LETTERS

Warburg Effect Revisited: E. Racker; The Einstein Papers: O. Nathan;
Conservation of Tropical Forests: T. Eisner et al. .................. 1313

EDITORIAL

United States and Technological Preeminence: F. K. Willenbrock ........... 1319

ARTICLES

Pheromones: Background and Potential for Use in Insect Pest Control: R. M. Silverstein .......... 1326

The Essential Trace Elements: W. Mertz ........................................... 1332

NEWS AND COMMENT

Biotechnology Boom Reaches Agriculture ........................................ 1339

Sir Isaac Newton: Mad as a Hatter ............................................. 1341

Briefing: Soviet Oil Projections Up for Grabs; House Bill Would Classify
Much Computer Research; Mallinckrodt Money for Washington U .......... 1342

Problems Continue at Three Mile Island ......................................... 1344

Tight Screening Plan for EPA Data ..................................................... 1345

RESEARCH NEWS

The Puzzle That Is Saturn ................................................................. 1347

The Sounds of Space ................................................................. 1348

To the Planets, Cheaply ................................................................. 1350

ANNUAL MEETING

Building Knowledge and Understanding: Enduring Assets of Society:
A. Herschman; Meeting Information; Preliminary Program; Advance
Registration and Hotel Reservation Forms ........................................ 1353
Antiphase Domains and Reverse Thermoremanent Magnetism in Ilmenite-Hematite Minerals: C. A. Lawson et al. .......................... 1372

Archeological Evidence for Pimple (Prairie) Mound Genesis: L. E. Aten and C. N. Bollich .......................... 1375

Acetylcholine and Bradykinin Relax Intrapulmonary Arteries by Acting on Endothelial Cells: Role in Lung Vascular Diseases: N. Chand and B. M. Altura ...................... 1376

Chiral Recognition by Nucleosides and Nucleotides: Resolution of Helicenes by High-Performance Liquid Chromatography: Y. H. Kim, A. Tishbee, E. Gil-Av ........................ 1379

Squalene in Petroleum Asphaltenes: N. Samman et al. .......................................................... 1381

Phosphorylation of Smooth Muscle Myosin: Evidence for Cooperativity Between the Myosin Heads: A. Persechini and D. J. Hartshorne .............................................. 1383

A Conjugate of $\alpha$-Amanitin and Monoclonal Immunoglobulin G to Thy 1.2 Antigen Is Selectively Toxic to T Lymphoma Cells: M.-T. B. Davis and J. F. Preston III ............... 1385

Spontaneous Diabetes in Rats: Destruction of Islets Is Prevented by Immunological Tolerance: A. Naji et al. .......................................................... 1390

Retrograde Amnesia: Possible Role of Mesencephalic Reticular Activation in Long-Term Memory: E. Goldberg et al. .......................................................... 1392

Characterization of a 41-Residue Ovine Hypothalamic Peptide That Stimulates Secretion of Corticotropin and $\beta$-Endorphin: W. Vale et al. .......................................................... 1394

Suppression of Immunity by Stress: Effect of a Graded Series of Stressors on Lymphocyte Stimulation in the Rat: S. E. Keller et al. .......................................................... 1397

Preferential Synthesis of the Gln(1) Allotype of IgG1 in the Central Nervous System of Multiple Sclerosis Patients: J.-P. Salier et al. .......................................................... 1400

Development of Stereopsis and Cortical Binocularity in Human Infants: Electrophysiological Evidence: B. Petrig et al. .......................................................... 1402

Mating Preferences Are Not Predictive of the Direction of Evolution in Experimental Populations of Drosophila: T. A. Markow .............................. 1405

Spatial Localization After Strabismus Surgery: Evidence for Inflow: M. J. Steinbach and D. R. Smith .......................................................... 1407

Long-Term Stress-Induced Analgesia and Activation of the Opiate System: J. W. Grau et al. .......................................................... 1409
