BOOK REVIEWS

The Languages of Native America, reviewed by W. Bright; Genetic Recombination, J. R. S. Fincham; The Fossil Hunters, H. P. Banks; Monoclonal Antibodies, M. Gefter; Books Received ................................................. 315

REPORTS

Carbon Budget of the Southeastern U.S. Biota: Analysis of Historical Change in Trend from Source to Sink: H. R. Delcourt and W. F. Harris ........................................... 321

Episodic Ice-Free Arctic Ocean in Pliocene and Pleistocene Time: Calcareous Nannofossil Evidence: T. R. Worsley and Y. Herman ..................................................... 323

Late Wisconsin Climate of Northern Florida and the Origin of Species-Rich Deciduous Forest: W. A. Watts and M. Stuiver ......................................................... 325

Direct Measurement of Microvascular Pressures in the Isolated Perfused Dog Lung: J. Bhattacharya and N. C. Staub ........................................................................... 327

Genotoxicity of the Antihypertensive Drugs Hydralazine and Dihydralazine: G. M. Williams et al. ............................................ 329

Polyamine Metabolism: A Potential Therapeutic Target in Trypanosomes: C. J. Bacchi et al. ........................................... 332

Folic Acid: Crystal Structure and Implications for Enzyme Binding: D. Mastropolo, A. Camerman, N. Camerman ........................................ 334

JH Zero: New Naturally Occurring Insect Juvenile Hormone from Developing Embryos of the Tobacco Hornworm: B. J. Bergot et al. ........................................ 336

Swelling of Nerve Fibers Associated with Action Potentials: K. Iwasa, I. Tasaki, R. C. Gibbons ........................................ 338

Lithium Reduces the Number of Acetylcholine Receptors in Skeletal Muscle: A. Pestronk and D. B. Drachman ........................................... 342

PRODUCTS AND MATERIALS

Electronic Balance; Carbon Dioxide Incubator; Slide and Photograph Service; Gas Chromatograph-Mass Spectrometer; Portable Gas Analyzer; Anaerobic Chamber; Centrifugal Thin-Layer Chromatograph; Aerosol Exposure Chamber; Literature ............................................. 344

COVER

Array of aligned and fused optical fibers conveys a halftone image of an object viewed through an endoscope. The hexagonal shape of the fibers is due to the fusion of the originally round, individual optical fibers. See page 280. [C. Kot, Northwestern University, Evanston, Illinois]
