REPORTS

Trace Fossils from the Athabasca Oil Sands, Alberta, Canada: 
S. G. Pemberton, P. D. Flach, G. D. Mossop .......................... 825

Selenol in Reducing Waters: G. A. Cutter .............................. 827

Organic Matter in a Coal Ball: Peat or Coal?: P. G. Hatcher et al. 831

Remote Acoustic Detection of a Turbidity Current Surge: A. E. Hay, 
R. W. Burling, J. W. Murray .............................................. 833

Selenium in Reducing Waters: G. A. Cutter .............................. 827

OrgancM Maerin a Co-al Ball: Peat or Coal?: P. G. Hatcher et al. 831

Remuote Acoustic Detection of a Turbidity Current Surge: A. E. Hay, 
R. W. Burling, J. W. Murray .............................................. 833

Phosphorylaton i Light Chatns in Mouse Fast-Twitch Muscle Associated 
with Reduced Actoamiyosin Turnover Rate: M. T. Crow and M. J. Kushmerick 835

Cardiovascular Actions of Cadmium at Environmental Exposure Levels: 
S. J. Kopp et al. ............................................................... 837

Light-Induced Modification of Drosophila Retinal Polypeptides in vivo:
H. Matsumoto, J. E. O'Tousa, W. L. Pak ................................ 839

Leukotriene D4: A Potent Coronary Artery Vasoconstrictor Associated 
with Impaired Ventricular Contraction: F. Michelassi et al. ........... 841

High-Affinity Choline Transport in Proteoliposomes Derived from Rat Cortical 
Synaptosomes: E. M. Meyer and J. R. Cooper ......................... 843

Endotoxin-Stimulated Opioid Peptide Secretion: Two Secretory Pools and 
Feedback Control in vivo: D. B. Carr et al. .............................. 845

Significance of Tissue myo-Inositol Concentrations in Metabolic Regulation 
in Nerve: D. A. Simmons, A. I. Winegrad, D. B. Martin ............... 848

Anomalous Patterns in Cultured Cell Monolayers: E. M. Adler et al. .... 851

The Carboxy Terminus of the Precursor to Vasopressin and Neurophysin:
Immunocytochemistry in Rat Brain: S. J. Watson, N. G. Seidah, M. Chrétienn 853

Amphetamine, Haloperidol, and Experience Interct to Affect Rate of Recovery 
After Motor Cortex Injury: D. M. Feeney, A. Gonzalez, W. A. Law ........ 855

Velocity Signals Related to Hand Movements Recorded from Red Nucleus 
Neurons in Monkeys: N. J. Kohlman, A. R. Gibson, J. C. Houk .......... 857

Brain Injury Causes a Time-Dependent Increase in Neuronotrophic Activity at 
the Lesion Site: M. Nieto-Sampedro et al. .............................. 860

COVER

Ediacarian fossil, Mawsonites spriggi Gaessner and Wade 1966 (true diame-
ter, 11 to 12.5 centimeters). A distinctive medusoid of the basal Phanerozoic 
Ediacarian System; from the Ediacara Member of the Rawsley Quartzite, 
Pond Subgroup, Ediacara Hills, Flinders Ranges, South Australia. See page 
783. [Photo of holotype by Neville Hedge, with his permission and that of the 
South Australian Museum, Adel-
