SCIENCE is published weekly on Friday, except the last week in December, by the American Association for the Advancement of Science, 1515 Massachusetts Avenue, NW, Washington, D.C. 20005. Second-class postage (publication No. 484640) paid at Washington, D.C., and at an additional entry. Now combined with The Science Monthly®. Copyright © 1981 by the American Association for the Advancement of Science. Domestic individual membership and subscription (61 issues): $43. Domestic institutional subscription (61 issues): $50. Foreign postage extra: Canada $24, other (surface mail) $27, air service via Amsterdam $55. First class, airmail, school-year, and student rates on request. Single copies $2 ($2.50 by mail); back issues $3 ($3.50 by mail); classroom rates on request. Change of address: allow 8 weeks, giving old and new addresses and seven-digit account number. Postmaster: Send Form 3579 to Science, 1515 Massachusetts Avenue, NW; Washington, D.C. 20005. Science is indexed in the Reader's Guide to Periodical Literature and in several specialized indexes.
Control of Equatorial Ocean Currents by Turbulent Dissipation: W. R. Crawford and T. R. Osborn .................................................. 539

Regression of Aflatoxin B1–Induced Hepatocellular Carcinomas by Reduced Glutathione: A. M. Novi .............................................. 541

Changes in DNA During Meiosis in a Repair-Deficient Mutant (rad 52) of Yeast: M. A. Resnick et al. .............................................. 543

Mutation Caused by Human Phagocytes: S. A. Weitzman and T. P. Stossel .......... 546

Transformation of Paralytic Shellfish Toxins as Demonstrated in Scallop Homogenates: Y. Shimizu and M. Yoshioka .................................. 547

Tritiated Thymidine Incorporation Does Not Measure DNA Synthesis in Ribavirin-Treated Human Cells: J. C. Drach et al. ......................... 549

Ctenidial Autotomy in Corbicula fluminea in Response to Massive Granulomas: J. C. Britton et al. .......................................................... 551

Purified Reduced Nicotinamide Adenine Dinucleotide: Responses to Lactate Dehydrogenase Isozymes from Three Cell Sources: A. E. Kaplan et al. ............. 553

Excitation of Limulus Photoreceptors by Vanadate and by a Hydrolysis-Resistant Analog of Guanosine Triphosphate: A. Fein and D. W. Corson .............................................. 555

Isoguanosine: Isolation from an Animal: F. A. Fuhrman et al. ...................... 557

Tyrosine Increases Blood Pressure in Hypotensive Rats: L. A. Conlay, T. J. Maher, R. J. Wurtman .................................................. 559

Cadmium-113 Nuclear Magnetic Resonance Studies of Bovine Insulin: Two-Zinc Insulin Hexamer Specifically Binds Calcium: J. L. Sudmeier et al. ............... 560

Evidence for Endomyocorrhizae in Pennsylvanian Age Plant Fossils: C. A. Wagner and T. N. Taylor .................................................. 562

Alternative Male Strategies: Genetic Differences in Crickets: W. H. Cade ........... 563

Energetics of Honeybee Swarm Thermoregulation: B. Heinrich ...................... 565

Different Proteins Associated with 10-Nanometer Filaments in Cultured Chick Neurons and Nonneuronal Cells: G. S. Bennett et al. .............................. 567

Drug Discrimination Learning in Lead-Exposed Rats: H. Zenick and M. Goldsmith .......................................................... 569

Eusociality in a Mammal: Cooperative Breeding in Naked Mole-Rat Colonies: J. U. M. Jarvis .................................................. 571

Male Vole Urine Changes Luteinizing Hormone–Releasing Hormone and Norepinephrine in Female Offactory Bulb: D. E. Dluzen et al. ....................... 573

Age Determination for the Shanidar 3 Neanderthal: D. D. Thompson and E. Trinkaus .......................................................... 575

Antarctic Weddell seal (Leptonychotes weddelli) initiating a dive under the ice shelf near Ross Island, Antarctica. The length of diving depends on regulated blends of anaerobic and aerobic metabolism in different tissues and organs. See page 509. [R. Davis, Scripps Institution of Oceanography, La Jolla, California]
