Holland, Michigan 49423. An Equal Opportunity Employer.

Animal Virologist. (Search reopened.) Assistant/associate professor, available August 1979. Two years of postdoctoral experience required. Conduct active research program in area of modern animal virology and participate in the teaching program at the undergraduate and graduate level. Salary competitive and commensurate with experience. Send curriculum vitae and references by 15 July to: Dr. Gary L. Smith, School of Life Sciences, The University of Nebraska-Lincoln, Lincoln, Nebraska 68588. An Affirmative Action/Equal Opportunity Employer.

Assistant Professor. Applications are invited for a faculty position in atmospheric science. An individual with knowledge in one or more of the following areas is required: modern meteorological instrumentation, atmospheric pollution, interaction with the earth sciences, and experimental meteorology, and field experiment design. Duties include undergraduate and graduate teaching in atmospheric science, development of a vigorous research program, advising graduate and undergraduate students, and directing students in Ph.D. and master's thesis research. Interested persons should send curriculum vitae and names of three references to: F. L. Hartmann, Oceanic Science Division, Space Physics Research Laboratory, University of Michigan, Ann Arbor, Michigan 48109. A non-discriminatory, Affirmative Action Employer.

Assistant Professor to teach microbiology, physiology, and general biology. Ph.D. must be committed to quality undergraduate education and be willing, curriculum development in projects in immunology, tissue culture, and/or computer simulation. Send letter stating career goals and teaching philosophy to: John R. Jungck, Chairman, Department of Biology, Beloit College, Beloit, Wisconsin 53511. An Equal Opportunity/Tithe IX Employer, M/F.

Temporary Biology Position beginning August 1979. Laboratory instructor in introductory biology and other undergraduate courses as assigned. Should have audio-visual and computer experience. Must be familiar with the use of power-generation and waste disposal, modeling of biochemical processes, and interdisciplinary field experiment design. Seeks research-teaching position in university/industrial-government situation. Box 155, SCIENCE.

Positions Open

Assistant Professors of Biology and Microbiology

The T. H. Morgan School of Biological Sciences of the University of Kentucky invites applications from qualified persons in the area of microbiology. Qualifications: Ph.D., postdoctoral experience, a strong commitment to development of an active research program (area of interest open); competency in teaching courses at the undergraduate and graduate level, in general microbiology, and graduate level in area of interest. Send curriculum vitae, a brief description of research, and research papers to: one of at least three references to: Search Committee, Director's Office, School of Biological Sciences, University of Kentucky, Lexington, Kentucky 40506. Deadline for receipt of applications is 4 weeks from date of appearance of this notice. An Equal Opportunity/ Affirmative Action Employer.

Visiting Assistant Professor of Physics

The University of Kansas invites applications for the 1-year position of visiting assistant professor of physics and astronomy. Duties will consist of teaching physics or astronomy at the elementary (freshmen, sophomore) level and working with the faculty and students in one of the research areas, experimental high energy physics, condensed matter physics, space plasma physics, and/or experimental astrophysics. A Ph.D. degree in physics (experimental high energy physics and/or current research interest in condensed matter physics, space plasma physics, and/or experimental astrophysics) is required. Research and experience in areas which would lead to productive interaction with the faculty who work in high energy experimental physics (some preference for experience with electron and/or positron physics) and/or experimental astrophysics will be preferred. Salary depends upon appointee's qualifications and experience. Send professional summary and three letters of reference to: Professor J. F. Davidson, Chairman, Department of Physics and Astronomy, University of Kansas, Lawrence, Kansas 66045. All applications received by 13 July 1979 will be considered. Late applications will be considered if the position is still unfilled. The University of Kansas is an Equal Opportunity Employer. Women and minorities are encouraged to apply.

Associate Director Agricultural Experiment Station

The Maine Agricultural Experiment Station has created a new position for an associate director, effective 1 September 1979. This is a 12-month appointment, with long-range planning and project supervision for all agricultural research. Applicants must have an earned doctorate from an agricultural science related field, a long-term established research record, and should be familiar with the land-grant system and have a research station administration. Presentation of a creative and imaginative program for the agricultural experiment station is highly desirable. Salary is competitive and flexible. Submit a resume and three letters of recommendation to: Dr. Norman Smith, Chairman, The Screening Committee, 105 Winslow Hall, University of Maine at Orono, Orono, Maine 04469. Telephone: 207-581-7161.

Biology, Ph.D.

With well-developed interests in neurobiology and animal behavior for an assistant professor starting 1 September 1979. Send curriculum vitae and three letters of recommendation to: Dr. Miriam Bennett, Department of Biology, Colby College, Waterville, Maine 04901. An Equal Opportunity/Affirmative Action Employer.

A biology is required to teach microbiology and genetics undergraduate biology majors. The position is at the assistant professor level and is in a tenure-track. Although teaching is the primary concern at Canisius, facilities for research are available. Salary and rank competitive. A Ph.D. is expected. Canisius is a liberal arts college in the Jesuit tradition. Address applications with full curriculum vitae and arrange for three letters of recommendation to be sent to: Vincent P. Stouffer, Ph.D., Acting Chairman, Department of Biology, Canisius College, Buffalo, New York 14208. Applications must be received by 31 May 1979. Canisius College is an Affirmative Action/Equal Opportunity Employer.
