Klaus D. Timmerhaus President
M. Michelle Balcin  Executive Officer

SCIENCE is published weekly on Friday, except the last week in December, by the American Association for the Advancement of Science, 1515 Massachusetts Avenue, NW, Washington, D.C. 20005. Second-class postage (publication No. 484443) paid at Washington, D.C., and at an additional entry. New combined with The Science Monthly; Copyright © 1982 by the American Association for the Advancement of Science. Domestic individual membership and subscription (51 issues): $48. Domestic institutional subscription (51 issues): $65. Foreign postage extra: Canada $24, other (surface mail) $27, air-service via Amsterdam $55; First class, airmail, school-year, and student rates on request. Single copies $2.50 ($3 by mail); back issues $3 ($5.50 by mail); classroom rate on request. Change of address: allow 6 weeks, giving old and new addresses and seven-digit account number. Postmaster: Send Form 3579 to Science, 1515 Massachusetts Avenue, NW, Washington, D.C. 20005. Science is indexed in the Reader's Guide to Periodical Literature and in several specialized indexes.
BOOK REVIEWS

Biological Diversification in the Tropics, reviewed by B. B. Simpson; The Biology of Centipedes, R. L. Hoffman; Biological Clocks in Seasonal Reproductive Cycles, F. K. Stephan; To Fulfill a Vision, S. A. Bludman; John Tyndall, D. B. Wilson; Books Received .................................................. 526

REPORTS

Magmatic Resurgence in Long Valley Caldera, California: Possible Cause of the 1980 Mammoth Lakes Earthquakes: J. C. Savage and M. M. Clark .................. 531
Ancient Maya Mercury: D. M. Pendergast .................................................. 533
Mus poschiavinus Y Chromosome in the C57BL/6J Murine Genome Causes Sex Reversal: E. M. Eicher et al. .................................................. 535
Intracellular Oxidation-Reduction State Measured in situ by a Multichannel Fiber-Optic Surface Fluorometer: A. Mayevsky and B. Chance .................................. 537
Tumor Cell–Platelet Aggregation: Induced by Cathepsin B–Like Protease and Inhibited by Prostacyclin: K. V. Honn et al. ........................................... 540
Inhibition of Steroid Glycoalkaloid Accumulation by Arachidonic and Eicosapentaenoic Acids in Potato: E. C. Tjanos and J. A. Kuć ........................................ 542
Radiosensitization of Hypoxic Tumor Cells by Depletion of Intracellular Glutathione: E. A. Bump, N. Y. Yu, J. M. Brown ........................................... 544
Eumelanins and Pheomelanins: Characterization by Electron Spin Resonance Spectroscopy: R. C. Sealy et al. ................................................................. 545
Variation in the Social Grouping Tendency of a Communal Web-Building Spider: G. W. Uetz, T. C. Kane, G. E. Straton ........................................... 547
Anatomical Plasticity and Sparring of Function After Spinal Cord Damage in Neonatal Cats: B. S. Bregman and M. E. Goldberger ........................................... 553
Presynaptic Location and Axonal Transport of β2-Adrenoreceptors in the Rat Brain: B. E. Levin ................................................................. 555
Adrenal Medullary Enkephalin-Like Peptides May Mediate Opioid Stress Analgesia: J. W. Lewis et al. ................................................................. 557

COVER

Area of Quaternary volcanism and faulting near Mammoth Lakes, California. See page 531.
