BOOK REVIEWS

Asteroids, reviewed by J. E. Guest; Conservation Biology, F. C. James; Genetic Models of Sexual Selection, R. Lande; Membrane Transduction Mechanisms, R. M. Macnab; Books Received .......................................................... 267

REPORTS

Influence of a Phase Transition of Ice on the Heat and Mass Balance of Comets: J. Klinger .......................................................... 271
Oscillatory Zoning in Plagioclase Feldspar: C. S. Haase et al. ............. 272
Saturn’s E Ring Revisited: W. A. Feibelman and D. A. Klingleysmith III .......................................................... 277
Patterning and Assembly of Ciliature Are Independent Processes in Hypotrich Ciliates: G. W. Grimes et al. .......................................................... 281
Prolongation of Islet Xenograft Survival Without Continuous Immunosuppression: P. E. Lacy, J. M. Davie, E. H. Finke ......................... 283
Mammoth Albumin: E. M. Prager et al. .......................................................... 287
Genes for Growth Hormone, Chorionic Somatomammatropin, and Growth Hormone-Like Gene on Chromosome 17 in Humans: D. Overbach et al. .......................................................... 289
Strain Dependence of the Antiproliferative Action of Interferon on Murine Erythroid Precursors: O. Gallien-Lartigue et al. .......................................................... 292
Mutations in a Nonessential Viral Gene Permit Bacteriophage T4 to Form Plaques on Escherichia coli varS' relA: G. L. Marchin .......................................................... 294
Myocardiac Infarct Imaging of Antibodies to Canine Cardiac Myosin with Indium-111-Diethylenetriamine Pentaacetic Acid: B. A. Khaw et al. .......................................................... 295
Mitochondrial DNA Is a Major Cellular Target for a Dihydrodiol-Epoxide Derivative of Benzo[a]pyrene: J. M. Backer and J. B. Weinstein .......................................................... 297
Specific Locus Mutations Induced in Somatic Cells of Rats by Orally and Parenterally Administered Procarbazine: P. Maier and G. Zbinden .......................................................... 299
Age-Related Changes in Passive Avoidance Retention: Modulation with Dietary Choline: R. T. Bartus et al. .......................................................... 301
Tritiated Imipramine Binding Sites Are Decreased in Platelets of Untreated Depressed Patients: M. S. Briley et al. .......................................................... 303
Long-Lasting Depletion of Striatal Dopamine by a Single Injection of Amphetamine in Iprindole-Treated Rats: R. W. Fuller and S. Hemrick-Luecke .......................................................... 305
Ethanol: Novel End Product of Vertebrate Anaerobic Metabolism: E. A. Shoubridge and P. W. Hochachka .......................................................... 308

GOVERN

London Fever Hospital, mid-1800's. The disappearance of fever hospitals in developed countries is but one of the changes brought about by the development of antimicrobial drugs. See page 240. [National Library of Medicine, Bethesda, Maryland]
