EM-109: the specimen saver.

New design keeps high performance (3.44Å) with 3 unique systems.

1. Unique camera system, totally outside the vacuum—the TFP Trans-Fiberoptic-Photographic System. Changing film is like reloading your own camera.

2. Unique automatic focusing system for maximum specimen protection—the MDF Micro-Dose-Focusing System. Focusing has never been so easy, so automatic, so specimen-saving.

TFP, MDF, IGP—a lot of letters, but they spell “Specimen Saver,” the new EM-109 Electron Microscope from Zeiss.

Call or write today for the detailed catalog that explains these unique systems in full.

Nationwide Service

"VAX simply ran over the competition. In cost/productivity ratios, nothing even came close."
Lou Crain, Mgr. of Software Products
Prototype Development Associates
Santa Ana, California

PDA is an employee-owned engineering concern whose business ranges from fundamental research in structural analysis to the manufacture of critical aerospace components.

The VAX-11/780 is PDA's first in-house computer. Lou Crain, Manager of Software Products, tells us, "We've been doing all our computing through utilities using CDC 6600, Cyber 74 and Univac 1108 mainframes. The key elements in our decision to acquire the VAX-11/780 were cost and capability — compared to service bureaus, mainframes and competitive minis."

From the standpoint of capability, PDA considered traditional superminis like the Data General Eclipse and the Prime 400 and 500 series, plus a used 1108 mainframe. Lou Crain says, "Our benchmark showed VAX to be very powerful against the competition — up to a 2:1 performance advantage over both the Eclipse and the 1108."

"After installation," Crain concludes, "VAX has lived up to our expectations and has performed impressively. It's resulted in better products for our customers, as well as improved cost-effectiveness. Having our own interactive capability in-house has meant an increase in engineering productivity of up to 300%.”

"VAX turns out to be twice the machine for the same amount of money."

Roger Vossler,
Section Manager and Systems Engineer
TRW Defense and Space Systems Group
Redondo Beach, California

Sensor data processing and distributed processing systems in support of real-time embedded applications are among the specialties of TRW's Defense and Space Systems Group.
GORDON RESEARCH CONFERENCES
"FRONTIERS OF SCIENCE"
APPLICATION
Please complete this application and mail (in duplicate) to the Director.
DO NOT SEND DEPOSIT WITH THIS APPLICATION

Conference on ___________________________ (Name of Conference — Please Print) Date: ________________

Name: ___________________________ (Please Print) Location ___________________________
Organization: ___________________________

Business Address: ___________________________ (inc. dept., street & no.) Accommodations
City and State: ___________________________ Zip Code (Room & Meals) For:

Applicant ____________ Spouse ____________ Child(ren) ____________ Total ____________

IMPORTANT
Indicate your particular activities which justify favorable consideration of you as a participant in and contributor to this Conference. (Not required of speakers.) Applications are referred to the Conference Committee for review in accordance with the established regulations, and this information is essential.

FIXED CONFERENCE FEES - WINTER 1980
California

* Resident Fee: $215 includes $50 registration, room, and meals.
Guest: $165 for room, meals.
Deposit: $30 is required of all participants and guests.

1. Full fixed fee charged regardless of time conferee attends Conference. Please note detail of fees.
2. *Fixed fees cannot be prorated or reduced for anyone (speakers, discussion leaders, conferees).
3. Non-resident Conferees are expected to eat all meals in the Conference Dining Room and, therefore, the Fixed Fee for non-residents includes the full meal charge.

Please return to:
Dr. Alexander M. Cruickshank, Director
Gordon Research Conferences
Pastore Chemical Laboratory
University of Rhode Island
Kingston, Rhode Island 02881 Tel: (401) 783-4011

The recording of lectures by tapes, etc. and the photography of slide material are prohibited. Printed reference to Gordon Research Conference papers and discussion is not permitted. Authors are requested to omit references to the Conference in any publication. Guests are not permitted to attend the conference lectures and discussion sessions. Each member of the Conference agrees to these regulations when registration is accepted.
