CIENCE is published weekly on Friday, except the last week in December, by the American Association for the Advancement of Science, 1515 Massachusetts Avenue, NW, Washington, D.C. 20005. Second-class postage (publication No. 484460) paid at Washington, D.C., and at an additional entry. Copyright © 1961 by the American Association for the Advancement of Science. Domestic individual membership and subscription (61 issues); $39. Domestic institutional subscription (61 issues): $76. Foreign postage extra: Canada $14, other (surface mail) 17, by air to Amstafum 345. First class, airmail, school-year, and student rates on request. Single copies: $2 ($2.50 by mail); back issues: $3 ($3.50 by mail); classroom rates on request. Change of address: allow 8 weeks, giving old and new addresses and seven-digit account number. Postmaster: Send Form 3579 to Science, 1515 Massachusetts Avenue, NW, Washington, D.C. 20005. Science is indexed in the Reader’s Guide to Periodical Literature and in several specialized indexes.
REPORTS

Observations of Solar Irradiance Variability: R. C. Wilsson et al. ......................... 700
On the Sources of Summertime Haze in the Eastern United States: G. T. Wolff, N. A. Kelly, M. A. Ferman ............... 703
Hormesis: A Response to Low Environmental Concentrations of Petroleum Hydrocarbons: R. B. Laughlin, Jr., J. Ng, H. E. Guard ......................... 705
Methane Production from Acetate and Associated Methane Fluxes from Anoxic Coastal Sediments: F. J. Sansone and C. S. Martens ......................... 707
Membrane Conductance and Action Potential of a Regenerating Axonal Tip: H. Meiri, M. E. Spira, I. Parnas ......................... 709
Concentration Oscillations and Efficiency: Glycolysis: P. H. Richter and J. Ross ......................... 715
Free and Forced Diving in Birds: J. W. Kanwisher, G. Gabrielsen, N. Kanwisher ......................... 717
Exposure of Newborn Rats to Pharmacologically Active Compounds May Permanently Alter Carcinogen Metabolism: R. A. Faris and T. C. Campbell ......................... 719
Sex Ratio Manipulation and Selection for Attractiveness: N. Burley ......................... 721
Neural Correlates of a Nonjamming Electrolocation System: J. A. Matsubara ......................... 722
Interaction Between Purine and Benzodiazepine: Inosine Reverses Diazepam-Induced Stimulation of Mouse Exploratory Behavior: J. N. Crawley et al. ......................... 725
Tyrosine Administration Decreases Vulnerability to Ventricular Fibrillation in the Normal Canine Heart: N. A. Scott et al. ......................... 727
Cigarette Smoking in the 1970’s: The Impact of the Antismoking Campaign on Consumption: K. E. Warner ......................... 729

PRODUCTS AND MATERIALS

Data Plotter; Nanoliter Pump; Interactive Graphics; Spectrofluorometer;
Liquid Chromatograph; Electrophoresis; Motion Analyzer;
Echocardiograph; DNA Synthesizer; Protein Analyzer; Electrophoresis
Cell; Freezer; Data Acquisition System; Ultraviolet-Visible
Spectrophotometer; Literature. ......................... 736

COVER

View down the axis of double helical DNA photographed directly from real-time, interactive three-dimensional color display. Up to four large molecules may be displayed in color as skeletal models and/or surfaces and their stereochemical interactions studied in three dimensions. See page 661. [Robert Langridge, Computer Graphics Laboratory, University of California, San Francisco]
