Zeiss sterilos highly resolve to give you...

...finest image quality
Zeiss stereomicroscopes give you the highest resolution that stereomicroscopy can achieve. You get a truly flat field with no distortion, no globe effect. All Zeiss stereomicroscopes have separate light paths for each eye, rather than just one objective as in most others. You get the finest image quality, the finest detail, in both transmitted and incident light.

...greatest convenience
Every Zeiss stereomicroscope offers convenience unmatched in its class. The DRC Camera Stereomicroscope and the economically priced DR allow you to mount two objectives at once, so that, at the touch of a finger, you can go from low to high power without losing focus. The 1:4 zoom system of the DV4 covers a magnification range of 2.5-200X. Nationwide service.

With a Brinkmann Homogenizer, you can homogenize samples under 1 ml

...homogenize anaerobically

...and without cross contamination.

When it comes to breaking down and homogenizing virtually any type of tissue, small organs, bones, muscle, cartilage, or even an entire mouse, the Brinkmann Homogenizer is in a class by itself.

Consider its power. A 600W motor develops up to 30,000 rpm (1200W on PT-45 model, with up to 20,000 rpm) to assure complete homogenization of most samples within 30 to 60 seconds (other instruments may require 15 minutes or more).

Consider the wide choice of generators, all made entirely of stainless steel. It includes a Microprobe Generator small enough to fit into a standard cuvette (for samples as small as 1 ml or less), Anaerobic Generators for aerosol-free homogenization, a Mechanical Seal Generator to minimize contamination and cleaning problems, even an in-line bench-top unit that homogenizes without admitting air.

Consider its unique method of tissue destruction, a combination of ultrasonic energy and mechanical shearing action, based on the Willems High Frequency Principle. Consider the optional electronic speed control unit, with its sensor that continually monitors the actual speed and keeps it constant, regardless of load.

From any standpoint, nothing compares with a Brinkmann Homogenizer. For literature, write Brinkmann Instruments, Inc., Subsidiary of Sybron Corporation, Cantiague Road, Westbury, N.Y. 11590 or call toll-free 800/645-3050. In Canada: Brinkmann Instruments (Canada), Ltd.

Brinkmann Homogenizers
From tissue to homogenate in 30 seconds!

The Metrohm pH Stat Titrator.

It gives you self-refilling burets, a removable digital pH Meter, quick-release titration vessels, finger tip setting of stat point or end point, and a multirange recorder, all in the same pH stat titrating system.

Our catalog illustrates ten different systems incorporating Metrohm pH Stat Titrators, and a wide selection of available accessories. For your copy, please write: Metrohm Division, Brinkmann Instruments, Inc., Cantiague Road, Westbury, N.Y. 11590. In Canada: Brinkmann Instruments (Canada), Ltd.
Announcing:

**VIRAL HEPATITIS** Etiology, Epidemiology, Pathogenesis and Prevention
G. Vyas, S. Cohen, and R. Schmid, editors
A case-bound book covering the proceedings of a major worldwide symposium held in March 1978 and sponsored by the University of California. The proceedings include 32 comprehensive reviews, 25 discussions, four panel discussions, and 12 workshop summaries, bringing up to date all research on viral hepatitis and creating plans for future cooperative studies.
LC#78-00882, 748 pp., October 1978. $64.50

**PROBLEM SOLVING AND COMPREHENSION** A Short Course in Analytical Reasoning
Arthur Whimby and Jack Lochhead
A textbook for high school and college students, psychologists, and teachers demonstrating the art of thinking clearly. There are many example problems and solutions that show how the experts solve problems.
LC#78-22121, 258 pp., 1979. $8.50

**PROBLEM SOLVING**
Monthly newsletter devoted to problem solving research and instruction in university and industry. Problem Solving provides an overview of the issues and a forum for ideas in problem solving; as well as information on vital contacts and sources of information in this important new field. The editorial board includes Goery Delacote of the University of Paris, Jill Larkin of Carnegie-Mellon University, Leslie Fox of Oxford University Computing Laboratory, and Robert Karplus of the University of California, Berkeley, among others.
June/May $18.00

**NUTRITION AND CANCER, An International Journal**
Gio B. Gori, PhD, Editor Lon Crosby, PhD, Assistant Editor
An international and multidisciplinary journal that covers the etiology, prevention, and therapy of cancer as related to diet and nutrition. Aspects include clinical and experimental research in nutrition, carcinogenesis, epidemiology, anthropology, toxicology/pharmacology, biochemistry/metabolism, food production, and prevention. Quarterly.
Vol II (1979-1980): $60.00, U.S., $72.00, Foreign

**BULLETIN OF MAGNETIC RESONANCE**
The Quarterly Review Journal of the International Society of Magnetic Resonance
J. Howard Bradbury, editor
Contains reviews on the theory and practice of nuclear magnetic resonance, electron paramagnetic resonance, and nuclear quadrupole resonance spectroscopy including applications in physics, chemistry, biology, and medicine. Quarterly.
$18.00, members; $35.00, nonmembers; $50.00, libraries.

**Announcing:**

**NUTRITION IN HEALTH AND DISEASE**
Diversified journal dealing with clinical nutrition, preventive medicine, and the results of laboratory research in these and other topics relating to nutrition. A primary journal, it is peer reviewed. To begin in 1980. Price not yet set.

**INNOVATION AND THE AMERICAN ECONOMY**
The Fourth Franklin Conference
The Fourth Franklin Conference will examine the state of innovation in America, the relationship of innovation to the economy, and action that the corporate sector and government can take to foster innovation. To be held November 29, 30, 1979. To be published in 1980. $8.95.

**EXERCISE AND SPORT SCIENCES REVIEW, Volume 7**
Robert S. Hutton and Doris I. Miller, editors.
Annual publication of the American College of Sports Medicine, in which reviews of research concerning physiological, biomechanical, behavioral, and kinesiological aspects of movement behavior and human performance appear. Topics in Volume 7 will include Localized Muscular Fatigue: Role of Muscle Metabolism and Substrate Depletion, Biomechanics of Overarm Throwing Movements and of Throwing Injuries, and Physiology of Swimming Man. To be published early in 1980. $25.00.
Animal Temperature Control with no mess

for maintaining body temperature under anesthesia... rectal probe senses temperature... analog temperature display... low voltage DC output to blanket < 10mV ripple... blankets washable, 3 sizes. Call or write us for more information.

multi-mode! the 100% solid state automatic CO2 incubators with built-in reliability

10 cu. ft. Tabletop Model 351920*

The first and only, all-solid-state control system ever developed for incubators.

Outstanding features of Hotpack Model 351920
• constant digital display of ALL conditions
• direct dial set points
• choice of 20 to 60°C, or 5 above ambient to 6°C models
• automatic two-stage 0 to 20% CO2 control
• fully proportional RH with ±0.1% resolution
• electronically timed self-decontamination
• up to 87.5 sq. ft. of usable load area

HOTPACK CORPORATION (215) 624-1700 WATS 800-523-3608
10940 DUTTON RD. PHILADELPHIA, PA 19154

As easy as 1·2·5

If you've been wishing you could get rid of the inconvenience and difficulties of iodinating proteins, here is an easy way to do it. Get our simple, reliable Radioiodination System [125I] — everything you need, ready for your protein.

We've selected a mild reaction method (enzymatic lactoperoxidase) to preserve your protein specificity. We've made sure that there are no contaminants to interfere with proper iodination. And we've tested each lot in a complete iodination procedure.

The ingredients are: Sodium iodide [125I], iodination reagent, sodium phosphate buffer, 1% β-D-glucose to activate the system, and a volatile radioiodine trap.

This system is the new way to make iodination straightforward and reliable. Send for the protocol to start saving time and trouble.

Not for use in humans or clinical diagnosis.
