LETTERS
Nuclear Non-Proliferation: E. J. Markey; Technological Manpower: S. Doniaich; Fetal Alcohol Advisory: R. E. Little; R. J. Sokol; Resolution of Phosphorus Chemists: L. D. Quin et al.; Biomedical Research Funding: J. Gross

EDITORIAL
Creationism and the Age of the Earth

ARTICLES
Catalytic Coal Gasification: An Emerging Technology: R. L. Hirsch et al. ............................. 121
Regional Differences in the Growth of Normal and Neoplastic Cells: R. Auerbach and W. Auerbach ............................. 127
Biological Control in Agroecosystems: S. W. T. Batra ............................................................. 134
Scientific Exchanges and U.S. National Security: W. D. Carey; F. Carlucci ............................. 139

NEWS AND COMMENT
Where Is the Science in Creation Science? ................................................................. 142
Briefing: Magazine of the People; Smithsonian Cuts Up Anthropological Film Unit; NSF Finally Gets a Budget for FY 1982; American Scientists Protest Polish Actions ................................................................. 144
Commerce to Inherit Energy Research ................................................................. 147
Low Priority for Clinch River ................................................................. 148
A Star Fades for Entrepreneur Sagan ................................................................. 149

RESEARCH NEWS
High-Resolution Imaging with Soft X-rays ................................................................. 150
A Metallurgical Tale of Irony ................................................................. 153

BOOK REVIEWS
The Hunters or the Hunted?, reviewed by D. P. Gifford; The Origins of the Turbojet Revolution, R. P. Hallion; Solar Flare Magnetohydrodynamics, D. S. Spicer; Contemporary Microbial Ecology, R. Mitchell; Paleobotany, Paleocology, and Evolution, K. L. Alvin; Books Received ................................................................. 154
Prices of Books ................................................................. 155
REPORTS

The Coalescence of Two East Australian Current Warm-Core Eddies: G. R. Cresswell ........................................................................... 161

The Chloride Cell: Definitive Identification as the Salt-Secreting Cell in Teleosts: J. K. Foskett and C. Scheffey .................................................. 164

Liposomes as Gene Carriers: Efficient Transformation of Mouse L-Cells by Thymidine Kinase Gene: M. Schaefier-Ridder, Y. Wang, P. H. Hofschneider 166

Group B Erythrocytes Enzymatically Converted to Group O Survive Normally in A, B, and O Individuals: J. Goldstein et al ............................................. 168

Actin Distribution Patterns in the Mouse Neural Tube During Neurulation: T. W. Sadler et al ............................................................ 172

Wound Tissue Can Utilize a Polymeric Template to Synthesize a Functional Extension of Skin: I. V. Yannas et al ........................................... 174

Tumor Metastasis Is Not Due to Adaptation of Cells to a New Organ Environment: G. L. Nicolson and S. E. Cusled ........................................ 176

Specific Chromosome Defect Associated with Human Small-Cell Lung Cancer: Deletion 3p(14-23): J. Whang-Peng et al .............................................. 181

Is the Acetylcholine Receptor a Rabies Virus Receptor?: T. L. Lentz et al ........................................................................................................ 182

Insulin Stimulates the Phosphorylation of the 95,000-Dalton Subunit of Its Own Receptor: M. Kasuga, F. A. Karlsson, C. R. Kahn .................................. 185

Origin of the Cholecystokinin-Containing Fibers in the Rat Caudatoputamen: D. K. Meyer et al ............................................................. 187

Substance P Analog, Dime-C7: Evidence for Stability in Rat Brain and Prolonged Central Actions: A. S. Eison et al ................................................ 188

Reduced Sympathetic Nervous System Responsivity Associated with the Relaxation Response: J. W. Hoffman et al ............................................ 190

Integrating Visual Information from Successive Fixations: J. Jonides, D. E. Irwin, S. Yantis ........................................................................ 192

How Do We Avoid Confounding the Direction We Are Looking and the Direction We Are Moving?: D. Regan and K. I. Beverley .................................. 194

PRODUCTS AND MATERIALS

Radioimmunoassay Counter; Thin-Layer Chromatography Spotter; Electrophoresis Separation System; Human T-Cell Growth Factor; Preparative System for Fast Chemical Reactions; DNA Sequencing Vectors; Hematology Analyzer; Literature ........................................ 198

The American Association for the Advancement of Science was founded in 1848 and incorporated in 1874. Its objects are to further the work of scientists, to facilitate cooperation among them, to foster scientific freedom and responsibility, to improve the effectiveness of science in the promotion of human welfare, and to increase public understanding and appreciation of the importance and promise of the methods of science in human progress.
