LETTERS

EDITORIAL

Clean Fuels from Coal .................................................. 351

ARTICLES

Paleoflood Hydrology: R. C. Kochel and V. R. Baker ............................................. 353
Autocidal Control of Screwworms in North America: R. H. Richardson, J. R. Ellison, W. W. Averhoff ........................................... 361
Environmental Uses of the NIH-EPA Chemical Information System: G. W. A. Milne et al. .......................................................... 371

NEWS AND COMMENT

A Long-Term Problem for the Nuclear Industry ............................................... 376
Isotopes the Nuclear Industry Overlooked ....................................................... 377
Rehnquist’s Drug Dependence Poses Dilemma .................................................. 379
At AAAS Meeting, a Closing of Ranks .............................................................. 380
Judge’s Ruling Hits Hard at Creationism .......................................................... 381

Briefing: Goyan Sees Risks in Academic Drug Ventures; Ethicist Approves Test-Tube Baby Research; CIA Director Warns Scientists; Scientists Honored for Freedom and Responsibility .................................................. 382

RESEARCH NEWS

California’s Shaking Next Time ................................................................. 385
AAAS Research Briefing: A Better Chance for Kidney Transplantation; A Boundary for the Quasars?; A New Look Inside the Sickle Erythrocyte; Extinctions: Iridium and Who Went When .................................................. 388

BOOK REVIEWS

Errors in Linguistic Performance, reviewed by J. B. Gleason; The Urban Climate, W. P. Lowry; Conservation and Evolution, D. Rabinowitz; Survival in the Cold, G. L. Florant; The Shore Environment, P. K. Dayton; Books Received .................................................. 390

SCIENCE is published weekly on Friday, except the last week in December, by the American Association for the Advancement of Science, 1515 Massachusetts Avenue, NW, Washington, D.C. 20005. Second-class postage (publication No. 484469) paid at Washington, D.C. and at an additional entry. Now combined with The Science Monthly®. Copyright © 1982 by the American Association for the Advancement of Science. Domestic individual membership and subscription (51 issues): $45; Domestic institutional subscription (51 issues): $60. Foreign postage extra: Canada $24, other (surface mail) $57, air-surface via Amsterdam $555. First class, airmail, school-year, and student rates on request. Single copies $2.50 ($3 by mail); back issues $3 ($3.50 by mail); classroom rates on request. Change of address: allow 6 weeks, giving old and new addresses and seven-digit account number. Postmaster: Send Form 3579 to Science, 1515 Massachusetts Avenue, NW, Washington, D.C. 20005. Science is indexed in the Reader’s Guide to Periodical Literature and in several specialized indexes.
**PRODUCTS AND MATERIALS**

Fixative Without Formaldehyde; Balances; Vibration Isolation Benches; Microtome Cryostat; Laboratories; DNA Sequencer; Literature
