Inhibitory, GABAergic Nerve Terminals Decrease at Sites of Focal Epilepsy: C. E. Ribak et al. .................................................. 211

Products and Materials

Microcomputer and Software; Event Recorder; Ultraviolet Illuminator for DNA Research; Media for Agarose Isoelectrofocusing; Differential Blood Cell Counter; Triiodothyronine-Uptake Kit; Flow Cytometer; Literature .................................................. 222

Cover

The "Sea Hag," an 1800-pound monster sighted in the Gulf of Georgia, British Columbia. Sightings of sea and lake monsters have been reported from ancient times to the present and have been the subject of some serious research. See page 183. [Redrawn by Stephen Shepherd, Silver Spring, Maryland, from original print; courtesy of the Provincial Archives of British Columbia]
