Rotary Vacuum Evaporator; Infrared Spectrophotometer; Optical Scanner–
Data Processor; Peristaltic Pump; Water Purification System; Literature .......................................................... 628

COVER
Photomicrograph of motoneurons in the anterior horn of the spinal cord after injection of horseradish peroxidase into the peroneal muscles. Some of the neurons have been labeled, and others have not. Tetramethyl benzidine procedure with neutral red counterstain (about ×170). See page 603. [T. M. Brushart and M.-M. Mesulam, Beth Israel Hospital, Boston, Massachusetts]
