The most significant advancement in the state of the art since the development of ultra-low temperature freezers is the elimination of the cascade refrigeration system.

Unlike cascade freezers that mercilessly push two or three compressors beyond performance specifications into chronic failure, the Queue Cryostar freezers have only one compressor, running cool and effortlessly, with non-explosive 100% fluorocarbon refrigerants.

Nothing fancy, either. Our sleek new chest and upright freezers incorporate the same basic refrigeration components used throughout your own home.

Remarkably, too, the Cryostar single compressor capabilities easily surpass the physical limitations of cascade designs to yield, at last, the first ever mechanically refrigerated -135°C cryogenic storage systems.

For details on the exciting Cryostar freezers that do twice as much with half the effort, call or write us at Box 1901, Parkersburg, WV 26102, 304-464-5400.

Queue Systems™

Cryostar Model 7110, 12.2 cu. ft., -75°C. Cryostar refrigeration systems are warranted for 25 months.
Whether you’re thinking retirement or not, review the plan that provides for cash withdrawal and/or a lifetime income.

TIAA-CREF Supplemental Retirement Annuities (SRAs) offer you substantial flexibility including cash withdrawal and/or lifetime retirement income. You can even reduce your income taxes now!

You can begin contributions to an SRA at any age and begin benefits at any age up to age 71 unless you are still employed (then you can delay beginning benefits until age 80). For example, you could start contributions at age 25, and choose to begin benefits or withdraw cash at age 34, 40 or 50, regardless of your employment status.

Get your money at any time.
You can receive benefits as a lifetime income or over a fixed period of from 2 to 10 years. What’s more, if you need it (even while employed by your current employer), you can withdraw all the money you have accumulated by surrendering your contracts. Or, you can withdraw $1,000 or more every six months. There is never a cash surrender charge.

Contributions are tax-deferred, so you pay less income taxes now.
The federal income tax on your contributions is deferred until they are paid to you as benefits. So, you pay less tax now.

Changing employers? Take SRAs with you.
Since you own your Supplemental Retirement Annuities, you take them with you if you leave your current employer. You can make contributions through any institution that makes Supplemental Retirement Annuities available to staff members. Contributions can be as little as $25 a month.

Full information.
Complete and mail the coupon for an SRA Information Kit today. You’ll get full details about all the advantages SRAs have to offer, why this plan suits so many financial situations and age groups and how much you may contribute to the plan.

*TIAA-CREF provides annuities and other services for employees of colleges, universities, private schools and certain other nonprofit tax-exempt educational and research institutions.

If an Eppendorf® Pipette could pipette a sample up to 48 times without refilling, it would look like this.

Imagine an Eppendorf Pipette that dispenses up to 48 times without refilling.

Imagine a pipette that makes serial pipetting at 1-second intervals as easy as pressing a small lever.

Imagine a pipette that eliminates cleaning, contamination and carry-over error problems with interchangeable Combitips,* disposable plastic sample reservoirs available in 3 sizes (0.5, 2.5 and 12.5ml capacity).

Imagine a pipette with foolproof ‘click-set’ volume adjustment dial to select among 5 volume increments for each size Combitip, giving you a choice of 13 different volumes from 10 to 1,250μl.

Only one pipette can do all this with traditional Eppendorf accuracy, precision and operating ease. Only Eppendorf makes it...The Repeater, the new repetitive pipette with disposable Combitips.

For literature, write: Eppendorf Division, Brinkmann Instruments, Inc., Subsidiary of Sybron Corporation, Cantiague Road, Westbury, N.Y. 11590, or call 516/334-7500. In Canada: Brinkmann Instruments (Canada), Ltd., or call 416/675-7911.

Eppendorf Repeater

ReZist solvents.

S&S has added a new disposable filter holder to its FP 030 series. Solvent-resistant ReZist (Cat. #FP 030/7) is specially designed for the clarification of HPLC solvents, photo resists and organics. Its polypropylene housing and 0.5 μm PTFE membrane make it compatible with a wide range of solvents. The color-coded yellow rim avoids confusion with other filter holders in the FP 030 series. It's perfect for use in the analytical chemistry lab, and the electronics, precision engineering and photography industries. Like the rest of the FP 030 series, ReZist gives you up to 100% more filter area than any other syringe-type disposable holder and twice as high a pressure rating—up to 150 psi. Available in packages of 50, 100 and 500. Call or write for complete information.

14 sure bets at 2:1 odds.

BIOSIS/CAS SELECTS

BioSciences Information Service (BIOSIS) and Chemical Abstracts Service (CAS) are working together to bring you 14 new current awareness titles.

Each topic in biochemistry, physiology, and pharmacology is searched on both data bases, providing combined coverage of over 15,000 serials annually. Every 2 weeks, subscribers receive a new issue containing up to 250 abstracts and content summaries on the BIOSIS/CAS Selects title of their choice. Complete current awareness at a price you can afford: $100/year for 26 issues (higher overseas). That's $3.85/issue. Small stakes for the right information return.

For further information check the topic(s) of your choice, provide your
