BOOK REVIEWS
Proceedings of the Eighth Hawaii Topical Conference in Particle Physics, reviewed by P. Langacker; The Age of Birds, K. E. Campbell, Jr.;
Comparative Physiology: Primitive Mammals, A. F. Bennett; Marine Benthic Dynamics, K. L. Smith, Jr.; Gems Made by Man, D. Elwell; Books Received ........................................ 1153

REPORTS

Chlorine Oxide in the Stratospheric Ozone Layer: Ground-Based Detection and Measurement: A. Parrish et al. .......................................................... 1158

Brachiopods in Mud: Resolution of a Dilemma: J. R. Richardson ........................................ 1161

Novel Complex Polar Lipids from the Methanogenic Archae bacterium Methanospirillum hungatei: S. C. Kushwaha et al. ........................................ 1163

Conversion of 3T3-L1 Fibroblasts to Fat Cells by an Inhibitor of Methylation: P. K. Chiang .......................................................... 1164

Opiate Receptor Gradients in Monkey Cerebral Cortex: Correspondence with Sensory Processing Hierarchies: M. E. Lewis et al. ........................................ 1166

Conduction System in a Sponge: I. D. Lawn, G. O. Mackie, G. Silver ........................................ 1169

Prenatal Exposure to Synthetic Progestins Increases Potential for Aggression in Humans: J. M. Reinisch .......................................................... 1171

Spontaneous Hypertension in Cross-Suckled Rats: J. P. McMurtry, G. L. Wright, B. C. Wexler .......................................................... 1173

Trisomic Hemopoietic Stem Cells of Fetal Origin Restore Hemopoiesis in Lethally Irradiated Mice: E. W. Herbst et al. ........................................ 1175

Larvae of Air-Breathing Fishes as Countercurrent Flow Devices in Hypoxic Environments: K. F. Liem .......................................................... 1177

Growth Factors Modulate Gonadotropin Receptor Induction in Granulosa Cell Cultures: J. S. Mondschein and D. W. Schomberg .......................................................... 1179

Entorhinal and Septal Inputs Differentially Control Sensory-Evoked Responses in the Rat Dentate Gyrus: S. A. Deadywerl, M. O. West, J. H. Robinson .......................................................... 1181

Parasitoids as Selective Agents in the Symbiosis Between Lycaenid Butterfly Larvae and Ants: N. E. Pierce and P. S. Mead .......................................................... 1185

Dye Transfer Through Gap Junctions Between Neuroendocrine Cells of Rat Hypothalamus: R. D. Andrew et al. .......................................................... 1187

Unique Eye of Probable Evolutionary Significance: R. M. Eakin and J. L. Brandenberger .......................................................... 1189

MEETINGS

Gordon Research Conferences: A. M. Cruickshank .......................................................... 1191

COVER

Aerial view of Colby-Sawyer College, New London, New Hampshire, summer headquarters of the Gordon Research Conferences located in the heart of the Lake Sunapee-Dartmouth region. In the background can be seen the Pleasant Lake and the Ragged Mountains—a panorama for the enjoyment of the conferencees. See page 1191. [Photography Unlimited, New London, New Hampshire 03257]
